FortiAnalyzer 6.4.8 Dataset Reference
05-648-0803421-20220503

# TABLE OF CONTENTS

# Introduction

This document provides information about the various types of FortiAnalyzer datasets.

## Understanding datasets and macros

FortiAnalyzer datasets are collections of log messages from monitored devices.

Charts in FortiAnalyzer are generated based on the datasets. To create a chart, you can use the predefined datasets, or you can create your own custom datasets by querying the log messages in the SQL database on the FortiAnalyzer unit. Both predefined and custom datasets can be cloned, but only custom datasets can be deleted. You can also view the SQL query for a dataset, and test the query against specific devices or log arrays.

You can create custom reports that contain macros that are created based on predefined and custom datasets. Macros are used to dynamically display the device log data as text in a report. They can be embedded within a text field of a paragraph in a report layout in XML format. Macros display a single value, such as a user name, highest session count, or highest bandwidth, and so on.

For more information about how to create datasets, charts, and macros, see the FortiAnalyzer *Administration Guide*.

# Dataset Reference List

The following tables list the datasets included with FortiAnalyzer. The tables contain the name, SQL query syntax, and log category for each dataset.

| Dataset Name | Description | Log Category |
|---|---|---|
| Traffic-Bandwidth-Summary-Day-Of-Month | Traffic bandwidth timeline | traffic |

```
select
  $flex_timescale(timestamp) as hodex,
  sum(traffic_out) as traffic_out,
  sum(traffic_in) as traffic_in

# Macro Reference List

The following table lists the available predefined macros that can be used in a report layout to display the log data as text (XML format) dynamically.

| Macro Name | Description | Dataset Used | Log Category |
|---|---|---|---|
| Application Category with Highest Session Count | Application category with the highest session count | App-Sessions-By-Category | Traffic |
| Application with Highest Bandwidth | Application with the highest bandwidth usage | Top-App-By-Bandwidth | Traffic |
| Application with Highest Session Count | Applications with the highest session count | Top-App-By-Sessions | Traffic |
| Attack with Highest Session Count | Attack with highest session count | Utm-Top-Attack-Source | Attack |
| Botnet with Highest Session Count | Botnet with the highest session count | Detected-Botnet | Traffic |
| Destination with Highest Bandwidth | Destination with the highest bandwidth usage | Top-Destinations-By-Bandwidth | Traffic |
| Destination with Highest Session Count | Destination with the highest session count | Top-Destinations-By-Sessions | Traffic |
| Highest Bandwidth Consumed (Application) Category | Highest bandwidth consumed by application category | App-Risk-App-Usage-By-Category | Traffic |
| Highest Bandwidth Consumed (Application) | Highest bandwidth consumed by application | Top-App-By-Bandwidth | Traffic |
| Highest Bandwidth Consumed (Destination) | Highest bandwidth consumed by destination | Top-Destinations-By-Bandwidth | Traffic |
| Highest Bandwidth Consumed (P2P Application) | Highest bandwidth consumed by P2P application | Top-P2P-App-By-Bandwidth | Traffic |
| Highest Bandwidth Consumed (Source) | Highest bandwidth consumed by source | Top-Users-By-Bandwidth | Traffic |
| Highest Bandwidth Consumed ()Web Category) | Highest bandwidth consumed by website category | Top-Web-Category-by-Bandwidth | Web Filter |
| Highest Bandwidth Consumed (Website) | Highest bandwidth consumed by website | Top-Web-Sites-by-Bandwidth | Web Filter |
| Highest Risk Application with Highest Bandwidth | Highest risk application with the highest bandwidth usage | High-Risk-Application-By-Bandwidth | Traffic |
| Highest Risk Application with Highest Session Count | Highest risk application with the highest session count | High-Risk-Application-By-Sessions | Traffic |

| Macro Name | Description | Dataset Used | Log Category |
|---|---|---|---|
| Highest Session Count by Application Category | Highest session count by application category | App-Sessions-By-Category | Traffic |
| Highest Session Count by Application | Highest session count by application | Top-App-By-Sessions | Traffic |
| Highest Session Count by Attack | Highest session count by attack | Utm-Top-Attack-Source | Attack |
| Highest Session Count by Botnet | Highest session count by botnet | Detected-Botnet | Traffic |
| Highest Session Count by Destination | Highest session count by destination | Top-Destinations-By-Sessions | Traffic |
| Highest Session Count by Highest Severity Attack | Highest session count by highest severity attack | Threat-Attacks-By-Severity | Attack |
| Highest Session Count by P2P Application | Highest session count by P2P application | Top-P2P-App-By-Sessions | Traffic |
| Highest Session Count by Source | Highest session count by source | Top-User-Source-By-Sessions | Traffic |
| Highest Session Count by Virus | Highest session count by virus | Utm-Top-Virus | Traffic |
| Highest Session Count by Web Category | Highest session count by website category | Top-Web-Category-by-Sessions | Web Filter |
| Highest Session Count by Website | Highest session count by website | Top-Web-Sites-by-Sessions | Web Filter |
| Highest Severity Attack with Highest Session Count | Highest severity attack with the highest session count | Threat-Attacks-By-Severity | Attack |
| P2P Application with Highest Bandwidth | P2P applications with the highest bandwidth usage | Top-P2P-App-By-Bandwidth | Traffic |
| P2P Application with Highest Session Count | P2P applications with the highest session count | Top-P2P-App-By-Sessions | Traffic |
| Source with Highest Bandwidth | Source with the highest bandwidth usage | Top-Users-By-Bandwidth | Traffic |
| Source with Highest Session Count | Source with the highest session count | Top-User-Source-By-Sessions | Traffic |
| Total Number of Attacks | Total number of attacks detected | Total-Attack-Source | Attack |
| Total Number of Botnet Events | Total number of botnet events | Total-Number-of-Botnet-Events | Traffic |
| Total Number of Viruses | Total number of viruses detected | Total-Number-of-Viruses | Traffic |
| User Details | User details of traffic | Traffic-User-Detail | Traffic |
| Virus with Highest Session Count | Virus with the highest session count | Utm-Top-Virus | Traffic |

| Macro Name | Description | Dataset Used | Log Category |
|---|---|---|---|
| Web Category with Highest Bandwidth | Web filtering category with the highest bandwidth usage | Top-Web-Category-by-Bandwidth | Web Filter |
| Web Category with Highest Session Count | Web filtering category with the highest session count | Top-Web-Category-by-Sessions | Web Filter |
| Website with Highest Bandwidth | Website with the highest bandwidth usage | Top-Web-Sites-by-Bandwidth | Web Filter |
| Website with Highest Session Count | Website with the highest session count | Top-Web-Sites-by-Sessions | Web Filter |
