2020-08-10	Added Security Fabric to Limitations of FortiAnalyzer Cloud on page 10.

FortiAnalyzer Cloud 6.2.5 Release

This document provides information about FortiAnalyzer Cloud version 6.2.5 build 4093.

> The recommended minimum screen resolution for the FortiAnalyzer Cloud GUI is 1920 x 1080. Please adjust the screen resolution accordingly. Otherwise, the GUI may not display properly.

Upgrade Information

When an upgrade image for FortiAnalyzer Cloud is available, a notification is displayed in the portal for FortiAnalyzer Cloud. You can download the image from the portal, and then use it to manually upgrade firmware for FortiAnalyzer Cloud.

To download the firmware image from the portal:

1. Log in to FortiCare (https://support.fortinet.com/).
2. From the menu in the top-right corner, select FortiAnalyzer Cloud.
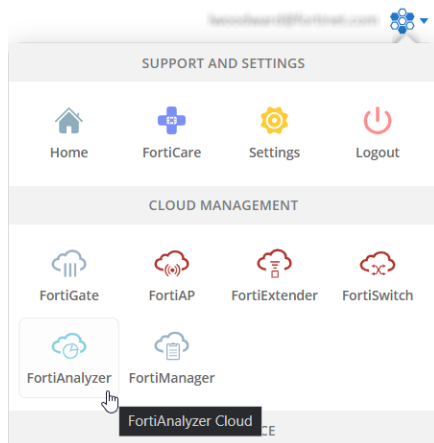

The portal for FortiAnalyzer Cloud is displayed.
3. View your account.
   When a firmware update is available, a message instructs you to update to the latest firmware version.
4. Click the *Download New Image* link.
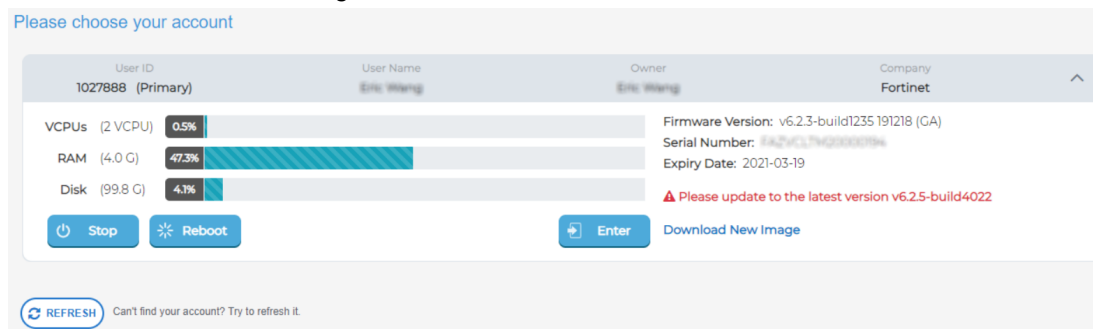

The FortiAnalyzer Cloud image is downloaded to your computer.

To manually upgrade firmware:

1. In FortiAnalyzer Cloud, go to *System Settings > Dashboard*.
2. In the *System Information* widget, go to the *Firmware Version* field, and click the *Upgrade Firmware* icon.
3. In the *Firmware Upload* dialog box, click *Browse* to locate the firmware package (`.out` file) that you downloaded, and click *Open*.

4. Click *OK*.
   The firmware image is uploaded. When the upgrade completes, a message confirms a successful upgrade.
5. When the login window displays, log in to FortiAnalyzer Cloud.

> When the upgrade completes, you might have to refresh your web browser to see the login window.

6. If the database needs rebuilding, you can monitor the rebuild status by double-clicking the *Rebuilding DB* status in the toolbar.
   The rebuild process includes two steps. When it's done, you see the *Rebuilding log database was completed* message.

> Some features are unavailable while the SQL database is rebuilding.

Downgrading to previous versions

Downgrade to previous versions of FortiAnalyzer Cloud is not supported.

FortiAnalyzer Cloud 6.2.5 Release Notes
Fortinet Technologies Inc.

7

Product Integration and Support

FortiAnalyzer Cloud version 6.2.5 supports the following items:

- Web browser support on page 8
- FortiOS support on page 8
- FortiGate model support on page 8
- Feature support on page 8
- Language support on page 9

Web browser support

FortiAnalyzer Cloud version 6.2.5 supports the following web browsers:

- Microsoft Edge version 80 (based on Chromium)
- Mozilla Firefox version 71
- Google Chrome version 79

FortiOS support

FortiAnalyzer Cloud version 6.2.5 supports the following FortiOS versions:

- 6.2.0 and later
- 6.0.9 and later

FortiGate model support

FortiAnalyzer Cloud version 6.2.5 supports the same FortiGate models as FortiAnalyzer 6.2.5. For a list of supported FortiGate models, see the *FortiAnalyzer 6.2.5 Release Notes* on the Document Library.

Feature support

The following table lists FortiAnalyzer feature support for log devices.

Platform	Log View	FortiView	Event Management	Reports
FortiGate	✓	✓	✓	✓

Language support

FortiAnalyzer Cloud version 6.2.5 supports the following FortiGate models:

The following table lists FortiAnalyzer Cloud language support information.

Language	GUI	Reports
English	✓	✓
Chinese (Simplified)	✓	✓
Chinese (Traditional)	✓	✓
Hebrew		✓
Hungarian		✓
Japanese	✓	✓
Korean	✓	✓
Russian		✓
Spanish	✓	✓

To change the FortiAnalyzer Cloud language setting, go to *System Settings > Admin > Admin Settings*, in *Administrative Settings > Language* select the desired language from the drop-down list. The default value is *Auto Detect*.

Russian, Hebrew, and Hungarian are not included in the default report languages. You can create your own language translation files for these languages by exporting a predefined language from FortiAnalyzer Cloud, modifying the text to a different language, saving the file as a different language name, and then importing the file into FortiAnalyzer Cloud. For more information, see the *FortiAnalyzer Administration Guide.*

Limitations of FortiAnalyzer Cloud

All FortiAnalyzer Cloud modules are supported in FortiAnalyzer Cloud, however, the following features are not supported or are not relevant to the FortiAnalyzer Cloud deployment at this time:

- ADOMs
- High-Availability Mode
- Log Forwarding
- Fetcher Management
- Remote Certificates
- License Information and Unit Operation dashboard widgets
- Remote Authentication Server
- SAML SSO
- Security Fabric
  FortiAnalyzer Cloud cannot be used as part of the Security Fabric. FortiGates must send logs to FortiAnalyzer not FortiAnalyzer Cloud.

> The FortiAnalyzer Cloud subscription currently available is a base subscription, which is designed for system health monitoring and alerting using Event Logs, Security Logs, and IOC scans. Other logs, such as Traffic Logs, are not supported in the base subscription.

> FortiAnalyzer Cloud only supports logs from FortiGate devices at this time.
