Change log

Date	Change Description
2024-11-18	Initial document release.

Maximum Values Table

The values in this table are the hard-coded maximum values. As such, they might not be practical limits for every situation and are not a promise of performance.

NOTE: To list the complete maximum values for your FortiProxy unit, use the `print tablesize` CLI command.

In the following table, the *per-instance limit* means the maximum number of entries in each table instance, *per-VDOM limit* means the maximum number of entries over all tables of the same type within each VDOM, and the *global limit* means the maximum number of entries over all tables of the same type within the system. 0 indicates "unlimited."

The default values for any primary table not listed in the following table are:

- per-instance limit: 0
- per-VDOM limit: 256
- Global limit: 512

The default values for any secondary table not listed in the following table are:

- per-instance limit: 0
- per-VDOM limit: 0
- Global limit: 0

All other product or company names may be trademarks of their respective owners. Performance and other metrics contained herein were attained in internal lab tests under ideal conditions, and actual performance and other results may vary. Network variables, different network environments and other conditions may affect performance results. Nothing herein represents any binding commitment by Fortinet, and Fortinet disclaims all warranties, whether express or implied, except to the extent Fortinet enters a binding written contract, signed by Fortinet's Chief Legal Officer, with a purchaser that expressly warrants that the identified product will perform according to certain expressly-identified performance metrics and, in such event, only the specific performance metrics expressly identified in such binding written contract shall be binding on Fortinet. For absolute clarity, any such warranty will be limited to performance in the same ideal conditions as in Fortinet's internal lab tests. Fortinet disclaims in full any covenants, representations, and guarantees pursuant hereto, whether express or implied. Fortinet reserves the right to change, modify, transfer, or otherwise revise this publication without notice, and the most current version of the publication shall be applicable.
