What's New

FortiSIEM Cloud is a cloud-hosted Security Information and Event Management (SIEM) platform. It provides visibility, correlation, automated response, and remediation in a single, scalable solution. It reduces the complexity of managing network and security operations to effectively free resources, improve breach detection, and even prevent breaches.

FortiSIEM Cloud 25.4.0

Released October 27, 2025

The latest version of FortiSIEM Cloud adds the following:

- Fresh install and upgrade for FortiSIEM 7.4.2.
- Bug Fix:
  - IAM permission now checks for invalid support menu.

FortiSIEM Cloud 25.3.a

Released August 04, 2025

The latest version of FortiSIEM Cloud adds the following:

- Fresh install and upgrade for FortiSIEM 7.3.4.
- Platform stability and fixes.

FortiSIEM Cloud 25.3.0

Released July 01, 2025

The latest version of FortiSIEM Cloud adds the following:

- New support and services menu.
- Platform stability and fixes.

FortiSIEM Cloud 25.2.b

Released June 25, 2025

The latest version of FortiSIEM Cloud adds the following:

- Platform stability and fixes.

FortiSIEM Cloud 25.2.a

Released May 09, 2025

The latest version of FortiSIEM Cloud adds the following:

- New Points of Presence (PoPs) added for Region B SKUs.
  - South America (Brazil)
  - Africa (South Africa)
  - Asia Pacific (Hong Kong)
  - Middle East (Bahrain)
  - Europe (Switzerland)
- Platform stability and fixes.

FortiSIEM Cloud 25.2.0

Released April 24, 2025

The latest version of FortiSIEM Cloud adds the following:

- New Points of Presence (PoPs) added and available for provisioning.
  - Middle East (United Arab Emirates)
  - Europe (Italy)
- 7.3.2 upgrade path now supported for all versions.
- Platform stability and fixes.

FortiSIEM Cloud 25.1.a

Released March 21, 2025

The latest version of FortiSIEM Cloud adds the following:

- Default install and upgrade to 7.3.2.
  - 7.3.2 upgrade will be available only for FortiSIEM Cloud instances already on 7.2.5 version. 7.3.2 upgrades for other FortiSIEM Cloud instances will be available in a later release of FortiSIEM Cloud.
- Auto schedule email format updates, and user information added.
- Platform stability and fixes.

FortiSIEM Cloud 25.1.0

<u>Released February 27, 2025</u>

The latest version of FortiSIEM Cloud adds the following:

- Auditing EPS usage information.
- Auto schedule for new FortiSIEM version (90 days).
  - By default, when a newly supported FortiSIEM version is added, all FortiSIEM Cloud instances will have an automatically schedule upgrade assigned. This will be scheduled for 90 days from the release point.
  - You have the option, currently, to delay (push out by more than 90 days) or bring your upgrade forward (closer than 90 days) via the scheduled upgrade UI.
  - If, in the interim period, a newer version is released, the system will automatically force the instance to this version, choosing the previously set date and time.
- Default install and upgrade for 7.2.5.
- Platform stability and improvements.

FortiSIEM Cloud 24.4.b

<u>Released December 19, 2024</u>

The latest version of FortiSIEM Cloud adds the following:

- Updated manage page styling.
- Platform stability and improvements.

FortiSIEM Cloud 24.4.a

<u>Released November 19, 2024</u>

The latest version of FortiSIEM Cloud adds the following:

- Enable randomized FQDNs to be used for Supervisor and Worker communications.
- Upgrade support for 7.2.4.
- Platform stability and improvements.

FortiSIEM Cloud 24.4.0

<u>Released October 29, 2024</u>

The latest version of FortiSIEM Cloud adds the following:

- Default Install and Upgrade to 7.2.3.
- Bug Fixes

- - Reordering network CIDR whitelists can move status for Failed incorrectly.
    - Organizations with 1 member account are not displayed correctly.
  - Platform stability and fixes.

FortiSIEM Cloud 24.3.c

Released October 4, 2024

The latest version of FortiSIEM Cloud adds the following:

- Support for FortiCloud Organizational Units (OU) and Organizations
- Platform and stability fixes.

FortiSIEM Cloud 24.3.b

Released August 29, 2024

The latest version of FortiSIEM Cloud adds the following:

- Default Install and Upgrade to FortiSIEM 7.2.2.
- Platform stability and fixes.

FortiSIEM Cloud 24.3.a

Released August 13, 2024

The latest version of FortiSIEM Cloud adds the following:

- Platform stability and improvements.

FortiSIEM Cloud 24.3.0

Released July 30, 2024

The latest version of FortiSIEM Cloud adds the following:

- Audit information.
- Platform stability and improvements.

FortiSIEM Cloud 24.2.a

Released June 06, 2024

The latest version of FortiSIEM Cloud adds the following:

- Default Install and Upgrade to FortiSIEM 7.1.7.
- External IP support.
- Platform stability improvements.

FortiSIEM Cloud 24.2.0

Released May 15, 2024

The latest version of FortiSIEM Cloud adds the following:

- Default and Upgrade deployment of FortiSIEM 7.1.5.
- Upgraded Cipher suite support.
- BETA support for External Storage, customer provided S3 storage.

FortiSIEM Cloud 24.1.a

Released March 22, 2024

The latest version of FortiSIEM Cloud adds the following:

- Platform stability and performance improvements.

FortiSIEM Cloud 24.1.0

Released March 15, 2024

The latest version of FortiSIEM Cloud adds the following:

- Default deployment for FortiSIEM 7.1.4.
- Upgrade support to FortiSIEM 7.1.4.

FortiSIEM Cloud 23.4.b

Released February 28, 2024

The latest version of FortiSIEM Cloud adds the following:

- Platform fixes and improvement
- Online and Archive storage views
- Online and Archive Storage Usage View feature added. See the FortiSIEM Cloud Deployment and Admin Guide here for details.
- Changed the Archive storage space enforcement purging from longest retention policy before moving to the next longest retention policy, to purging based the oldest data in the Archive regardless of the retention policy.

FortiSIEM Cloud 23.4.a

Released December 15, 2023

The latest version of FortiSIEM Cloud adds the following:

- Default deployment for FortiSIEM 7.1.1.
- Upgrade support to FortiSIEM 7.1.1.
- Platform stability and improvements.
- FortiSIEM Cloud changes under **Admin > Settings > Database**:
  - **Online Data** and **Archive Data** are not available. Total Online and Archive storage usage can be monitored in the FortiSIEM Cloud portal.
  - **Online Retention Policy** has been renamed to **Retention Policy**. On FortiSIEM Cloud, the retention policy spans the data independent of the Online Storage or Archive Storage location.
  - **ClickHouse Config** is not available. This is managed by FortiSIEM Cloud and is not applicable.
- FortiSIEM Cloud behavior in **Analytics**.
  - Selecting the event source (**Online** or **Archive**) is not applicable in FortiSIEM Cloud. In FortiSIEM Cloud, queries are performed across Online and Archive storage automatically. There is no need to define if the query should be performed on Archived data separately.

FortiSIEM Cloud 23.4

Released November 16, 2023

The latest version of FortiSIEM Cloud adds the following:

- New upgrade schedule notifications.
- Improved email notification styling.
- Platform stability and improvements.

FortiSIEM Cloud 23.3.a

Released September 14, 2023

The latest version of FortiSIEM Cloud adds the following:

- Default deployment for FortiSIEM 6.7.8.
- Upgrade support to FortiSIEM 6.7.8.
- Platform fixes and improvements.

FortiSIEM Cloud 23.3

Released September 06, 2023

The latest version of FortiSIEM Cloud adds the following:

- Platform stability and fixes.

FortiSIEM Cloud 23.2.c

Released August 01, 2023

The latest version of FortiSIEM Cloud adds the following:

- Default deployment for FortiSIEM 6.7.7.
- Upgrade support to FortiSIEM 6.7.7.
- Platform stability and fixes.

FortiSIEM Cloud 23.2.b

Released June 22, 2023

The latest version of FortiSIEM Cloud adds the following:

- Default deployment for FortiSIEM 6.7.6.
- Upgrade support to FortiSIEM 6.7.6.
- Platform stability and fixes.

FortiSIEM Cloud 23.2.a

Released June 01, 2023

The latest version of FortiSIEM Cloud adds the following:

- Default deployment for FortiSIEM 6.7.5.
- Upgrade support to FortiSIEM 6.7.5.
- Platform stability and fixes.

FortiSIEM Cloud 23.2

Released May 17, 2023

Platform stability and improvements added.

FortiSIEM Cloud 23.1.e

Released May 05, 2023

Network Access Control List (ACL) fix to handle long notation for IPV6.

FortiSIEM Cloud 23.1.d

Released April 28, 2023

The latest version of FortiSIEM Cloud updates the default resources for Data Ingestion.

FortiSIEM Cloud 23.1.c

Released April 17, 2023

The latest version of FortiSIEM Cloud adds a default deployment for FortiSIEM 6.7.4.

FortiSIEM Cloud 23.1.b

Released April 05, 2023

This latest version of FortiSIEM Cloud adds a default deployment for FortiSIEM 6.7.3.

Key Enhancements

Scheduling Upgrade Time Enhancement

Support to select your time, and UTC offset when scheduling upgrades to your FortiSIEM deployment.

CIDR Block Validation Check

Checks for CIDR blocks that are fully valid, and suggests changes where required when updating or provisioning new FortiSIEM instances.

FortiSIEM Cloud 23.1.a

Released March 09, 2023

This latest version of FortiSIEM Cloud adds a default deployment for FortiSIEM 6.7.2.

FortiSIEM Cloud 22.4.a

Released January 23, 2023

This latest version of FortiSIEM Cloud adds a default deployment for FortiSIEM 6.7.0.

FortiSIEM Cloud 22.4

Released December 14, 2022

Key Enhancements

FortiSIEM Cloud 22.4 adds the following enhancements:

- Alternative Domains Support
- Ability to Add Contacts for Notification
- View Events per Second Rate
- Enhanced Manage Page GUI

Alternative Domains Support

FortiSIEM Cloud instances are all provided with both a default domain name under the fortisiem.cloud umbrella, and a secure TLS certificate for console and event ingestion. With FortiSIEM Cloud 22.4 release you can now also provide your own domain, and certificates as well as the default.

Ability to Add Contacts for Notification

When your FortiSIEM Cloud instance is near its expiry date, the platform will send reminders to the main contact, the user who deployed the instance first. Now, a Notification setting can be edited to include others in these critical notifications.

View Events per Second Rate

Within the newly developed Manage screen, FortiSIEM Cloud instances will now show widgets for events per second rate, allowing you to view last hour, day, week, or month.

Enhanced Manage Page GUI

In FortiSIEM Cloud 22.4, the Manage page has been overhauled to provide an easier way to view instance information, and to provide a simple edit and update mechanism for your provisioning settings, including network CIDRs, Notification settings and Alternative Domain settings.

FortiSIEM Cloud 22.3.a

Released September 22, 2022

- Bug Fixes and Minor Enhancements

Bug Fixes and Minor Enhancements

Mantis Bug ID	Severity	Description
843581	Major	Updates to FortiSIEM 6.6.2 version as default.
845053	Minor	Improve performance at edge network locations for FortiSIEM Cloud Portal, and support response compression from client browser.
845050	Enhancement	Support Mumbai region for provisioning, Point of Presence (POP).

FortiSIEM Cloud 22.3

Released September 01, 2022

This is the first release of FortiSIEM Cloud.

- Bug Fixes and Minor Enhancements

Bug Fixes and Minor Enhancements

Mantis Bug ID	Severity	Description
845055	Major	Ensure platform notifies on all cases of failures, including incorrectly named rules.

Mantis Bug ID	Severity	Description
845058	Minor	Add new daily license checks for all FortiSIEM Cloud customers.
829925	Minor	Fix issues where edge cases can lead to incorrectly marking instance as Create Failed, when it was successful.
828765	Enhancement	Separate volume attachment from volume creation to allow for updates to be performed.
