Change log

Date	Change description
2021-12-16	Initial release of the FortiVoice 6.4.4 User Portal Guide.

Introduction

As a user of a phone extension on the FortiVoice phone system, the FortiVoice user portal is a web-based platform that allows you to perform the following tasks:

- Check your call history for received, placed, or missed calls.
- Check your voicemail including playing, deleting, forwarding, or saving voicemails.
- Manage your business and personal contacts, and view the business and corporate phone directories.
- Manage how the phone system handles your phone calls.
- Check your recorded calls including playing, deleting, or saving the voicemails.
- Receive and send faxes.
- Set up reminder events and invite guests.
- Add user conference call events in your calendar and invite attendees by email.
- View device details of desk phones and soft phones, and set up programmable keys.
- Configure your extension according to your preferences.
- Use the operator console to process organization calls.
- Use the call center console to process call queues.

Available functions may vary depending on the privileges assigned to your phone extension by your FortiVoice system administrator.

Logging in and logging out of the FortiVoice user portal

Before you begin

- After completing the configuration of your extension on the FortiVoice phone system, the system administrator can share details about your account. Take note of the FortiVoice user portal link, your phone extension on FortiVoice and the user password for web access. You will need those details to log in to the FortiVoice user portal.
- Use one of the recommended web browsers:
 - Google Chrome version 95
 - Microsoft Edge version 95
 - Mozilla FireFox version 94
 - Apple Safari version 15

To log in to the FortiVoice use portal

1. Start a web browser and go to the FortiVoice user portal link.

The link format is `https://<IP_address_or_FQDN>/voice`.

Where <IP_address_or_FQDN> is the IP address or the FQDN of the FortiVoice phone system. If the FortiVoice system administrator has changed the access port, then you must also include the port, for example:

`https://<IP_address_or_FQDN>:446/voice`.

The web browser prompts you to log in.

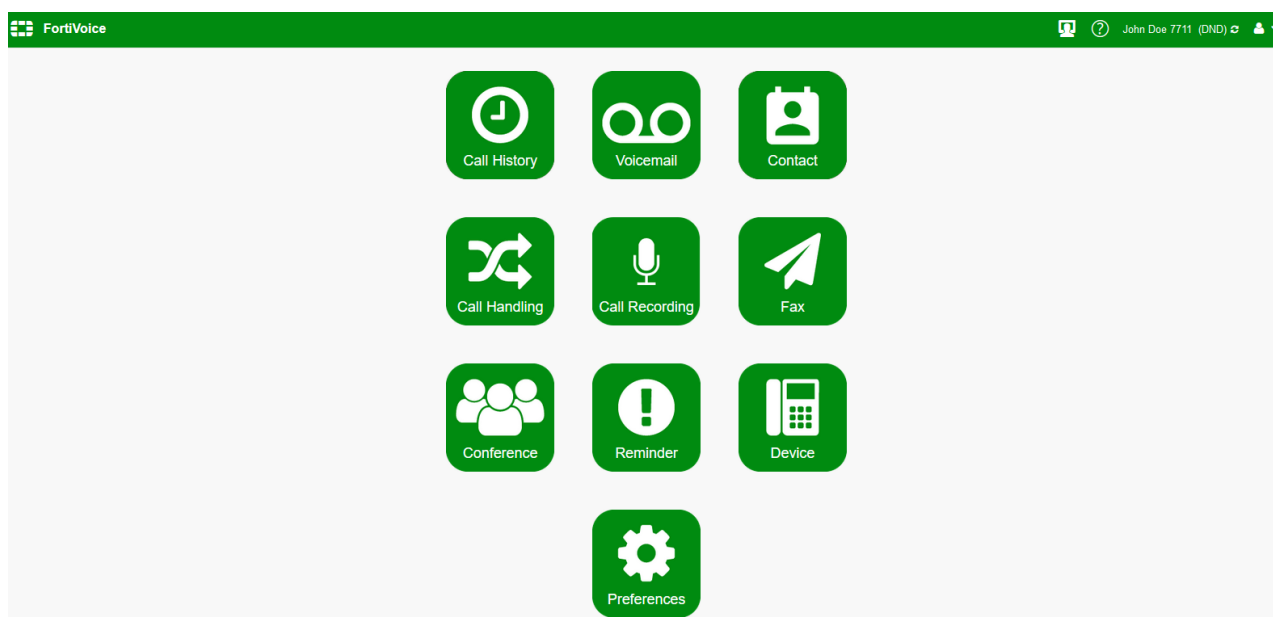

A screenshot of the FortiVoice user portal login form. The form has a blue header bar with the text "Please Login". Below the header, there are two input fields: "Extension" and "Password". Below the "Password" field, there is a checkbox labeled "Remember me". At the bottom of the form, there is a blue button labeled "Login".

2. In **Extension**, enter your extension.
3. In **Password**, enter the user password for your extension.
4. If you want the user portal to remember your extension and password and use them the next time you log in, click **Remember me**.
5. Click **Login**.

The main page of the FortiVoice user portal appears.

The widget selection may vary depending on the privileges that the FortiVoice system administrator has assigned to your extension.

To log out of the FortiVoice user portal

1. Click  and **Log Out**.

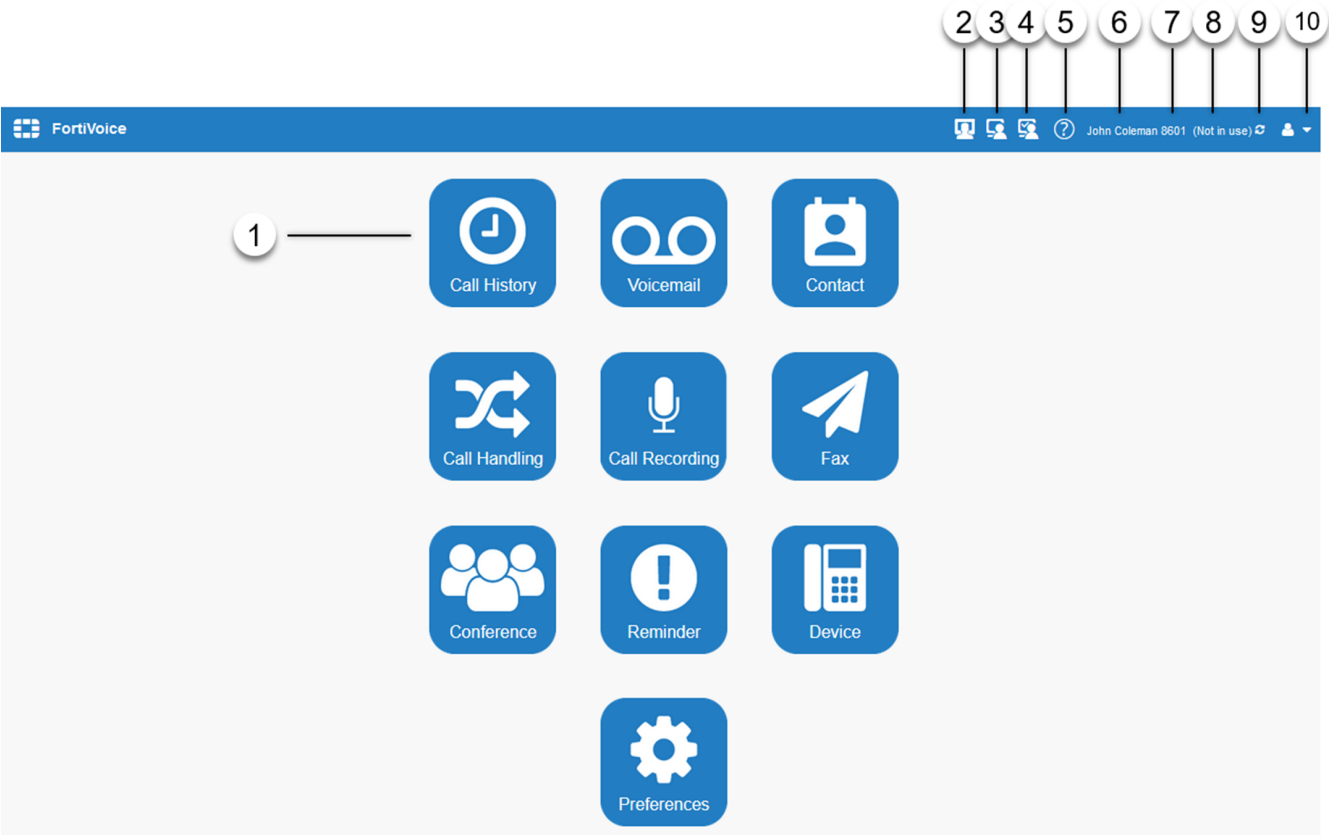

Navigating the FortiVoice user portal

To help you navigate the FortiVoice user portal, this section includes the following topics:

- [Main page on page 10](#)
- [Widget page example on page 11](#)

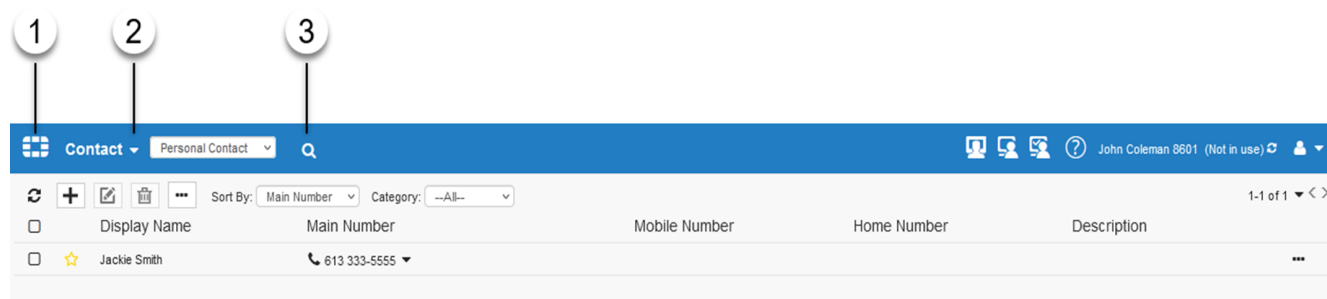

Main page

No.	Description
1	<p>The main menu gives you quick access to widgets.</p> <p>To open a widget, click on the icon.</p> <p>Note: To see the Conference widget, the FortiVoice system administrator must update the FortiVoice phone system to give you the privilege to organize conference calls.</p>

No.	Description
2	To access the operator console. For more details, see the Operator console on page 49 .
3	To access the monitor view. For more details, see the Monitor view on page 71 .
4	To access the call center console. For more details, see the Call center console on page 53 .
5	To access the FortiVoice user portal documentation in HTML and PDF formats.
6	The display name associated with your extension.
7	Your extension number.
8	Your extension status such as: <ul style="list-style-type: none"> • DND (do not disturb) • In use • Not in use • Ringing
9	To refresh the extension status.
10	To log out of the FortiVoice user portal, click the down arrow and click Log Out .

Widget page example

No.	Description
1	To return directly to the main page, click the Fortinet icon.
2	To select another widget without going to the main page, click the down arrow and select the widget.
3	To access the search function.

Call history

The **Call History** menu displays all incoming and outgoing calls made to and from your extension. Your phone call records include the following details:

- Caller and receiver
 - The FortiVoice system administrator can enable the **Match personal contact** option. This option can affect the content in the **From (Name)** column of the **Call History**. With this option enabled, you can observe the following behavior: When an extension receives a phone call from a caller that already exists in the **Personal Contact** list, the **Call History** list will show the same ID (or caller ID) as the one used in the **Personal Contact** list.
- Time of the call
- Call duration
- Call status or disposition
- Call direction
- Call type

This section includes the following topics:

- [Calling a person on page 12](#)
- [Viewing call details on page 13](#)
- [Searching call records on page 14](#)
- [Filtering call records on page 14](#)
- [Downloading call records on page 15](#)
- [Adding a personal contact on page 15](#)
- [Blocking a phone number on page 16](#)

Calling a person

You can use **Call History** to call a person that has called you or a person that you have called.

1. In **Call History**, locate the entry for the person that you want to call.
2. To initiate the call, click  beside the name.

Viewing call details

1. In the call history list, double-click on an entry.
2. You can view the call information, detailed information, and call flow. Here are section examples:

Call Information ▾

From: Administrator 7702

To: Jackie Smith 6010

Start: 2021-11-03 14:26:33

Duration: 00:00:21 (21 seconds)

Disposition: Voice Mail

14:26:55	message left to voicemail account 6010@system <6010>

Searching call records

1. In **Call History**, click **Search** .
2. Enter a search string.
3. If you do not want to configure search settings, press **Enter**.
4. If you want to configure search settings, click , make your selections, and click **Search**.

Filtering call records

In **Call History**, you can apply additional filtering by selecting options available under the following drop-down menus:

- **Direction** has the following choices:
 - All
 - Internal
 - Outgoing
 - Incoming
- **Disposition** has the following choices:
 - Answered
 - Voicemail
 - No Answer
 - Busy
 - Failed
 - Denied
 - Transferred - Blind

- Transferred - Attended
- Other

Call History									
<div> Direction: Internal Disposition: Answered Download More Action With call flow OFF </div>									
<input type="checkbox"/>	From (Name)	From	To (Name)	To	Start	Duration	Disposition	Direction	Call Type
<input type="checkbox"/>	Juliet Higgins	7101	Arthur Curry	7205	2020-03-02 11:50:53	00:00:05	Answered	Internal	Voice

Downloading call records

To download all call records

1. In **Call History**, click **Download > All**.
2. Depending on your web browser settings, the CSV file may download automatically or you can take action to save the file.
3. If the downloaded file shows # characters, expand the column to show all the text.

To download call records from a search

1. In **Call History**, click **Search** .
2. Enter a search string and press **Enter**.

Downloading call records with detailed call flows takes time and can impact the performance of the system.

The system can download the first 20,000 records only.

3. If you want to download call records with their call flow, then set **With call flow** to **On**.

Call History									
<div> Direction: Internal Disposition: --All-- Download More Action With call flow ON </div>									
<input type="checkbox"/>	From (Name)	From	To (Name)	To	Start	Duration	Disposition	Direction	Call Type

4. Click **Download > Search Result**.
5. To confirm, click **OK**.
6. Open the downloaded file.
7. If the file shows # characters, expand the columns to display the information.

Adding a personal contact

You can select a caller in the call history to create a new personal contact.

1. In **Call History**, select the checkbox at the beginning of the row for the caller that you want to add.
2. Select **More Action > Add to Contact**.
3. Add a unique Display Name and other details for this contact.

4. Click **Create**.
5. To verify that the contact is in the personal contact list, go to **Contact > Personal Contact**.

Blocking a phone number

To prevent a caller from calling your extension, add the caller's phone number to the personal block list.

To allow users to block phone numbers, the FortiVoice system administrator must enable the personal block list functionality on the FortiVoice phone system.

1. In **Call History**, select the checkbox at the beginning of the row for the phone number that you want to block.
2. Select **More Action > Block**.
3. To confirm, click **Block**.
4. To verify that the phone number is in the block list, go to **Contact** and click **Personal Block List**.

Voicemail

The **Voicemail** menu allows you to manage your voicemails.

This section includes the following topics:

- [Displaying voicemails on page 17](#)
- [Playing a voicemail on page 18](#)
- [Deleting a voicemail on page 18](#)
- [Sending a voicemail to another extension on page 18](#)
- [Downloading a voicemail on page 18](#)
- [Setting voicemail options on page 18](#)

Displaying voicemails

Use this procedure to display voicemails for your extension. The **Voicemail** menu can also show voicemails from other users or groups, if the FortiVoice administration has configured your extension with this function.

1. Go to **Voicemail**.
2. From the drop-down menu, select one of the following filter choices:
 - **All**: Shows all voicemails for your extension.
 - New voicemails show in bold.
 - Urgent voicemails show in red.
 - **Inbox**: Shows new voicemails. After you listen to a voicemail, the system moves the voicemail to the **Old** list and removes the bold style.
 - **Urgent**: Shows voicemails marked as urgent by the caller. Urgent voicemails show in red.
 - **Old**: Shows voicemails that you have already listened to.
3. If the FortiVoice administrator has included your extension to receive voicemails from one or more extensions, then the **Owner** column is visible to show the extension to which the voicemail belongs to. Here is an example:

Voicemail ▾

--All-- ▾

Playing a voicemail

1. Go to **Voicemail**.
2. In the list, locate the voicemail that you want to listen to.
3. Click **Play** .

Deleting a voicemail

1. Go to **Voicemail**.
2. In the list, locate the voicemail that you want to delete.
3. At the beginning of the row, select the checkbox for that voicemail.
4. Click  **Delete** .

Sending a voicemail to another extension

1. Go to **Voicemail**.
2. In the list, locate the voicemail that you want to forward to another extension.
3. At the beginning of the row, select the checkbox for that voicemail.
4. Click  **Forward** .
5. In **Forward to**, select the extension.
6. Click **OK**.

Downloading a voicemail

1. Go to **Voicemail**.
2. In the list, locate the voicemail that you want to download.
3. At the beginning of the row, select the checkbox for that voicemail.
4. Click  **Download** .
5. To confirm the download of the WAV file, click **OK**.

Setting voicemail options

1. Go to **Voicemail**.
2. Click  **Voicemail Options** .

3. Configure the following fields:

GUI field	Description
Voicemail handling	Enable to allow a caller to press 0 to talk to the operator during an announcement.
Name	<ul style="list-style-type: none">Set to Standard to use the system default name for the voicemail (the extension number), or set to Personal to use your own name for the voicemail.If you select Personal, click Call me to record your own message using your phone, or click Upload to import a pre-existing sound file that meets the requirements (WAVE file in mono, 16-bit PCM, and 8-kHz compression format).
Greeting	<p>Select the voicemail greeting mode and greeting content. Click Audio file to record or import a sound file for various scenarios, depending upon the greeting type selected:</p> <ul style="list-style-type: none">Standard: The default system defined greeting.Simple: The greeting that applies to any time.Scheduled: The greeting that comes with a schedule. Click New to add a system Schedule and assign a Greeting.Conditional: The greeting that applies when you are either busy or unavailable.

4. Click **OK**.

Contact

The **Contact** menu displays all of the extensions in your organization, including the extension number, display name on the phone, location of the extension, and the extension type.

You can filter contacts by **Personal Contact**, **Business Contact**, or **Directory** from the top drop-down menu.

You can sort the **Personal Contact** list, by using the following filters:

- **Sort By**: Allows you to show contacts by display name or main number.
- **Category**: Allows you to show contacts for speed dial, favorite, or all.

You can update the **Personal Contact** list but the FortiVoice system administrator manages the **Business Contact** and **Directory** lists.

This section includes the following topics:

- [Calling a contact on page 20](#)
- [Adding a personal contact on page 20](#)
- [Editing a personal contact on page 21](#)
- [Deleting a personal contact on page 21](#)
- [Importing a list of personal contacts on page 21](#)
- [Exporting a list of personal contacts on page 22](#)
- [Updating a personal contact favorite list on page 22](#)
- [Adding a personal contact to a speed dial list on page 22](#)
- [Deleting a personal contact from a speed dial list on page 22](#)
- [Configuring a personal block list on page 23](#)

Calling a contact

1. Go to **Contact > Business Contact, Personal Contact, or Directory**.
2. To initiate a call, click the phone icon  beside the extension or phone number.

Adding a personal contact

1. Go to **Contact > Personal Contact**.
2. Click .

Make sure to fill in the **Main Number** field. This field is mandatory.

3. Fill in the fields.
4. Click **Create**.

Editing a personal contact

1. Go to **Contact > Personal Contact**.
2. In the list, locate the contact that you want to edit.
3. At the beginning of the row, select the checkbox for that contact.
4. Click
5. Edit the contact details.
6. To save the changes, click **OK**.

Deleting a personal contact

1. Go to **Contact > Personal Contact**.
2. In the list, locate the contact that you want to delete.
3. At the beginning of the row, select the checkbox for that contact.
4. Click
5. To confirm, click **Delete**.

Importing a list of personal contacts

When you import a list of contacts, you overwrite any existing contacts in the personal contact list.

Use this procedure to import contacts from a file with data represented in a comma-delimited format also referred to as comma-separated values (CSV) in **Personal Contact**.

1. Go to **Contact > Personal Contact**.
2. Click and select **Import**.
3. Find the CSV file to import and click **Open**.

Exporting a list of personal contacts

Use this procedure to export contacts from **Personal Contact** to a CSV file.

1. Go to **Contact > Personal Contact**.
2. Click  and select **Export**.
3. Depending on your web browser settings, the CSV file may download automatically or you can take action to save the file.

Updating a personal contact favorite list

Use this procedure to add or delete a contact from your favorite list.

1. Go to **Contact > Personal Contact**.
2. To add a contact to a favorite list, click the star icon  next to the display name.
3. To remove a contact from a favorite list, click the star icon  next to the display name.
4. To show only favorites in the contact list, in **Category**, select **Favorite**.

Adding a personal contact to a speed dial list

You can add a personal contact to a speed dial list and associate a phone number with a key pad number on your phone.

1. Go to **Contact > Personal Contact**.
2. Next to the contact's number, click the down arrow .
3. Select **Add to Speed Dial**.
4. Associate the phone number with a number on the key pad of your phone by clicking a number in the list.
5. Click **OK**.
6. If you want to associate that phone number with a programmable key, then go to the User speed dial function in [Customizing programmable keys on your FortiFone desk phone on page 39](#).
7. To show only speed dial numbers in the contact list, filter the **Category** by selecting **Speed Dial**.

Deleting a personal contact from a speed dial list

1. Go to **Contact > Personal Contact**.
2. Next to the contact's number, click the down arrow .
3. Select **Remove from Speed Dial**.

Configuring a personal block list

Use this procedure to maintain a phone number block list to prevent those defined numbers from calling your extension.

To be able to block phone numbers, the FortiVoice system administrator must enable the functionality on the FortiVoice phone system.

To block a phone number (not included in the personal contact list)

1. Go to **Contact > Personal Contact** and click **Personal Block List**.
2. Click **New**.
3. Enter a **Number**, and optionally a **Display name** and **Description**.
4. Click **Create**.
5. To finish configuring your block list, click **Close**.

To block a phone number (included in the personal contact list)

1. Go to **Contact > Personal Contact**.
2. In the main number list, locate the number that you want to block.
3. Next to the contact's number, click the down arrow .
4. Select **Add to Block List**.
5. Optionally, add a **Description**.
6. To confirm, click **OK**.

Call handling

The **Call Handling** menu allows you to manage the call process. For example, you can configure the process to forward a call to another number on a specific schedule.

This section includes the following topics:

- [Enabling the Do not disturb setting on page 24](#)
- [Enabling the Call forward setting on page 24](#)
- [Managing a call on page 24](#)
- [Configuring Quick call handling on page 26](#)
- [Configuring the Follow Me setting on page 26](#)
- [Configuring the Twinning setting on page 27](#)

Enabling the Do not disturb setting

1. Go to **Call Handling**.
2. Under **Quick setting**, set **Do not disturb** to **ON**.
3. To save the change, click **OK**.

Enabling the Call forward setting

With call forward, you enter a phone number you want your calls forwarded to.

1. Go to **Call Handling**.
2. Under **Quick setting**, set **Call forward** to **ON**.
3. In the field provided, enter the telephone number to forward the calls.
4. To save the change, click **OK**.

Managing a call

1. Go to **Call Handling**.
2. Under **User's call handling**, select a call status from the drop-down menu. Your choices are:
 - Normal
 - No answer
 - Busy
 - Do not disturb
 - Phone not connected

- Block list
- Voicemail

Each status can only be used for one call management configuration.

If you select **Block list**, the call management configuration will apply to the numbers added in the **Personal Block List** configuration. See [Configuring a personal block list on page 23](#).

3. Set **Call Process** to either **System default action** or **User defined**.

The **System default action** changes depending on the status selected. As shown in the example, a **Normal** status means the system default action is **Ring Phone**.

The screenshot shows the 'User's call handling' configuration page. At the top, there's a dropdown menu labeled 'User's call handling'. Below it, a section titled 'Configure how to handle calls when in status:' contains a dropdown menu set to 'Normal'. Underneath, the 'Call Process' section has two radio buttons: 'System default action (Ring Phone)' (which is selected) and 'User defined'. Below the radio buttons are four buttons: '+ New...', 'Edit...', 'Move', and 'Delete'. At the bottom, there's a table with four columns: 'Schedule', 'Call from', 'Action', and 'Info'.

4. If you select **User defined**, click **New** to define a call process according to a schedule.

- Select a default **Schedule** for the call action. Once a schedule is assigned, you can click **View** to display the schedule details.
- Select whether this call process applies to **Internal**, **External**, and/or **Office peer** calls.
- Select an **Action** for the call process. Multiple user defined call process actions can be defined to process a call in a specific sequence. For example, you can create one call process with a **Play announcement** action, followed by another with an **Auto attendant** action.

The **Default action** is the same as the system default action, determined by the call handling status.

- If you select **Follow me**, select a follow me profile. For details, see [Configuring the Follow Me setting on page 26](#).

This option is only available if your administrator enables call forwarding in your extension's user privilege.

- If you select **Play announcement**, select a sound file. For information about configuring sound files, see [Customizing a sound file for an announcement on page 27](#).

- If you select **Auto attendant**, select a default auto attendant.

- If you select **Forward**, enter the number to which you want to forward the call. This option is available only if your administrator enables call forwarding in your extension's user privilege.

- Click **OK**.

5. Your call process actions are shown. If necessary, you can change the order of the actions by selecting an action's checkbox and clicking **Move > Up** or **Move > Down**.

Call Process

☐ System default action (Ring Phone)
☒ User defined

+ New... Edit... Move Delete

	Schedule		Action	Info
<input checked="" type="checkbox"/>	business_hour	Internal,Trunk,Office peer	Play announcement	welcome_default
<input type="checkbox"/>	business_hour	Internal,Trunk,Office peer	Auto attendant	auto_attendant_default

6. Click **OK**.

Configuring Quick call handling

Use Quick call handling to change your call handling settings temporarily while leaving your regular call handling settings unchanged. The quick call handling settings are tied to the settings under **Preferences > Quick Mode** (see [Preferences on page 45](#)).

You can manage Quick call handling by dialing a code to enter into a default mode and configure the call process for when your status is either **Out of office** or **Away**, or for another reason (**Other**).

To configure Quick call handling

1. Go to **Call Handling**.
2. Under **Quick call handling**, select a call status (**Out of office**, **Away**, or **Other**). Each status can only be used for one call management configuration.
3. Under **Call Process**, click **New** to define a call process according to a schedule.
 - Select a default **Schedule** for the call action. Once a schedule is assigned, you can click **View** to display the schedule details.
 - Select whether this call process applies to **Internal**, **External**, and/or **Office peer** calls.
 - Select an **Action** for the call process. Multiple call process actions can be defined to process a call in a specific sequence.
 - Click **OK**.
4. Click **OK**.

Configuring the Follow Me setting

When you configure the Follow Me setting, you redirect your incoming calls to multiple phone numbers in a sequence. You also configure the ring duration of each phone number and the call sequence of those phone numbers.

After completing the Follow Me configuration, you can use this configuration in [Managing a call on page 24](#).

If you configure both Call Forward and Follow Me settings, Call Forward takes precedence.

To configure follow me

1. Go to **Call Handling**.
2. Under **Follow Me Setting**, click **New**.
3. Enter a **Name**.
4. Under **Follow Me Numbers**, click **New** to enter a phone number to which the call to your extension can be transferred.
Additionally, define the **Ring duration** in seconds. This setting defines how long to ring the Follow Me number before following the No Answer call handling setting of the extension. Click **OK**.
5. Click **OK**.
If you want to transfer a follow me call to multiple phone numbers in a sequence, repeat the steps to add more numbers. You can add up to six phone numbers. The phone numbers will be dialed according to the sequence in the follow me setting.
6. To save **Call Handling** changes, click **OK**.
7. You can use the Follow Me configuration in [Managing a call on page 24](#).

Configuring the Twinning setting

This option is only available if the FortiVoice system administrator has selected Twinning in a profile under Phone System > Profile > User Privilege and applied that user privilege profile to your extension.

With twinning, you allow an external telephone (cell phone or home phone) to replicate your internal office extension.

1. Go to **Call Handling**.
2. Under **Twining Setting**, select one of the following choices:
 - **Disabled**: Select to disable twinning.
 - **Simple**: Select to configure basic twinning by adding a phone number.
 - **Scheduled**: Select to configure twinning by adding phone numbers based on a schedule or multiple schedules (three maximum).
3. Click **OK**.

Customizing a sound file for an announcement

When configuring user-defined **Call Process** settings under **Call Handling**, you have the option to set the **Action** to **Play announcement**. You must then assign a sound file to play, or create one.

For more details about the call process configuration, see [Call handling on page 24](#).

If you want to upload a sound file, make sure that the file meet the following requirements:

- WAVE (.wav) format
 - 8 bit, 8 kHz, mono
-

To customize a sound file

1. Go to either **Call Handling > User's call handling** or **Call Handling > Quick call handling**.
Note that **Quick call handling** is used to determine the call process for when your status is either **Out of office** or **Away**, or for another reason (**Other**).
2. In **Call Process**, click **New**.
3. Assign a **Schedule** as necessary, and determine whether this call process applies to **Internal**, **External**, and/or **Office peer** calls.
4. Set **Action** to **Play announcement**.
A **Sound file** drop-down menu appears.
5. Click **New** (the plus + icon) next to the drop-down menu.
6. Enter a **Name** for the sound file.
7. To record your own announcement:
 - a. Set **Action** to **Call me**.
A message appears stating that a voice recording request (or call) has been sent to your extension.
 - b. Answer the call and record your announcement using the phone. Click **Yes** when you have finished recording your announcement.
 - c. Click **Close**.
8. To import a preexisting audio file:
 - a. Set **Action** to **Upload**.
 - b. Locate and select the WAVE file.
 - c. Click **Open**.
 - d. Click **Close**.
9. To finish the call process configuration, click **OK**.

Call recording

The **Call Recording** menu displays all your recorded calls.

FortiVoice allows you to record phone calls to have a permanent record of particularly important phone calls.

FortiVoice supports two types of recordings:

- **Personal recording:** You can access your phone call recordings from the FortiVoice user portal.
- **System recording:** With the administrator privilege, you can access phone call recordings from the FortiVoice web-based manager. For more details about this recording type, see the Call recording section in the [FortiVoice Cookbook](#).

This section includes the following topics:

- [Recording a phone call on page 29](#)
- [Managing recorded calls on page 29](#)

Recording a phone call

Before recording a phone call, make sure to have the agreement of the person you are talking with or check your local laws regarding phone recording.

Before you begin

To record a phone call: Make sure that the FortiVoice system administrator applies a user privilege, with the monitor/recording, personal recording option enabled, to your extension. This procedure uses the default codes.

Procedure steps

1. During a phone call, start the personal recording by pressing *30.
2. To pause the personal recording, press *31. To resume the recording, press *30 again.
The recording continues until you hang up.

Managing recorded calls

In addition to listening to a recorded call, you can remove, forward, or save a recorded call.

Before you begin

- **To access a phone call recording:** Make sure that the FortiVoice system administrator applies a user privilege, with the user portal, call recording option enabled, to your extension.

Procedure steps

1. Go to **Call Recording**.
2. Select a recorded call.
3. Perform one of the following actions:
 - To listen to the recorded phone call, click .
 - To remove the recorded phone call, click **Delete**. To confirm the deletion, click **Yes**.
 - To send the recorded phone call to another extension, click **Forward**. Select the extension and click **OK**.

When you download multiple recorded phone calls at the same time, they are saved in the TGZ file format. To decompress and extract the recorded phone calls from this file, use a third-party tool that supports the TGZ file format.

- To save the recorded phone call (WAV file format), click **Download**. Select to save the file and click **OK**.

Fax

The **Fax** menu allows you to send and receive faxes. If your administrator enables you to monitor a fax extension, you can also manage all of the faxes received on that fax extension.

This section includes the following topics:

- [Viewing a fax received on your extension on page 31](#)
- [Sending a fax on page 31](#)
- [Viewing a fax sent from your extension on page 32](#)
- [Adding a fax cover page on page 32](#)
- [Monitoring a fax extension on page 33](#)

Viewing a fax received on your extension

1. Go to **Fax > Inbox**.
2. Locate the row for the fax that you want to view.
3. Go to the **Download** column and click the link.

Sending a fax

1. Go to **Fax > Inbox** or **Fax > Sent**.
2. Click **New**.
3. Configure the following fields:

GUI field	Description
To	Enter the fax number to which you want to send the fax.
Cover sheet type	Uploaded: Select this option to attach a cover sheet and update the next field (Attach cover sheet). Dynamic: Select this option to add details without attaching a cover sheet and configure the following fields: <ul style="list-style-type: none">• From: Enter your name.• Email: Enter your email address.• Subject: Enter the subject of this fax.• Company: Enter the business name.• Comments: Optionally, enter a description.
Attach cover sheet	Select a cover sheet. For details, see Adding a fax cover page on page 32 .
Attachment (PDF and JPEG	Click the plus (+) icon to locate the fax that you want to send as either a PDF or

GUI field	Description
only)	JPEG attachment.
Advanced	
Fax header	Enter a fax header such as your business name, subject, or number of pages.
Station ID	Enter a station ID such as your fax number. The station ID shows on each fax sent from the FortiVoice unit.

4. Click **Send**.

Viewing a fax sent from your extension

1. Go to **Fax > Sent**.
2. Locate the row for the fax that you want to view.
3. Go to the **Download** column and click the link.

Adding a fax cover page

You can upload a cover page or add details in a dynamic cover page.

To upload a fax cover page

Requirements for the fax cover page are:

- Supported file types: PDF and JPEG
 - If you want to use a PDF file as a fax cover page, make sure that the file is one page only.
- File size: 200 MB or less

1. Go to **Fax > Cover Page**.
2. Click **New**.
3. Add a **Name**.
4. Optionally, add a **Description**.
5. Click **Upload**.
6. Locate and select the file.
7. Click **Open**.
8. Click **OK**.
9. You can then use this cover page in [Sending a fax on page 31](#).

To add a dynamic cover page

1. Go to **Fax > Cover Page**.
2. Click **Dynamic Cover Page**.

3. Configure the following settings:
 - **From:** Enter your name.
 - **Email:** Enter your email address.
 - **Subject:** Enter the subject of this fax.
 - **Company:** Enter your business name.
 - **Comments:** Optionally, enter a description.
4. Click **OK**.
5. You can then use this cover page for [Sending a fax on page 31](#).

Monitoring a fax extension

1. If the FortiVoice system administrator has enabled you to monitor incoming faxes on a fax extension, go to **Fax > Monitor**.
2. In **eFax Account**, select the fax receiving account.
3. Locate the row of the fax that you want to view, delete, resend, or forward.
4. To view a fax, go to the **Download** column and click the link.
5. To delete the fax, select the checkbox at the beginning of that row and click **Delete**.
6. To resend the fax, select the checkbox at the beginning of that row and click **Resend**.
7. To forward the fax, select the checkbox at the beginning of that row and click **Forward**.

Conference

You can add a conference call event in your calendar and invite attendees by email.

To have access to **Conference**, the FortiVoice system administrator must update the FortiVoice phone system to give you the privilege to organize conference calls by adding your extension in Call Feature > Conferencing > User Conferencing.

FortiVoice allows two types of conferencing:

- **User conferencing:** You can set up conferences using the FortiVoice user portal.
- **Admin conferencing:** The administrator can set up conferences using the FortiVoice web-based manager. For details, see the [FortiVoice Phone System Administration Guide](#).

This section includes the following topics:

- [Specifications for conference call events on page 34](#)
- [Adding a conference call event on page 35](#)
- [Adding a conference announcement on page 36](#)

Specifications for conference call events

User conference call events include the following specifications:

- **Attendee limit:** The maximum number of participants that can join a conference call event.
- **Concurrent event limit:** The maximum number of conference call events that you can simultaneously host.
- **Event duration:** There is no limit as to how long a conference call event can last.

The following table lists specifications for user conference call events.

FortiVoice model	Attendee limit	Concurrent event limit
FVE-VM-100 / FVE-100E	8	3
FVE-VM-200 / FVE-200F	8	3
FVE-300E	8	3
FVE-VM-500 / FVE-500E / FVE-500F	20	3
FVE-VM-1000 / FVE-1000E	20	5
FVE-VM-2000 / FVE-2000E / FVE-2000F	20	5
FVE-VM-3000 / FVE-3000E	20	8
FVE-VM-5000 / FVE-5000F	20	10

FortiVoice model	Attendee limit	Concurrent event limit
FVE-VM-10000	20	20
FVE-VM-20000	20	20
FVE-VM-50000	20	20

Adding a conference call event

1. Go to **Conference**.
2. In the calendar, click a date.
3. Complete the following fields:

GUI field	Description
Title	Add a title for the conference call event. This field is mandatory.
Conference ID	The ID associated with the conference call. The FortiVoice system administrator defines this ID. This field is read-only.
Attendee PIN	The PIN that an attendee must enter to join the conference call. You can use the one generated by the system or change it.
Organizer PIN	The PIN that you must enter to host a conference call. Use the suggested PIN or specify your own code. Select one of the following options: <ul style="list-style-type: none"> • Use voicemail PIN - This code is also used to access your voicemail messages and is stored on the FortiVoice phone system under Extension > Extension > User Setting, Phone Access. • Use personal code - This code is also used to access restricted calls and is stored on the FortiVoice phone system under Extension > Extension > User Setting, Phone Access. • Specific - You can specify your own code.
Description	Optionally, add details about this conference call event.
Location	Optionally, add information about the location of this conference call event.
Start time	 Both start and end times use the time zone setting available in Preferences > Display Preference. <p>Select the time for the conference call event to start. If the event will last all day, do not select a start time but enable All day event below.</p>

GUI field	Description
End time	Select the time for the conference call event to end. If the event will last all day, do not select an end time but enable All day event below.
All day event	Enable if the duration of the conference call will be an entire day.
Recurrence	If you want the conference call event to be on a repeating schedule, click None , update the recurrence settings, and click OK .
Attendee	<div>  <p>For details about the attendee limit for user conferencing, see Specifications for conference call events on page 34.</p> </div> <ol style="list-style-type: none"> 1. Click Add Attendee. 2. Add an email and a display name, and click Create. 3. Repeat for every attendee.

4. To save the conference call event, click **OK**.

Example of an email received by an invited attendee

Juliet [redacted] has invited you to a Conference Call - Marketing meeting	
Subject:	Marketing meeting
Organizer:	Juliet [redacted] - [redacted] @gmail.com'
When:	Thu Jun 04 2020 06:30
Location:	Ottawa
Conference ID:	903903
Conference PIN:	193311
Access:	Please dial ext 7501 to attend this conference.
Attendees:	Nathalie - [redacted] @fortinet.com'
Description:	New phone models

Attending? [Accept](#) - [Tentative](#) - [Reject](#)

Adding a conference announcement

You can add a conference announcement to personalize the greeting that all attendees will hear after they enter the conference ID to join your conference call event.

To add a conference announcement

1. Go to **Conference**.
2. Click **Conferencing Options**.
3. You have two options:
 - Option 1: To initiate the creation of an announcement:
 - i. Click **Call me**.
 - ii. Answer your extension.
 - iii. Follow the prompts to record the announcement.
 - Option 2: To use an announcement that you have already recorded:
 - i. Verify that the file meets the following requirements:
 - Format: WAV
 - Channel: Mono
 - Bit rate: 8000 Hz (8 kHz)
 - Sampling: 16-bit PCM
 - ii. Click Upload.
 - iii. Follow the prompts to upload the file.
4. To save the changes, click **OK**.

Reminder

The **Reminder** menu allows you to add a reminder event in your calendar and set the extensions to which you want to send the event reminder calls.

To add a calendar reminder

1. Go to **Reminder**.
2. In the calendar, click a date.
3. Complete the following fields:

GUI field	Description
Title	Add a name for the reminder event.
Description	Optionally, add a description for the reminder event.
Location	Optionally, add a location for the reminder event.
Start time	<div><p>The start time uses the time zone setting available in Preferences > Display Preference.</p></div> <hr/> <p>Specify when the reminder event starts.</p>
Recurrence	If you want the reminder event to be on a repeating schedule, click None , update the settings, and click OK .
Guest	From the available and external lists, make your selections and click > to update the selected list. Guests in the selected list will receive your reminder event.
Reminder audio	<p>To send a reminder audio to the selected guest phones, select one of the following options:</p> <ul style="list-style-type: none">• Default: Select to send a beep sound as the reminder audio. To hear the beep sound, click Play, and save the GSM file.• Customized: Select to customize the reminder audio.<ol style="list-style-type: none">a. Click Create New.b. You have two options to create a customized message:<ul style="list-style-type: none">• Option 1: Select an extension and click Call me. You can then follow the prompts to create a new message.• Option 2: To upload a message that you have already recorded:<ul style="list-style-type: none">• Make sure that the file meets the following requirements: 8 bit, 8 kHz, mono, and WAV file format.• Click Upload.c. Click Close.

4. To save the reminder event, click **OK**.

Device

The **Device** menu allows you to set programmable keys on your FortiFone phone and perform other tasks for the FortiFone softclient.

The FortiVoice user portal only shows the **Programmable Key** menu, if you are using a FortiFone phone that supports programmable keys.

This section includes the following topics:

- [Customizing programmable keys on your FortiFone desk phone on page 39](#)
- [Displaying desk phone details on page 43](#)
- [Displaying FortiFone softclient details on page 43](#)
- [Displaying the softclient QR code for scanning on page 44](#)
- [Revoking a FortiFone softclient license on page 44](#)

Customizing programmable keys on your FortiFone desk phone

The FortiVoice user portal only shows the **Programmable Key** menu, if you are using a FortiFone device that supports programmable keys.

The **Programmable Key** menu allows you to program phone keys for specific functions and easier call control.

Your FortiVoice system administrator can define keys as admin-assigned (Phone System > Profile > Programmable Keys). You cannot customize these keys. However, your FortiVoice system administrator can also define other keys as user-assigned, allowing you to program them yourself from the user portal.

Keys 1 and 2 are reserved by default and you cannot edit them. Your FortiVoice system administrator may choose to reserve up to the first four lines.

To customize programmable keys

1. Go to **Device > Programmable Key**.

In the list, you can see which keys are reserved, admin-assigned, and user-assigned.

In the following example, the user has one **Page** of keys. Lines 1 and 2 are designated as **Reserved**. The remaining keys are designated as **User Assigned**. If necessary, contact your administrator to get more user assigned keys, which would then be configured under **Page 2** and **Page 3**.

Set Programmable Phone Key

Page 1 ▾

Option:	Function	Resource	Label
1.	Reserved	Reserved	Reserved
2.	Reserved	Reserved	Reserved
3.	Extension appearance ▾	2000 (AH100 Kitchen) ▾	AH100 Kitchen 2000

6.	--User Assigned-- ▾		
7.	--User Assigned-- ▾		

Page 2 >

Page 3 >

Page 4 >

- For each **User Assigned** key that you want to add, complete the following fields. For more details about each key, see :
 - In **Function**, select the type of action to occur when you press the programmable key.
 - In **Resource**, select the result of the selected function or enter digits, if applicable.
 - In **Label**, keep the default or enter a name that will appear beside the programmable key on the FortiFone device.
- Click **OK**.

Programmable key descriptions

Function	Description	Resource	Label
Call forward	Allows you to enable or disable and configure the call forward function.	Stays blank.	Edit the label or keep the default label (Call forward).
DTMF	<p>DTMF (dual-tone multi-frequency) refers to the touch tone digits on the keypad of your desk phone.</p> <p>When you are on a call and you press the DTMF key, the system dials the configured DTMF digits.</p> <p>This key is useful when you need to enter consistent codes at an interactive voice response (IVR) system.</p>	Enter the DTMF digits to dial when you press this programmable key on your phone.	Edit the label or keep the default label (DTMF).

Function	Description	Resource	Label
	 <p>The DTMF function is only available during a call.</p>		
Extension appearance	<p>Allows you to perform the following actions:</p> <ul style="list-style-type: none"> Monitor the status of the selected extension (idle, ringing, in use, DND, and on hold). On FON-x80 series phones: Transfer a call to the selected extension. The FortiVoice system administrator configures this setting as one of the following transfer types: <ul style="list-style-type: none"> Blind: Allows you to transfer a call without talking to the person receiving the transfer. Attended: Allows you to announce the call to the person receiving the transfer and then complete the transfer. 	Select an extension from the list.	Edit the label or keep the one associated with the selected extension.
Intercom	Allows you to use the phone speaker of a local extension as an intercom.	Stays blank.	Edit the label or keep the default label (Intercom).
	 <p>The intercom function works for internal extensions (not for external extensions).</p>		
Line appearance	Allows you to monitor the status of a line (available, busy, or on hold).	Select a line.	Edit the label or keep the one associated with the selected line (or trunk).
Park	<p>Places the call into the first available call park slot.</p> <p>You will hear a prompt telling you which slot the call has been parked in.</p>	Stays blank.	Edit the label or keep the default label (Auto park).
	 <p>The FortiVoice system administrator configures the call parking settings (park call number, park line start, and park line end).</p>		

Function	Description	Resource	Label
Park appearance	Monitors the selected call park slots, informing you if there is a call parked.	Select the park slot to monitor.	Edit the label or keep the one associated with the selected line (or slot).
Record	Allows you to record a phone call.	Stays blank.	Stays blank to use the Record label.
	 <p>The Record function is only available if the FortiVoice system administrator has applied a profile with personal recording enabled to your extension.</p>		
Reserved for line	<p>By default, the FortiVoice phone system reserves the first two programmable keys for lines on the phone so you can monitor your own calls on those lines.</p> <p>If your phone has additional lines, then you can use the Reserved for line function to program the appearance of those lines.</p>	If multiple accounts have been configured on this extension, choose which account to monitor.	Edit the label or keep the one associated with the selected line (or account).
System speed dial	Allows you to quickly place a call to the selected extension or phone number at a touch of a button.	Make a selection.	Edit the label or keep the one assigned by the FortiVoice system administrator.
	 <p>Before using the system speed dial key, the FortiVoice system administrator must configure the speed dial numbers on the system.</p>		
Twinning	<p>Allows an external phone to ring along with your office phone, so you can answer the call at either phone.</p> <p>Pressing the twinning programmable key enables or disables the function.</p>	Stays blank.	Edit the label or keep the default label (Twinning).
	 <p>Before using the twinning function, make sure that:</p> <ul style="list-style-type: none"> • The FortiVoice system administrator has applied a profile (with twinning enabled) to your extension. • Configure the twinning setting. See Configuring the Twinning setting on page 27. 		

Function	Description	Resource	Label
User speed dial	Allows you to quickly place a call to an extension or a phone number at a touch of a button.	Select a contact from your speed dial list or click in the field and enter an extension or a phone number.	Edit the label or keep the one associated with the selected contact.
	 <p>The user speed dial function shows personal contact choices that you have configured on the FortiVoice user portal. For details, see Adding a personal contact to a speed dial list on page 22.</p>		

Displaying desk phone details

1. Go to **Device**.
2. In **Desk Phones**, you can view details about your phones. Here is an example:

Desk Phones 					
Phone model	MAC	IP	Phone Info	Registry time	Expiry time
Main - FortiFone-380			Fortinet FON-380 3.0.11.196 	2021-11-26 06:55:37	2021-11-26 07:55:37

Displaying FortiFone softclient details

1. Go to **Device**.
2. In **Soft Phones**, you can view details about your FortiFone softclient. Here is an example:

Soft Phones 					
Extension Number	Client Version	Phone Info	OS Platform	OS Version	Revoke
6010	3.0.8.132	ot-ngauthi-nb1	Windows	10.0.19043	
[View Mobile Login Information...] [View Desktop Login Information...] <input type="button" value="Send Softclient QR Code by Email"/>					

Displaying the softclient QR code for scanning

The FortiFone softclient (Android or iOS) installation requires that you display the softclient quick response (QR) code on your PC screen for scanning.

For more details about installing, configuring, and using the FortiFone softclient, see the [FortiFone Softclient User Guide](#) for Android or iOS, as applicable.

1. Go to **Device**.
2. In **Soft Phones**, click **View Mobile Login Information** or if you want to receive the QR code in an email, click **Send Softclient QR Code by Email**.
3. When the FortiFone softclient on your mobile device is ready to scan the QR code, point your mobile camera at the PC screen displaying the QR code.
4. When you are done with the QR code, click **Close**.

Revoking a FortiFone softclient license

You can revoke a license for a device that you no longer want associated with your extension and managed by the FortiFone softclient.

1. Go to **Device**.
2. In **Soft Phones**, locate the softclient license that you want to remove, go to the **Revoke** column, and click .

Soft Phones 					
Extension Number	Client Version	Phone Info	OS Platform	OS Version	Revoke
6010	3.0.8.132	ot-ngauthi-nb1	Windows	10.0.19043	
[View Mobile Login Information...]					
[View Desktop Login Information...]					
Send Softclient QR Code by Email					

3. To confirm, click **Delete**.

Preferences

The **Preferences** menu allows you to customize settings for your extension and the FortiVoice user portal.

This section includes the following topics:

- [Customizing user settings on page 45](#)
- [Customizing display preferences on page 46](#)
- [Customizing programmable keys on your FortiFone desk phone on page 39](#)
- [Customizing incoming calls preferences on page 47](#)
- [Customizing quick modes on page 47](#)
- [Customizing notification options on page 48](#)

Customizing user settings

1. Go to **Preferences**.
2. Configure the following fields:

GUI field	Description
User Setting	
Number	Displays your extension number (read-only).
Display name	Displays the caller ID on the extension, usually the name of the extension user (read-only).
Emergency caller ID	Displays the caller ID to display on the destination phone when the emergency number is dialed (read-only).
External caller ID	Displays a particular caller ID on a called phone instead of the FortiVoice main number or the trunk phone number (read-only). Use the <code>name<phone_number></code> format, such as <code>jdoe<2221111234></code> . If you are unsure about this feature, contact your administrator for more information.
Idle timeout	Enter the duration of time in minutes before you are logged out of the user portal. Set the value between 1 and 1440 minutes (maximum of one day).
Picture ID	<p>You can upload a picture ID file. When you place a call, the callee's phone displays the uploaded picture ID, if the phone model supports this feature. Before uploading a picture file, make sure that the file meets the following requirements:</p> <ul style="list-style-type: none">• Supported formats: JPEG and PNG• Width and height ratio: between 0.85 and 1.2• File size: 5 MB or less <p>To upload a picture, click .</p>

GUI field	Description
	To delete a picture, click  .
Change Voicemail PIN	Click to enter and confirm a new PIN for accessing your voicemail. You must enter your current PIN before choosing a new PIN.
Change User Password	<div>  <p>The Change User Password is available when the FortiVoice system administrator has set your extension to use the local authentication type for web access.</p> </div> <p>Click to enter and confirm a new user password for accessing the user portal. You must enter your current password before choosing a new password.</p>

3. To save changes, click **OK**.

Customizing display preferences

1. Go to **Preferences**.
2. Configure the following fields:

GUI field	Description
Display Preference	
Default portal	Set the default portal to open when you log in: User portal (by default), Operator console , or Call center console . For more information about the different consoles, see Call center console on page 53 and Operator console on page 49 .
Phone language	Set the phone language for the extension.
Web language	Set the user portal language (English by default).
Theme	Set the display color theme for the user portal (Green by default).
Time zone	Set the time zone for the user portal (GMT -8:00 Pacific Time US & Canada by default).

3. To save changes, click **OK**.

Customizing programmable keys on your FortiFone desk phone

For details, see [Customizing programmable keys on your FortiFone desk phone on page 39](#) in **Device**.

Customizing incoming calls preferences

1. Go to **Preferences**.
2. In **Incoming Calls**, you can configure the following settings:

GUI field	Description
Retain original caller ID	Enable to display the original caller's number of an incoming call.
Call screening	Enable to request callers to state who they are and why they are calling when receiving an incoming call, allowing you to safely answer expected calls or cancel unwanted and spam calls.
Record caller name	Enable to record the names of incoming callers. This setting is accessible when the FortiVoice administrator enables the Call screening setting for your extension on the FortiVoice phone system.
Ring duration	Specify the duration of time in seconds that incoming calls will ring before going to voicemail.
Call waiting	Enable to allow you to answer an incoming call while on another call.

3. To save changes, click **OK**.

Customizing quick modes

Quick modes allow you to enable a secondary set of call handling rules that do not affect your regular user call handling settings (from [Call handling on page 24](#)).

To define the behavior of the quick mode settings (Out of office, Away, and Other), see [Configuring Quick call handling on page 26](#).

1. Go to **Preferences**.
2. In **Quick Mode**, configure the following fields:

GUI field	Description
Quick Mode	
Effective mode	Shows the mode that is active. For example: <i>Effective mode: Out of office: (expiring at 2021-10-28 09:00:00)</i> If Effective mode is blank, then none of the quick modes is enabled.
*720	To cancel the quick mode and revert the system to its regular schedule, dial *720 on your phone.
*721	To enable the Out of office schedule, dial *721 on your phone. To modify the option and time settings for this quick mode, click the underlined text.
*722	To enable the Away schedule, dial *722 on your phone.

GUI field	Description
	To modify the option and time settings for this quick mode, click the underlined text.
*723	To enable the Other schedule, dial *723 on your phone. To modify the option and time settings for this quick mode, click the underlined text.

- When you have finished customizing your preferences, click **OK**.

Customizing notification options

- Go to **Preferences**.
- In **Notifications Options**, configure the following fields:

GUI field	Description
Notification Options	
Voicemail	Select the email notification option to use when this extension receives a voicemail: <ul style="list-style-type: none"> None: Do not send a notification. Simple: Send an email notification. With attachment: Send an email notification with the voicemail attached.
Fax	Select the type of email notification option to use when this extension receives a fax: <ul style="list-style-type: none"> None: Do not send a notification. Simple: Send an email notification. With attachment: Send an email notification with the fax attached.
Missed call	Enable to send an email notification when you miss an incoming call.
Email address	Enter the email addresses (maximum of three) to which you want to send email notifications for voicemails, faxes, missed calls, and softclient QR code.
	 <p>The email notification function requires that the FortiVoice system administrator has configured the relay server setting on the FortiVoice phone system.</p>

- To save changes, click **OK**.

Operator console

To have access to the **Operator console**, the FortiVoice system administrator must assign the operator role (Phone System > Profile > User Privilege > Operator Role) to your extension.

In the **Operator console**, you can perform the following tasks:

- Process phone calls on the web as your organization's phone operator.
- Manage the status of hotel rooms.

This section includes the following topics:

- [Opening the operator console on page 49](#)
- [Managing active calls on page 49](#)
- [Making a call on page 50](#)
- [Managing parked calls on page 50](#)
- [Checking the directory on page 50](#)
- [Managing the hotel room status on page 50](#)

Opening the operator console

To open the **Operator console**, go to the top of the user portal window and click **Operator console** .

Managing active calls

When an active call appears in the **Active Call** widget, you can select the call and click one of the following icons:

- Pick up the call
- Hang up the call
- Transfer the call by dragging and dropping it to an extension (or the voicemail of an extension) in **Idle**, **In Use**, **Busy**, **Ringing**, or **On Hold** status in the **Directory** widget.
- Park the call
- Hold the call

In the **Active Call** widget, you can filter the calls by category, direction, and status. The **Call** filter has the following options:

- **All**: Displays all phone calls.
- **Short**: Displays ringing calls and calls to and from the operator extension.

- **Mine:** Displays calls to and from the operator extension.

Making a call

If you need to make a call as your organization's phone operator using the operator console, then you can do one of the following actions:

- Right-click an extension from the **Directory** widget and click **Call**.
- Click **Call**  and either enter or select an extension to call.

The **Active Call** widget shows the extension that you are calling.

Managing parked calls

Here is how the **Parked Call** widget works:

1. An extension parks a call on the system.
2. The call appears in the **Parked Call** widget of the operator console.
3. In the list of the **Parked Call** widget, one of the users of the operator console can then select the call, and click **Unpark**. The phone of that operator console user rings with the parked call.
4. To refresh the list of parked call, click Refresh .

Checking the directory

The **Directory** widget lists the extensions for your organization. You can filter the extensions by user, group, conference, location, and type.

Managing the hotel room status

The FortiVoice phone system can interoperate with your property management system (PMS).

Prior to accessing the Room Status widget, make sure that the FortiVoice system administrator performs the following tasks on the FortiVoice phone system:

- Load the hotel management license.
- Configure the hotel management settings to allow the FortiVoice phone system to interoperate with your PMS. For details, see the Working with Property Management System section in the [FortiVoice Phone System Administration Guide](#).
- Set the user privilege of your extension (Phone System > Profile > User Privilege) with the Operator Role - Hotel room active.

This section includes the following topics:

- [Showing the Room Status widget on page 51](#)
- [Checking the PMS connection on page 51](#)
- [Editing room settings on page 51](#)
- [Setting up a wake-up call on page 52](#)
- [Editing a wake-up call on page 52](#)

Showing the Room Status widget

If the Room Status widget is not visible, then perform this procedure to show this widget:

1. Click **Setting**.

2. Go to **Add Content > Room Status**.

Checking the PMS connection

Check the connection of the PMS to the FortiVoice phone system.

The dot colors and descriptions are:

- Green - Indicates that the PMS is connected to the FortiVoice phone system.
- Red - Indicates that the PMS is not connected to the FortiVoice phone system.

Editing room settings

Perform this procedure to edit the following room settings:

- Check-in status
- VIP setting
- Room condition

1. In the Room Status widget, go to the row of the room that you want to edit.
2. In the first column, select the check box.
3. Click **Edit**.
4. Edit the settings, as required.
5. To save the changes, click **OK**.

Setting up a wake-up call

1. In the Room Status widget, go to the row for the room that wants a wake-up call.
2. In the **Wake Up** column, click wake up .
3. In the calendar, click the date for the wake-up call.
4. Click **New**.
5. Edit the fields, as required.
6. Click **Create**.

Editing a wake-up call

1. In the Room Status widget, go to the row for the room that wants a wake-up call.
2. In the **Wake Up** column, click wake up .
3. In the Agenda list, locate and expand the date, and then click on the wake-up entry.
4. Edit the fields, as required.
5. To save the changes, click **OK**.

Call center console

The call center console offers your organization an efficient way to receive, answer, and organize a large volume of phone calls.

To have access to the call center console, the FortiVoice system administrator must:

- Load the FortiVoice Call Center license on the FortiVoice phone system.
 - Complete the call center setup. For details, see the Setting up a call center section in the [FortiVoice Phone System Administration Guide](#).
 - Enable and set up the call center option for your extension.
-

Depending on your agent or manager profile, you can perform the following functions:

- Pick up a waiting call.
 - Transfer a waiting call to an extension.
 - Adjust caller priorities in a queue.
 - Pause and resume your agent status with reason codes.
 - Manage agents (coach, listen, log in, log out, and pause and resume agent statuses with reason codes).
 - Initiate a callback.
 - Monitor agent and queues status in real time.
 - Receive alerts by email, phone call, or pop-up window of prolonged waiting callers, too many callers (queue overflow) for the number of available agents.
 - View call and agent details.
 - View agent and queue statistics.
-

To set up and generate call center reports, you need to access the FortiVoice phone system. For more details, see the Configuring call center report profiles and generating reports section in the [FortiVoice Phone System Administration Guide](#).

This section includes the following topics:

- [Logging in to the call center console on page 54](#)
- [Logging in to queues on page 54](#)
- [Checking the queue status on page 56](#)
- [Taking a pause from queues on page 56](#)
- [Resuming taking calls from queues on page 57](#)
- [Managing widgets on page 58](#)
- [Widgets on page 58](#)
- [Service-level alerts on page 70](#)
- [Monitor view on page 71](#)
- [Logging out of queues on page 72](#)
- [Logging out of the call center console on page 73](#)

Logging in to the call center console

1. To log in to the call center console, use one of the following two methods:

- **Using the FortiVoice user portal:** When logged in to the portal, click **Call center console** .

- **Using the direct access to the call center console:**

- Ask your FortiVoice system administrator for the IP address or FQDN (and access port, if required) of the FortiVoice phone system that is managing your extension.
- Know your phone extension on the FortiVoice phone system and user password for web access.
- In a web browser, go to the following URL:
`https://<IP_address_or_FQDN>/agent`
 Where <IP_address_or_FQDN> is the IP address or FQDN of the FortiVoice phone system.
 If the FortiVoice system administrator has changed the access port, then you must also include the port, for example:
`https://<IP_address_or_FQDN>:446/agent`
- Enter your extension and password.
- Click **Login**.

2. You are now ready to go to [Logging in to queues on page 54](#).

Logging in to queues

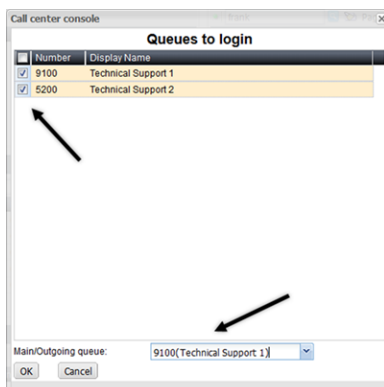

After logging in to the call center console, you need to log in to queues to take calls.

To log in to queues

1. Click .

2. Select one or more queue from the list.
3. In **Main/Outgoing queue**, select a queue to specify the following behaviors:
 - **Main:** When you are a member of multiple queues, this selection addresses how calls are distributed to you. The queue you select is the one that rings your extension, if there is a possibility of multiple calls offered by multiple queues.
 - **Outgoing:** This queue is your default call queue used to track outbound calls such as taking a call from callback or returning a call. When the manager generates a queue report, the report includes outbound calls associated with the Main/Outgoing queue that you selected.
4. Click **OK**.

5. When you are logged in to the queue, you can see the following UI changes:
 - The **Pause/Resume** icon is available instead of grayed out.
 - Depending on the queue status, the **Agent** icon can be green or yellow. For more details about the queue status, see [Checking the queue status on page 56](#).

Checking the queue status

The color of the **Agent** icon gives you an indication of the queue status.

To understand the queue status

The following table lists the **Agent** icon colors and their descriptions:

Agent icon	Description
	Indicates that you are logged in to all the queues that you are a member of. You are ready to take calls.
	<ul style="list-style-type: none"> Indicates one of the following conditions: <ul style="list-style-type: none"> The status of one or more of your queues is set to <i>Pause</i>. If you are a member of multiple queues, you are logged in to at least one queue out of all the queues but not all of them. Indicates that the extension is <i>in use</i>.
	Indicates that you are logged out of queues.

To display the queue list and status

1. Hover over the Agent icon.
The UI displays a queue list with status.

Taking a pause from queues

Take a pause from answering calls in queues without logging out of queues by assigning a pause reason code. Let's say that you initially assign *Lunch break* as the reason code but you will be attending a meeting immediately after lunch. The call center console allows you to reset the reason code to *Meeting* and extend your pause from answering calls in queues.

To assign a reason code

1. Click **Pause/Resume**.

2. Click **Pause**.
3. Select queues.
4. Select a **Reason code**.
5. Click **OK**.

To reset a reason code

You can stay on pause from taking calls but you change the assigned reason code.

1. Click **Pause/Resume**.

2. Click **Reset Reason Code**.
3. Select a new **Reason code**.
4. Click **OK**.

Resuming taking calls from queues

End your pause from queues and start answering calls again.

1. Click **Pause/Resume**.

2. Click **Resume**.
3. Select queues and click **OK**.

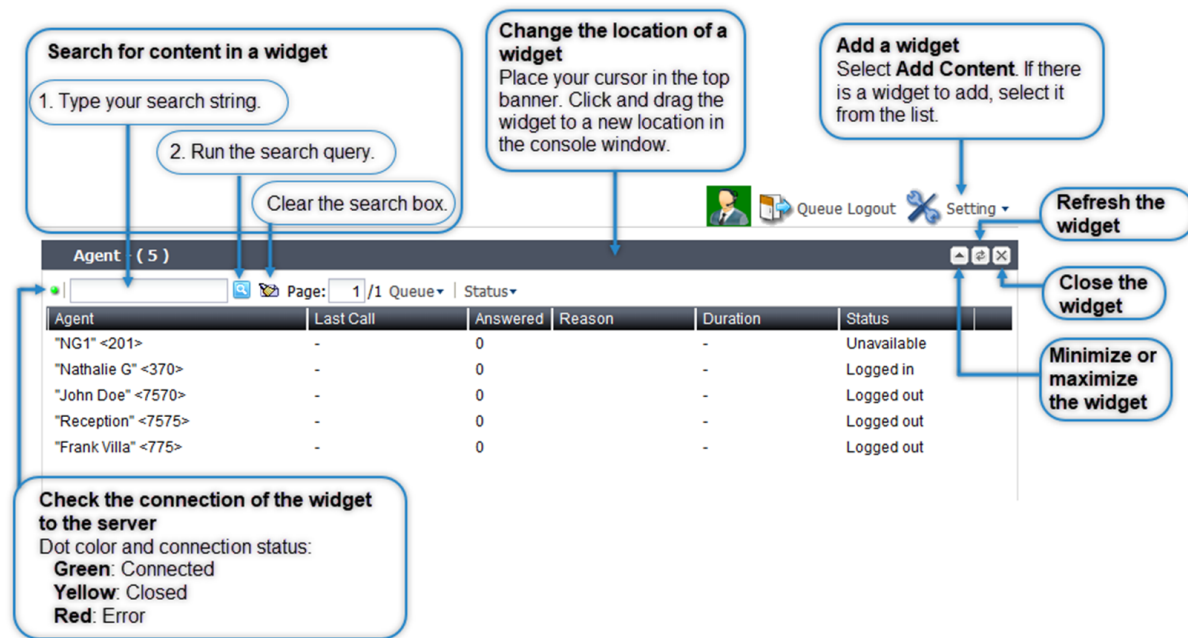

You are ready to take calls from queues.

Managing widgets

You can manage widgets to perform the following tasks:

- Minimize, maximize, refresh, close, and add widgets.
- Arrange the position of widgets in the call center console window.
- Search for content in a widget.
- Check the connection of a widget to the server.

Widgets

Depending on your agent or manager profile, the call center console can display the following widgets:

- [Waiting Caller on page 58](#)
- [Active Call on page 59](#)
- [Recent Calls on page 62](#)
- [Directory on page 64](#)
- [Agent on page 65](#)
- [Queue Stat Today on page 68](#)
- [Queue Agent Summary on page 69](#)
- [Queue Callback List on page 70](#)

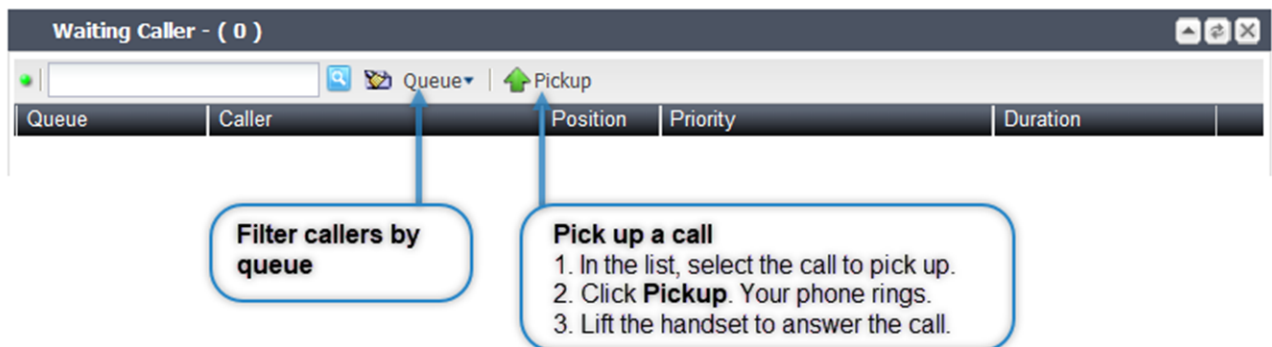

Waiting Caller

The **Waiting Caller** widget shows calls that are in a queue and waiting to be answered.

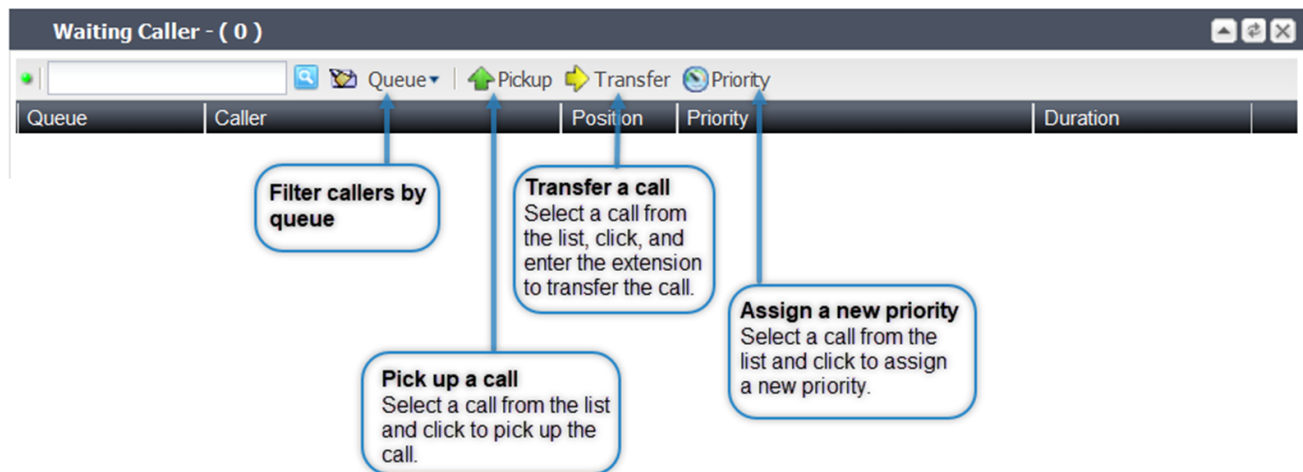

Depending on your profile, the **Waiting Caller** widget allows you to perform the following tasks:

- Filter callers by queue.
- Pick up the call of a selected caller.
- Transfer a call to another extension.
- Change the priority of a call.

Waiting Caller (agent profile view)

Waiting Caller (manager profile view)

Active Call

The **Active Call** widget displays all ongoing phone calls in real time.

Active Call (agent profile view)

Filter call list

- **All:** Queued calls and answered calls.
- **Short:** Queued calls and calls that you have answered on your extension.
- **Mine:** Calls that you have answered on your extension only.

Filter active calls by status
Select all, ringing, answered, connected, voicemail, or on hold.

Filter active calls by direction
Select internal, outgoing, or incoming.

From	To	Status	Duration	Owner	Trunk
Fortinet Techno 161...	9100	Ringing	00:00:16	Q: "9100" <9100>	

Active Call (manager profile view)

Filter call list

- **All:** Queued calls and answered calls.
- **Short:** Queued calls and calls that you have answered on your extension.
- **Mine:** Calls that you have answered on your extension only.

Filter active calls by status

Select all, ringing, answered, connected, voicemail, or on hold.

Monitor call

Select a call from the list and then click to select one option:

- **Coach:** To speak to the agent only while the agent is on the call.
- **Listen:** To listen to a call.

Filter active calls by direction

Select internal, outgoing, or incoming.

Active call popup

To see the active call popup, the FortiVoice system administrator must update the agent or manager profile to enable the **Popup active call** setting.

When you answer an active call, an active call window pops up.

This window displays the following details:

- From (name and extension)
- To (name and extension)
- Queue number for the owner
- IVR (interactive voice response), if available

Here is a window example of an active call popup:

Assigning a classification label to a call

Agents can assign a classification label to a call. Managers can generate call reports using those classifications.

To get access to the classification labels, the FortiVoice system administrator must complete the following changes on the FortiVoice phone system:

- Update the call queue additional setting to add call classification labels.
- Update the agent or manager profile to enable the **Set call classification** option.

To assign a classification label to a call

1. Answer a call from a queue.
2. When the call is complete, hang up.

The call classification dialog box appears. Here is an example:

3. Select a label from the list.
4. Click **OK**.

Recent Calls

The **Recent Calls** widget shows a history of recent phone calls.

Recent Calls (agent and manager profiles view)

Filter recent calls by direction
Select all, internal, outgoing, or incoming.

Filter recent calls by disposition
Example choices are: no answer, failed, busy, answered, voicemail.

Recent Calls - (17)

Page: 1 / 0 Direction: --All-- Disposition: --All--

From (Name)	From	To (Name)	To	Start	Duration	Disposition

16:31:16	call hangup by callee, status:NORMAL

Directory

The **Directory** widget shows the company directory and lists the extension (number) and display name for every entry.

Agent

With the agent profile, you can perform the following tasks in the **Agent** widget:

- View a list of agents that are members of your queue.
- Access agent details.
- Take a pause from answering calls in a queue without logging out of a queue by assigning a pause reason code. To resume taking calls again, you unpause your status.

With the manager profile, you can perform the following additional tasks in the **Agent** widget:

- Log in or log out an agent of a queue.
- If you want a logged in agent to pause from answering calls from a queue, but you do not want to log that agent out of the queue, you can pause that agent and assign a pause reason code. The agent stops receiving calls until you unpause that agent.

For more details, see also the following sections:

- [Checking the queue status on page 56](#)
- [Taking a pause from queues on page 56](#)
- [Resuming taking calls from queues on page 57](#)

Agent (agent profile view)

Pause or resume your agent status

Click to pause your logged in status for a selected queue and assign a reason code or resume your active logged in status.

FortiVoice 1000E

Queue Login Pause/Resume

Agent - (4)

Page: 1 / 1 Queue Status

Agent	Last Call	Answered	Reason	Duration	Status
"NG2" <7370>	-	0		-	Logged in
"John Doe" <7570>	-	0		-	Logged out
"Reception" <7575>	-	2		-	Logged in

Filter agents by queue

Filter agents by status
Choices are: in use, logged out, logged in, paused, wrap up, hold off, and unavailable.

Agent (manager profile view)

The screenshot shows the 'Agent - (7)' interface. At the top, there is a search bar, a 'Page: 1 / 1 Queue' dropdown, and a 'Status' dropdown. Below these are buttons for 'Login', 'Logout', and 'Pause/Resume'. The main table displays agent information with columns: Agent, Last Call, Answered, Reason, Duration, and Status. The table lists four agents: 'Juliet Higgins' <7101> (Logged in), 'Room 1' <1001> (Logged out), 'Luke Fox' <7107> (Logged out), and 'Barry Allen' <7203> (Logged out). Callouts provide instructions for filtering agents by queue, filtering agents by status, logging in an agent, logging out an agent, and pausing or resuming an agent's status.

Filter agents by queue

Filter agents by status
Choices are: in use, logged out, logged in, paused, wrap up, hold off, and unavailable.

Log in an agent in a queue
Select an agent and click to log that agent in a queue.

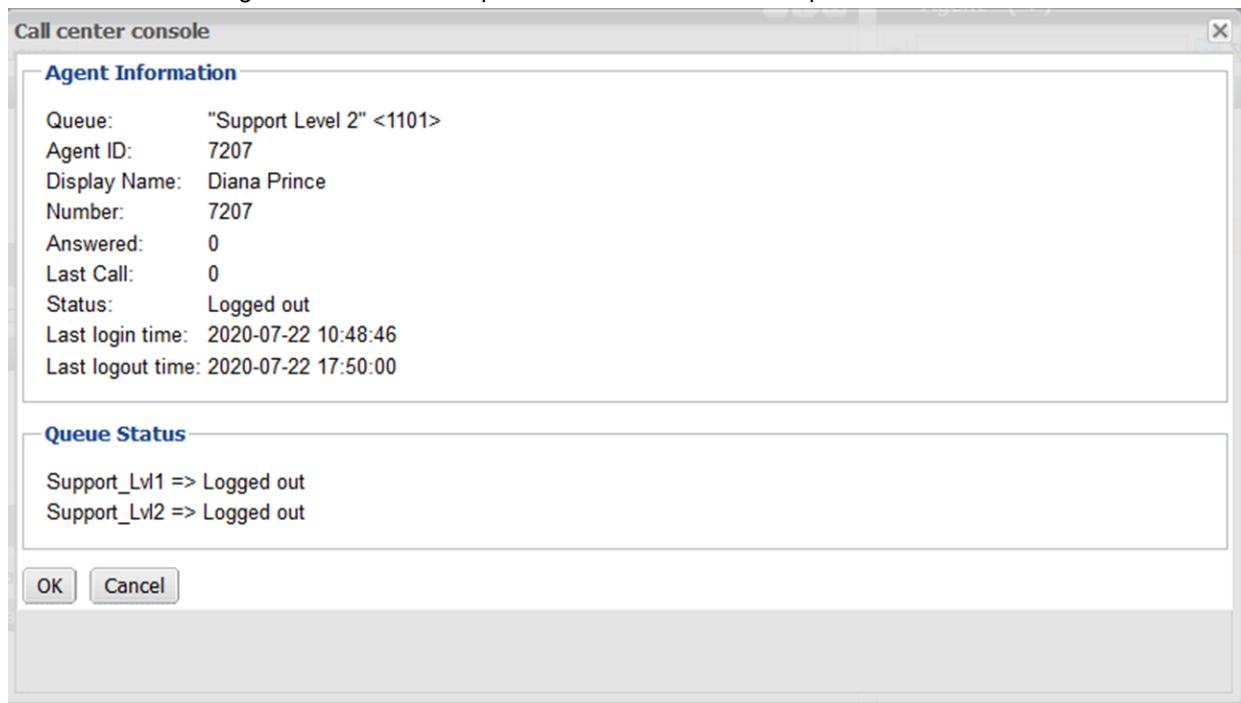

Log out an agent of a queue
Select an agent and click to log that agent out of a queue.

Pause or resume an agent status
Select a logged in agent and click to select a queue and assign a reason code or resume normal status.

Agent	Last Call	Answered	Reason	Duration	Status
"Juliet Higgins" <7101>	-	0			Logged in
"Room 1" <1001>	-	0			Logged out
"Luke Fox" <7107>	-	0			Logged out
"Barry Allen" <7203>	-	0			Logged out

Viewing agent details

1. In the **Agent** widget, double-click on an agent.
2. You can review the agent information and queue status. Here is an example:

Queue Stat Today

With the **Queue Stat Today** widget, you get a statistics summary of the call activities for the day.

For more details about the abbreviations used in the column headings, see [Abbreviations used in the Queue Stat Today widget on page 68](#).

Queue	CT	CAn	CAb	COF	CTr	CTO	CTT	CWT	OB	OBT
"Support Level 1" <1100>	1	0	1	0	0	0	00:00:00	00:00:13	0	00:00:00
"Support Level 2" <1101>	0	0	0	0	0	0	00:00:00	00:00:00	0	00:00:00

Abbreviations used in the Queue Stat Today widget

Abbreviation	Full name
CT	Call total
CAn	Call answered

Abbreviation	Full name
CAb	Call abandoned
COF	Call overflowed
CTr	Call transferred
CTO	Call timed out
CTT	Average talk time
CWT	Average wait time
OB	Outbound call
OBT	Outbound call average talk time

Queue Agent Summary

With the **Queue Agent Summary** widget, you get statistics of agent activities.

For more details about the abbreviations used in the column headings, see [Abbreviations used in the Queue Agent Summary widget on page 69](#).

The screenshot shows a window titled "Queue Agent Summary - (2)". Inside, there is a search bar and a table with the following data:

Queue	AT	ALI	AAv	ATK	APS	AHD	LTT	LCW	CW
"Support Level 1" <1100>	4	2	2	0	0	0	00:00:00	00:00:00	0
"Support Level 2" <1101>	4	1	1	0	0	0	00:00:00	00:00:00	0

Abbreviations used in the Queue Agent Summary widget

Abbreviation	Full name
AT	Agent total
ALI	Agent logged in
AAv	Agent available
ATK	Agent talking
APS	Agent paused
AHD	Agent on hold
LTT	Longest talk time
LCW	Longest call waiting time
CW	Call waiting

Queue Callback List

With the **Queue Callback List** widget, the agent and manager get a list of callers that have requested to be called back instead of waiting for a prolonged hold time to speak with an agent.

For the **Queue Callback List** widget to display call information, the FortiVoice system administrator must complete the following changes on the FortiVoice phone system:

- In **Call Center > Call Queue > Call Queue**, edit the **Additional Setting** of a queue:
 - Enable **Callback Setting**.
 - Update the **Callback mode** to **Agent Call Back Manually**.

Queue Callback List (agent and manager profiles view)

The screenshot shows the 'Queue Callback List - (1)' window. It includes a table with columns: Queue, Call ID, Caller Number, Caller Name, Callback Num..., Position, and Create Time. A single row is visible for 'Support_Lvl1'. Annotations include: 'Initiate a callback' pointing to the 'Queue' column, 'Filter callback callers by queue' pointing to the 'Queue' dropdown, and 'Change refresh setting' pointing to the refresh icon in the top right corner.

Initiate a callback
Select a call in the list and click.

Change refresh setting
Click to select an automatic refresh interval for the callback queue.

Filter callback callers by queue

Queue	Call ID	Caller Number	Caller Name	Callback Num...	Position	Create Time
Support_Lvl1	1595600449.1...	16132259381	UNKNOWN	16132259381	1	2020-07-24 10...

Service-level alerts

When setting up a call queue, the FortiVoice system administrator can configure the FortiVoice unit to notify managers by email, phone call, or GUI pop-up window when an event occurs on the system.

The FortiVoice system administrator can configure one or more of the following events:

- **Queue overflow:** The manager receives a notification when the system reaches the maximum queue capacity. The FortiVoice system administrator configures this setting and the related overflow call handling during the queue creation.
- **Agent available ratio below:** This setting specifies a percentage for the agent available ratio. If the ratio falls below the specified percentage, the FortiVoice phone system sends an alert.
- **Caller waiting timeout:** If a call is not answered within the maximum number of minutes specified in the maximum queuing time, the FortiVoice phone system sends an alert and handles the call according to the timeout call handling setting.

- **Caller waiting over:** Specifies the maximum number of minutes that a caller can wait before the system sends an alert.
- **Number of waiting caller over:** Specifies the maximum number of waiting callers that the system can have before the system sends an alert.

Monitor view

With the **Monitor view**, you get access to a wallboard to monitor items such as agent and queues performance.

To have access to the monitoring function, the FortiVoice system administrator must update the manager profile to enable the monitoring console privilege.

This section includes the following topics:

- [Setting up the Monitor view on page 71](#)
- [Accessing the Monitor view on page 71](#)
- [Opening a wallboard in the Monitor view on page 71](#)

Setting up the Monitor view

The FortiVoice administrator accesses the FortiVoice phone system to set up the Monitor view. For more details, see the Setting up the Monitor view section in the [FortiVoice Phone System Administration Guide](#).

Accessing the Monitor view

Opening a wallboard in the Monitor view

1. Access the **Monitor view**.
2. Locate the wallboard that you want to view and click **Open**.

In the following example, the FortiVoice administrator completed the creation of two monitoring views on the FortiVoice phone system to observe the following performances:

- Queue performance

FortiVoice 2000F

QueuePerformance

	Calls in Queue	Longest Waiting	Abandoned	Received Today	Answered Today
Support Level 1 <10001>	0	0:00:00	0	0	0

- Agent performance

Help_Desk	Status	Time	Status	Time	Status	Time
Agent-1 3011	Idle	1:04:59				
Agent-2 3012	Idle	0:03:40				

Logging out of queues

1. To log out of queues, click .
2. Select one or more queues.

3. Click **OK**.

Logging out of the call center console

1. To log out of the call center console, click  .

2. If you are still logged in to one or more queues, follow the prompts to log out of the queues.
3. After completing the console logout, the following dialog box appears:

The dialog box is a login form with a light gray background and a subtle grid pattern. It contains the following elements:

- Extension: A text input field.
- Password: A text input field.
- Remember me: A checkbox.
- Login: A red button with white text.
