Introduction

Thank you for choosing Fortidentity Cloud (FIC)!

Fortidentity Cloud offers a robust platform for managing your multi-factor authentication deployment. Its intuitive dashboard is accessible anywhere over the internet. It's a highly available platform that can scale support from organizations with a single FortiGate appliance to managed service providers (MSPs) managing hundreds of FortiProducts and/or third-party Web apps.

What's New

Fortidentity Cloud 26.1 is a patch release only. No new feature has been implemented in this release.

- For information about product features, see the [Admin Guide](#) or click  (**Help**) in the upper-right corner of the FIC GUI.
 - For technical product, see [Technical Support](#).
-

Compatible Fortinet applications

Fortidentity Cloud 26.1 works in tandem with the following Fortinet applications:

Fortinet Application	Application Version

FortiToken Mobile for Android	<ul style="list-style-type: none">• 5.5.0 or later
FortiToken Mobile for Windows	<ul style="list-style-type: none">• 5.1.0 or later

- Using IPsec with FortiClient as a SAML application with FIC is not supported on FortiClient versions 7.2 and earlier.
-

Supported browsers

Fortidentity Cloud supports the latest versions of the following web browsers:

- Google Chrome
- Mozilla Firefox

Other web browsers may work as well, but have not been rigorously tested.

Resolved Issues

The following are the major issues that have been resolved in Fortidentity Cloud 26.1 release.

Bug ID	Description
1241385	Free trial activation in FIC Portal may fail for accounts with no valid contracts.
1240844	An unknown error may occur when the user tries to start a free trial from their FIC account.

Known Issues

The following are the major known issues that are found in Fortidentity Cloud 26.1 release.

Bug ID	Description
1233672	LDAP user source without a domain and Local IdP user source cannot be used together for an SSO application as user source.
1228247	Terminating a session from the <i>Monitor>IdP Session</i> page does not initiate single logout on SP/RP.
1230885	Sometimes a timeout error can occur when purchasing FIC licenses with FortiPoints on the FIC admin portal.
1234749	When purchasing licenses with FortiPoints with a serial number other than the first listed serial number, choosing the serial number from the dropdown can succeed in the second attempt only.
1234644	No 'request succeeded' confirmation would pop up after deleting user group(s) from the portal.
1108447	Bypass with FIC Email or SMS MFA setting does not work with FortiAuthenticator.
1026381	FortiAuthenticator SCIM client does not synch users to the FIC SCIM server.
1113581	FTM push notifications with Fortidentity Cloud doesn't work on FortiAnalyzer.
1013089	The Microsoft Windows OS would pop up error messages in certain scenarios when registering passkeys with Android phones.

Change Log

Date	Description
January 15, 2026	Initial release.
