Change Log

Date	Change Description
2024-07-19	Initial release.

Introduction

This document provides a list of new and changed features, resolved issues, and known issues in this FortiMail Cloud release.

For FortiMail Cloud documentation, see the [Fortinet Document Library](#).

Special Notices

Recommended web browsers

- Microsoft Edge 126 or later
- Google Chrome 126 or later
- Mozilla Firefox 128 or later
- Apple Safari 17.6 or later

Recommended screen resolution

The recommended screen resolution is 1920 x 1080 pixels. Please adjust your screen resolution accordingly. Otherwise the GUI may not display properly.

Language support

English, Chinese (Simplified), French, Japanese, Korean, Portuguese (Brazil), Spanish

What's New

The following list highlights the key features introduced in FortiMail Cloud version 24.3 and 24.2. For details, see the [FortiMail Cloud Documentation Library](#).

Different screen resolution support

The welcome page now dynamically supports different resolution desktop and tablet screens.

Mobile UI enhancement

Support top bar UI on mobile devices.

Embedded Admin GUI

FortiMail Cloud Admin GUI is now embedded in the new FortiMail Cloud Portal. You can configure FortiMail policies, manage protected domains, view logging, and perform other functions in the FortiMail Cloud Portal now. You can also switch between different FortiMail Cloud host in the hostname dropdown list.

Global language preference

You can change your preferred language in your FortiMail Cloud Portal now. The preferred language change will be applied to your FortiMail Cloud Portal and FortiMail Cloud Admin GUI at the same time. The language change will also be saved for your future login. For supported languages and how to change your language preference, please see [FortiMail Cloud Administration Guide](#).

Manage notification email

You can add, update, or delete notification email of your deployed FortiMail Cloud license in FortiMail Cloud Portal now. The notification email will be used for receiving maintenance of your FortiMail Cloud Service.

Organization Unit support

If you purchased the FortiCloud premium license, you can assign different levels of Organizational Units access. FortiMail Cloud Portal will also support the same organization unit configuration that you set up in your FortiCloud account. For more information, please see [Organization Portal Administration Guide](#).

Resolved Issues

The resolved issues listed below do not list every bug that has been corrected with this release. For inquiries about a particular bug, please contact [Fortinet Customer Service & Support](#).

- Language resource updates for Chinese (Simplified), French, Japanese, Portuguese (Brazil), and Spanish
- User portal cannot test mail relay host due to no permissions
- Enhanced customer notification email templates UI style and wording
- Enhanced tenant search options in user portal
- Portal page is grayed out after view change

Known Issues

This release has no known issues.
