Change log

Date	Change description
2026-03-05	Initial release.
2026-03-19	Updated What's new on page 7 .

Introduction

This document provides a list of supported models, new features and changes, and product integration information for FortiGate Cloud 26.1.a. Review all sections of this document before using this service.

What's new

Zero Touch Provisioning Improvements

- Users can now execute Zero Touch Deployment of supported Fortinet devices to FortiGate Cloud, on-premise FortiManager, FortiManager Cloud and SASE within FortiGate Cloud.
- Added support for provisioning FortiExtender in LAN extension mode to FortiGate.

User experience enhancement:

- Increased the maximum number of reports that can be downloaded at one time to 20

Permission Management improvements

- Asset Folder-based permissions management for Firmware Profile

Security Enhancements

- Added blocking of malicious requests directed at FortiGate Cloud systems

Product integration and support

FortiGate Cloud is designed and targeted for all FortiGate models with a form factor of up to two rack units. See [Requirements](#).

FortiGate Cloud 26.1.a supports the following web browsers:

- Microsoft Edge 41 and later versions
- Microsoft Internet Explorer 11 and later versions
- Mozilla Firefox 59 and later versions
- Google Chrome 65 and later versions

FortiGate Cloud may function correctly with other web browsers, but Fortinet does not support them.

Language support

The following table lists FortiGate Cloud language support information. Regions determine language settings:

Language	GUI	Documentation
English	Yes	Yes
Japanese	Yes	No

Region support

- Global (Canada)
- U.S.
- Europe
- Japan

Resolved issues

The following issues have been fixed in version 26.1.a. For inquiries about a particular bug, contact [Customer Service & Support](#).

Audit log

Bug ID	Description
1218826	Search by user-defined keyword does not work in Audit/Activities.
1232005	Missing audit log for editing in General settings on OU Dashboard.
1232664	Cloud Access Anonymous audit log is cut off.

Automation

Bug ID	Description
1120507	On Portal > Stitches > Actions, the edit subject box is grayed out for read-only users.
1199379	Wrong error message when selecting unsubscribed devices in stitch.
1223650	Failed to create sandbox stitch with different alert level.

Cloud access

Bug ID	Description
1210002	Remote access failed on free-tier HA FGT (with non-latest patch).
1218930	Remote Access doesn't work on FG-30G running FortiOS 7.2.1.

Dashboard

Bug ID	Description
1124098	Widget text overlap issue.
1126072	JP language not implemented on user Dashboard.
1201554	Tunnel status bar shows management connectivity as down when it is actually up.

Event management

Bug ID	Description
1224212	Event Monitor page shows empty if selecting a subfolder from the upper-left folder structure.
1233040	Edited customized handler name doesn't take effect.

FortiConverter

Bug ID	Description
1212591	Failed to render the target interface with the specified configuration.
1213126	SSL VPN Migration page loading and displaying issues across VDOMs.
1215069	SSL VPN migration settings not displayed correctly.
1230026	FortiConverter forgets interface mapping if user switches between tabs.
1230595	Missing authorization validation - POST /interface/add/{careId}.
1237744	Cancel button does not work on Do Not Migrate Alert.

FortiView

Bug ID	Description
1218301	Portal > Security widget > Top Sandbox files widget does not display data correctly.

Bug ID	Description
1220829	Portal missing username display behind source IP in top source FortiView.
1232607	Typos on Widget menu.

IAM support

Bug ID	Description
1210951	Sub-folder IAM user to disable Edit handler change.

Inventory

Bug ID	Description
1231172	Unable to de-provision multiple devices at one time.

LogView

Bug ID	Description
1170512	Missing <i>Action</i> Filter in File Filter Logs (Security > File Filter).
1219117	Remove network selection from LogView top-right corner.

OU support

Bug ID	Description
1230251	CLI script does not apply filter for IAM users.
1230671	Cannot view old generated reports after doing OU device transfer and keeping data.
1232085	On OU > Sub OU node, the <i>Log Archives</i> only displays partial devices.
1232524	When OU root user runs any script, it results in 500 error.

Bug ID	Description
1233143	The Fabric device action/authorization menu for read-only users should be disabled in OU.
1237005	OU asset transfer into a newly created account can cause tunnel connection to go down.
1245946	Cloud Access toggle loses state after searching account > page refresh.

Portal

Bug ID	Description
1240087	404 error when switching FGTs.
1227357	IAM account user table text is cut off.
1218229	Device list will always load after selecting any row and then clicking refresh.
1124249	When set language to JP, some terms in time filter are still in English.
1124166	When set language to JP, some terms in asset list are still in English.

Report

Bug ID	Description
1110741	The date format displayed on generated report page is inconsistent.
1231748	The folder admin cannot manage emailgroup profile within its own scope.
1231760	Folder admin should not be allowed to manage report config files outside their permission scope.
1231768	The settings of default report in the root can be modified in subfolders.
1233129	Folder admin cannot delete/edit scheduled report in its folder.
1238586	The generated report's time period does not match the settings.
1239829	IAM report read/write users are unable to generate reports.
1240653	IAM admin user cannot run/schedule report.
1241762	The device list in the schedule report in OU is sometimes empty.

Revision

Bug ID	Description
1227279	Batch-download revision failed when multiple backups occur within one minute (duplicate entry error).

Script

Bug ID	Description
1229725	Big amount of OU nodes (76) causes script run failure (HTTP header to mgrserver over the limit).
1231626	Subfolder IAM users have no permission to delete scripts they created.
1234512	Newly added script does not shown in runnable list.
1234949	Newly added subfolder script does not display in script list.

SD-WAN Overlay

Bug ID	Description
1235088	Failed to create production site with 500 Internal Server Error.

Known issues

The following issues have been identified in version 26.1.a. For inquiries about a particular bug, contact [Customer Service & Support](#).

Audit log

Bug ID	Description
1251133	Audit logs does not list folder-level event handler creation.

Automation

Bug ID	Description
1237090	Stitch creation triggered by Sandbox failed.
1247557	Automation stitch count in widget does not match count in table.
1250704	Search automation does not work and becomes stuck.

Dashboard

Bug ID	Description
1249274	Backup device count in widget does not match count on <i>Revisions</i> page.
1249948	Toggling on global filter should update only one widget.
1249975	<i>Global filter</i> toggle should not appear in expanded widgets.

Event handlers

Bug ID	Description
1251095	Cannot create stitch with same handlers on different folder level.

Fabric device

Bug ID	Description
1189527	Unable to locate and move fabric devices when multiple devices are in the same location on map.
1242532	FortiAP's actions results in 500 error.
1242761	Provisioned fabric devices do not show on device list pages.
1247760	Provisioning conflict popup should filter devices for which the IAM user doesn't have admin provision permission for the device.
1249000	<i>Unable to reach server network</i> error displays when opening FortiAP device list page for the first time.

Firmware management

Bug ID	Description
1232836	Some recommended firmware are not displayed on portal.
1242981	Upgrade firmware from <i>FortiGuard Security Alerts</i> widget results 400 bad request.
1248338	<i>Schedule summary</i> column empty after scheduling a firmware upgrade.

FortiConverter

Bug ID	Description
1250621	FortiConverter: file upload size inconsistency.

FortiView

Bug ID	Description
1103557	FortiView > Top threat > Timeline graph does not match the data table below.
1103624	FortiView application drilldown by source results in empty source name.
1144768	FortiView historical view legend missing.

HA device

Bug ID	Description
1236504	<i>HA Group</i> page cannot load when HA mapping cannot complete.

IAM support

Bug ID	Description
1247727	IAM admin user unable to provision FGT to FortiManager Cloud.
1247742	<i>Provisioning targets</i> page blank for IAM root folder read-only user.

Incidents

Bug ID	Description
1230835	Assignees of incidents cannot change status.

Login Manager

Bug ID	Description
1191750	IDP user account selection page does not redirect user to correct account.

LogView

Bug ID	Description
1122204	When a device has no subscription, the time frame selector should support no more than 7 days.

OU support

Bug ID	Description
1230721	[OU dashboard] GET /api/v2/site performance issue.
1231957	OU account search function does not work.
1233717	OU account view: firmware upgrade history to filter devices by folder.
1251055	<i>Unable to fetch reports</i> error on <i>Report Configs</i> and <i>Scheduled Reports</i> pages for OU user.
1251060	OU node tree does not appear on some pages.
1251072	<i>General settings</i> page content does not load for OU user.
1251080	Chart data unable to load on <i>FortiCloud Subscriptions</i> page.
1251087	OU dashboard <i>Upgrade status</i> is always empty.
1251237	FortiSwitch asset list stuck loading and shows 0 data under OU.

Portal

Bug ID	Description
1120973	<i>Report utilization</i> widget should summarize last 7 days.
1229245	The top-left drop-down list acts weird after collapsing a folder.
1242459	Large account page loading efficiency issue on <i>Sandbox > scan results</i> page.
1242462	Large account page loading efficiency issue on <i>Device Map</i> page.
1242466	Large account page loading efficiency issue for IOC.
1243386	Global/EU portal show device as <i>Inactive</i> status when device is already online.

Bug ID	Description
1243484	Incorrect device icon for vSN FortiGate.
1243983	The value of the <i>Configuration Save Mode</i> does not automatically refresh after making changes.
1246987	<i>Fabric device overview</i> widget does not update totals when switching to asset folder.
1247795	<i>Fabric device overview</i> widget shows wrong totals.
1248277	De-provisioned device on device list page still shown as provisioned on provisioning page before refresh.
1249548	Provision conflict reminder for fabric device persists after confirming provision target.
1250408	FortiManager Cloud and FortiManager are not included in provisioning target for FortiGate.
1250612	Preserve user <i>Group by</i> selection on FAP/FSW/FEX pages.
1251297	SSID gets cut off when data entry is long.

Report

Bug ID	Description
1219424	Report csv file download fails if the report is empty.
1232575	Some customized report config files cannot be edited/deleted.
1235681	The email group settings for the same schedule report displayed in different folders are inconsistent.
1242933	The report email unsubscribe page does not exist.
1243019	The device list and logos in the title section of the report may have some overlap.
1243477	The new device name in the <i>What's new weekly report</i> is incorrect.
1246686	Scheduled reports page doesn't support search by hostname.

Revisions

Bug ID	Description
1248574	Obtain local copy of backup file to restore configs on replacement FGT.

Sandbox

Bug ID	Description
1243724	Empty Sandbox URL category does not provide report download mark.
1244749	Sandbox apt and URL specify time stamp filters does not work.

Script

Bug ID	Description
1251065	Script tasks page unable to load for OU user.

SD-WAN Overlay

Bug ID	Description
1201534	Delete site failed from SD-WAN Overlay/Sites.
