Change log 18

Introduction

FortiClient Endpoint Management Server (EMS) is a system intended to be used to manage installations of FortiClient. It uses the Endpoint Control protocol and supports all FortiClient platforms: Microsoft Windows, macOS, Linux, Android OS, Apple iOS, and Chrome OS. FortiClient EMS runs on a Microsoft Windows server.

This document provides the following information for FortiClient EMS 7.0.1 build 103:

- [Special notices on page 7](#)
- [What's New on page 1](#)
- [Upgrading on page 8](#)
- [Resolved issues on page 10](#)
- [Known issues on page 14](#)

For information about FortiClient EMS, see the [FortiClient EMS 7.0.1 Administration Guide](#).

Endpoint requirements

The following FortiClient platforms are supported:

- FortiClient for Microsoft Windows
- FortiClient for macOS
- FortiClient for Linux
- FortiClient for Android OS
- FortiClient for iOS
- FortiClient for Chromebooks

See [Product integration and support on page 9](#) for FortiClient version support information.

FortiClient is supported on multiple Microsoft Windows, macOS, and Linux platforms. EMS supports all such platforms as endpoints.

Supported web browsers

The latest version of the following web browsers can be used to connect remotely to the FortiClient EMS 7.0.1 GUI:

- Mozilla Firefox
- Google Chrome
- Microsoft Edge

Internet Explorer is not recommended. Remote access may need to be enabled from the FortiClient EMS GUI.

Licensing and installation

For information on licensing and installing FortiClient EMS, see the [FortiClient EMS Administration Guide](#).

Ensuring that all installed software, including EMS and SQL Server, is up-to-date, is considered best practice.

Special notices

FortiClient EMS Microsoft Visual C++ installation

The EMS installation includes installation of Microsoft Visual C++ (VC) 2015. If the server already has a newer version of VC installed, the installation fails. See [VC++ 2015 Redistributable installation returns error 1638 when newer version already installed](#).

If you have a version of VC installed on your server that is newer than 2015, uninstall VC before installing EMS.

SQL Server Standard or Enterprise with 5000 or more endpoints

When managing more than 5000 endpoints, install SQL Server Standard or Enterprise instead of SQL Server Express, which the EMS installation also installs by default. Otherwise, you may experience database deadlocks. The minimum SQL Server version that FortiClient EMS supports is 2017. See the [FortiClient EMS Administration Guide](#).

Split tunnel

In EMS 7.0.0, you configure application split tunnel using per-tunnel configuration, not a global configuration. If you are upgrading from an older version that uses the global application split tunnel configuration, ensure that you change the configuration to per-tunnel.

Upgrading

Upgrading from previous EMS versions

FortiClient EMS supports direct upgrade from EMS 6.2 and 6.4. To upgrade older EMS versions, follow the upgrade procedure outlined in [FortiClient and FortiClient EMS Upgrade Paths](#).

Downgrading to previous versions

FortiClient EMS does not support downgrading to previous EMS versions.

Product integration and support

The following table lists version 7.0.1 product integration and support information:

| | |
|------------------------------------|---|
| Server operating systems | <ul style="list-style-type: none">• Windows Server 2019. On Windows Server 2019, preinstalling Microsoft ODBC Driver 17 for SQL Server (x64) is necessary.• Windows Server 2016• Windows Server 2012 R2 |
| Minimum system requirements | <ul style="list-style-type: none">• 2.0 GHz 64-bit processor, six virtual CPUs (6 vCPU)• 8 GB RAM (10 GB RAM or more is recommended)• 40 GB free hard disk• Gigabit (10/100/1000baseT) Ethernet adapter• Internet access is recommended, but optional, during installation. SQL Server may require some dependencies to be downloaded over the Internet. EMS will also try to download information about FortiClient signature updates from FortiGuard. <p>You should only install FortiClient EMS and the default services for the operating system on the server. You should not install additional services on the same server as FortiClient EMS.</p> |
| FortiAnalyzer | <ul style="list-style-type: none">• 7.0.0 and later• 6.4.0 and later |
| FortiClient (Linux) | <ul style="list-style-type: none">• 7.0.0 and later• 6.4.0 and later |
| FortiClient (macOS) | <ul style="list-style-type: none">• 7.0.0 and later• 6.4.0 and later |
| FortiClient (Windows) | <ul style="list-style-type: none">• 7.0.0 and later• 6.4.0 and later |
| FortiOS | <ul style="list-style-type: none">• 7.0.0 and later• 6.4.0 and later |
| FortiSandbox | <ul style="list-style-type: none">• 4.0.0 and later (for detailed reports on files that FortiSandbox has detected)• 3.2.0 and later (for detailed reports on files that FortiSandbox has detected)• 3.1.0 and later (for detailed reports on files that FortiSandbox has detected)• 3.0.0 and later• 2.5.0 and later |

Installing and running EMS on a domain controller is not supported.

Resolved issues

The following issues have been fixed in version 7.0.1. For inquiries about a particular bug or to report a bug, contact [Customer Service & Support](#).

Dashboard

| Bug ID | Description |
|--------|---|
| 718122 | License capacity cannot be below the number of active endpoints error in EMS with multitenancy enabled. |

Deployment and installers

| Bug ID | Description |
|--------|---|
| 665974 | EMS fails to create deployment package from FortiGuard Distribution Server (FDS). |
| 698222 | LDAP organization units (OU) do not show correctly in <i>Edit Groups</i> of deployment package wizard. |
| 708686 | EMS allows deletion of FortiClient installer assigned to deployment policy when deleting corresponding invitation code. |
| 719705 | User cannot create FortiClient installer package. |
| 721647 | FortiClient and EMS should prevent installation and upgrade to unsupported OS versions. |

Settings

| Bug ID | Description |
|--------|--|
| 718276 | The VCM engine is missing for Windows. |

Endpoint management

| Bug ID | Description |
|--------|---|
| 677247 | When Active Directory (AD) domain is added, EMS shows multiple records of same domain. |
| 687927 | AD sync issues with EMS. |
| 696869 | LDAP sync cannot import some endpoints and endpoints appear in <i>Other Endpoints</i> group after manual install. |
| 697136 | EMS cannot connect to LDAP server. |
| 698825 | EMS cannot import same OU from AD server when more than ten sites are enabled. |
| 705254 | On-premise EMS invitation use count number keeps increasing when the same endpoint unregisters and reregisters. |
| 705500 | EMS should filter FortiClient version that does not support invitation code. |
| 712466 | <i>Individual</i> should be toggled on instead of <i>Bulk</i> in the edit page of an individual code. |
| 716353 | <i>Real-Time Protection Enabled</i> does not show in green. |
| 722445 | Endpoints show up as online when they are not currently connected. |
| 724616 | Domain sync fails with <i>The distinguished name contains invalid syntax.</i> error. |

Endpoint policy and profile

| Bug ID | Description |
|--------|--|
| 573037 | EMS provides no information regarding real-time protection (RTP) status. |
| 670774 | Error while importing Web Filter profiles from FortiGate. |
| 690321 | EMS does not update the endpoint policy when user changes groups. |
| 697911 | Synced updates from imported FortiGate Web Filter profile do not sync to FortiClient. |
| 698632 | Removable Media Access rule does not work. |
| 716989 | FortiClient does not block security category not blocked when RTP is enabled but Web Filter is disabled. |
| 722093 | Chromebook profile convert to normal profile after XML editing without saving. |
| 723465 | Profiles do not sync IPsec VPN phase 2 configuration to FortiClient. |
| 724453 | <i>Prompt for Certificate</i> option does not set the correct XML setting. |
| 727769 | <i>Sort by Policy Name</i> is broken. |

Upgrade

| Bug ID | Description |
|--------|---|
| 710176 | Long AD endpoint groups do not appear under <i>Manage Policies</i> after upgrade. |
| 716938 | LDAP sync issue after upgrading EMS to 7.0.0. |
| 723902 | LDAP sync issue after upgrading EMS to 6.4.4. |

Multitenancy

| Bug ID | Description |
|--------|--|
| 721823 | Deployment status always shows as <i>Endpoint Notified</i> in EMS GUI. |

Chromebook management

| Bug ID | Description |
|--------|---|
| 714739 | Devtools reports <i>Unable to retrieve word signature from EMS</i> error. |

GUI

| Bug ID | Description |
|--------|--|
| 710355 | <i>System Information</i> widget does not display on Chromebook dashboard, but does in <i>Manage Dashboard Widgets</i> list. |
| 719783 | GUI hides EMS alerts. |

Zero Trust tagging

| Bug ID | Description |
|--------|---|
| 639955 | EMS should allow custom user input values for OS rule validation. |
| 726610 | Zero Trust tagging rule does not work after upgrade. |

Administration

| Bug ID | Description |
|--------|--|
| 714167 | Local EMS user with custom role does not see details relating to FortiClient features under endpoint list. |
| 721644 | <i>Mark as uninstalled</i> action should not be available for managed endpoints. |

Other

| Bug ID | Description |
|--------|---|
| 700616 | EMS should fully stop supporting FortiGate server list. |
| 704222 | Remove EMS FSSO settings. |
| 715878 | Online installer cannot get EMS installed from production FDS. |
| 716408 | Failures to update ISDB signature errors are shown on FCM task logs . |
| 716967 | EMS shows <i>Missing site information</i> error. |
| 721026 | FCMDaemon.exe crash after upgrade. |

Known issues

The following issues have been identified in version 7.0.1. For inquiries about a particular bug or to report a bug, contact [Customer Service & Support](#).

Multitenancy

| Bug ID | Description |
|--------|---|
| 722144 | FortiClient cannot connect with non-default site after deleting non-default site and recreating it. |

Dashboard

| Bug ID | Description |
|--------|---|
| 716126 | FortiSASE SIA instance uses Next Generation Endpoint Security licenses. |
| 724870 | Linux servers do not display in dashboard widgets. |
| 733182 | License tag alert continues after user uploads license. |
| 735750 | Exceeded max allowed requests in last hour when syncing license in EMS. |

Endpoint management

| Bug ID | Description |
|--------|---|
| 705010 | EMS shows endpoints with incorrect username. |
| 718651 | FortiClient Cloud invitation email must be updated. |
| 725170 | Vulnerabilities that FortiClient has detected do not show in EMS. |

Endpoint policy and profile

| Bug ID | Description |
|--------|--|
| 598733 | EMS profile fails to update Sandbox exclusion folder and files list. |
| 697971 | EMS fails to import profiles. |
| 708985 | <i>Exclude Selected Applications from Vulnerability Compliance Check</i> gives error when adding an application. |
| 720348 | VPN settings hides <i>Show "Always Up" Option</i> when <i>Auto Connect Only When Off-Fabric</i> option is enabled. |
| 731716 | Application name link to FortiGuard under <i>Application Firewall > Application Signatures</i> does not work. |

Installation and upgrade

| Bug ID | Description |
|--------|---|
| 724743 | Upgrade reassigns devices to the default group. |

Zero Trust Network Access

| Bug ID | Description |
|--------|---|
| 734924 | FortiClient EMS should not allow duplicate ZTNA TCP connection rule name. |

Deployment and installers

| Bug ID | Description |
|--------|---|
| 700462 | FortiClient download URL refresh button fails to get new IP address. |
| 725061 | User cannot create new installer after deleting the old one on FortiClient Cloud. |
| 726720 | Deployment packages install FortiClient without deployment settings. |
| 729978 | EMS fails to create deployment package that include Windows and macOS images. |
| 731440 | EMS takes a long time to create deployment package zip file. |
| 732414 | Editing and saving deployment package changes the download link. |

| Bug ID | Description |
|--------|---|
| 734307 | Deployment status always shows endpoint notified for 32-bit OS. |

System Settings

| Bug ID | Description |
|--------|--------------------------------------|
| 731659 | EMS and endpoint alerts do not work. |

Software Inventory

| Bug ID | Description |
|--------|---|
| 734893 | Software Inventory does not update for application removed from endpoint. |

Administration

| Bug ID | Description |
|--------|--|
| 728424 | Administrator with <i>Manage custom groups</i> permission cannot create or delete custom groups. |

Fabric devices

| Bug ID | Description |
|--------|--|
| 682639 | EMS never updates Fabric Devices state after authorizing the FortiGate. |
| 703319 | ZTNA Linux endpoint is not tagged when connected via SSL VPN to FortiGate. |
| 708672 | FortiGate can only show one FortiClient (latest connected via SSL VPN) in endpoint record list and only this FortiClient gets dynamic address. |
| 718145 | Endpoint record entries disappear from FortiGate when using EMS tags. |
| 722030 | FortiGate cannot get endpoint record information from EMS and FortiOS. |
| 722178 | FortiGate cannot get notification from EMS when EMS creates new ZTNA tag or deletes the old one. |

| Bug ID | Description |
|--------|---|
| 728318 | EMS ZTNA tags sync to FortiGate is delayed. |
| 733645 | Fabric connection error. |

Performance

| Bug ID | Description |
|--------|--|
| 707316 | FcmDaemon.exe uses all available memory. |

Zero Trust tagging

| Bug ID | Description |
|--------|---|
| 731074 | Importing the same JSON file for Zero Trust tags twice introduces duplicated tags. |
| 731780 | <i>Zero Trust Tag Monitor</i> page displays endpoints that match FortiGuard outbreak alert rules. |
| 732430 | Zero Trust tagging rules for Active Directory (AD) groups should only list AD user groups. |
| 735272 | ZTNA rules should support NOT operation in logic. |

Other

| Bug ID | Description |
|--------|---|
| 705517 | <i>Cannot insert duplicate key row in object</i> error in FcmDaemon log. |
| 712215 | FortiClient refuses to connect to FortiClient Cloud with error that EMS is unreachable. |
| 716838 | User cannot access on-premise EMS console. |

Change log

| Date | Change Description |
|------------|--------------------|
| 2021-08-10 | Initial release. |
