Change Log

Date	Change Description
2019-11-01	FortiInsight version 5.4.0 document release.

Introduction

This document provides the following information for FortiInsight version 5.4.0:

- [What's new in FortiInsight version 5.4.0](#)
- [Upgrade Information](#)
- [Product Integration and Support](#)
- [Resolved Issues](#)
- [Known Issues](#)

What's new in FortiInsight version 5.4.0

The following table lists new features and enhancements in FortiInsight version 5.4.0:

Feature	Description
Preferences synced with Account Settings	Account Settings and Preferences are now synced on the same page. Column choices are now included as part of Preferences.
Search bar improvements	Clicking and editing within search bar is now enabled. Searches are automatically performed as the user changes search bar contents and date selection now triggers a full search request. A new icon on the search bar lists the last 10 searches the user has performed on a particular page.
Unified table views	All columns in tables now display identically across all data sources in console.
Load time improvement	The initial console load times have improved.
Predefined dashboards	Forensic Report, Alerts Report, Data Flow Report, and Applications Report are now predefined dashboards that cannot be edited.
Improvement in reporting of file printing activity	Endpoint gathers and reports file printing activity, now including filename.

For more information about new features, see the [FortiInsight Administration Guide](#).

Upgrade Information

Supported upgrade paths

FortiInsight version 5.4.0 supports the following upgrade path:

- Version 5.2.0 → Version 5.4.0

Note that you will have automatically receive the latest version of the product when it was pushed onto the cloud platform, so you do not have to perform a manual upgrade.

After you upgrade

After the product has been upgraded, the installer will install the update over the previous version on the endpoints. Download the latest version of the install via the console and re-run the install with the same address information.

Product Integration and Support

FortiInsight version 5.4.0 support

The following table lists product integration and support information for FortiInsight version 5.4.0.

Component	Requirement
Endpoint agent support	FortiInsight provides endpoint agents for the following platforms: <ul style="list-style-type: none">• Windows 7 and later (32-bit and 64-bit)• Windows Server 2008 and later (32-bit and 64-bit)
Endpoint computers	<ul style="list-style-type: none">• 1.0 GHz CPU - x86 or x64 (agent uses 0.1% to 5%)• 1 GB RAM (agent uses 10 to 30 MB)• 20 MB free disk space (more space is needed to store compressed and encrypted offline events)
Browser	<ul style="list-style-type: none">• Google Chrome (recommended)• Chromium• Mozilla Firefox• Apple Safari Other web browsers may work correctly, but FortiInsight does not support them.
Input devices	The FortiInsight UI is not optimized to use with touch devices. We recommend using a keyboard and mouse as the input devices for interacting with the UI.

Resolved Issues

The following issues have been fixed in FortiInsight version 5.4.0. For inquiries about a particular bug, visit the [Fortinet Support](#) website.

Bug ID	Description
575769	Search bar and policy builder have intermittent responsiveness issues.
581491	Long names cannot be fully displayed in closed investigations.
581112	There are no hover-over help messages displayed for risk symbols in the AI tag.
566879	Searching for an empty field in Collections results in perpetual page loading.
544862	User is unable to filter by risk in AI tag.
548053	The password rule is not enforced when creating a new user.
542486	User preference email and user email address of Administrator does not sync.
542152	Searching for license is case sensitive.
581497	User is unable to search, filter, or sort by policy names in Investigations.
534778	Creating a widget with a top 10 AI alert returns zero.
	License expiry warning is hidden under notifications section.

Known Issues

There are no known issues that have been identified in FortiInsight version 5.4.0. To report a bug, visit the [Fortinet Support](#) website.
