Upgrade Related

You may encounter a blank Global Dashboard after upgrading to 7.0.4. There are two workarounds.

1. If you have not upgraded yet, then run the script `updateDashboard.sh` as root on Supervisor before upgrade. You can upgrade after running the script.
2. If you have upgraded to 7.0.4 and then see a blank Global Dashboard, then run the script `updateImportDashboard.sh` as root on Supervisor.
