The following table lists FortiAP-S and FortiAP-W2 version 6.0.3 product integration and support information.

FortiAP-S and FortiAP-W2 6.0.3 support

Web Browsers	<ul style="list-style-type: none">• Microsoft Internet Explorer version 11• Mozilla Firefox version 59• Google Chrome version 65• Safari version 9 <p>Other web browsers may function correctly, but are not supported by Fortinet.</p>
FortiOS	6.0.3 and later

We advise that FortiAP firmware versions be matched with their respective FortiOS versions when available. Other variations of different FortiOS/FortiAP versions may technically work for the lowest common feature set. However, if problems arise, our support team will ask for the versions to be matched, as per our recommendation, prior to troubleshooting.
