# Change log

Date	Change Description
2025-03-31	Initial release.

# Introduction

This document provides release information for Fortisolator version 3.0.0 build 0117:

- [What's new on page 6](#)
- [Product integration and support on page 8](#)
- [Upgrade information](#)
- [Resolved issues](#)
- [Known issues](#)

For more information about using Fortisolator in general, see the [Fortisolator Administration Guide](#).

# What's new

Fortisolator version 3.0.0 includes the following new features and changes:

## Cloud support

Fortisolator 3.0.0 adds cloud support without any session limit using the Docker and Kubernetes framework, which provides the following benefits:

- **Improved scalability**—Kubernetes dynamically scales applications based on demand, ensuring optimal resource utilization. No more need to configure HA manually.
- **Minimal downtime and interruption**—Self-healing and recovery capabilities to automatically restart failed containers and reschedule workloads on healthy nodes, resulting in minimal downtime and interruption, which is especially important for large-scale deployments.
- **Rolling updates & rollbacks**—Seamless application updates with zero downtime, allowing controlled rollouts and quick rollbacks if needed.
- **Efficient resource management**—Intelligent scheduling optimizes CPU, memory, and other resources across multiple nodes.
- **Improved reproducibility and version control**—Declarative configuration with YAML manifests is used to define infrastructure and application states.
- **Enhanced application availability**—Built-in service discovery and automatic load balancing to enhance application availability.

Refer to the [Fortisolator 3.0.0 Administration Guide](#) for more details.

## GUI changes

The Fortisolator 3.0.0 GUI has the following changes:

- **Console login**—You must now only log in the console as a root user. Admin users are no longer allowed console access.
- **Dashboard**
  - Use the new *Host List* widget to view a list of hosts and the status of each host. You can also shut down or reboot a host when the Fortisolator is in maintenance mode.
  - Use the new *Service Information* widget for a comprehensive view of the services running in the system.
  - In the *System Information* widget, the *Host Name* option is renamed *System Name*.
  - The *System Resources* widget is removed.

- **Network**—This menu is renamed *Hosts* with all the separate pages consolidated into tabs. The *Forwarding Server* tab is integrated into the *Policy* page.
- **System**
  - The *High Availability* page is removed.
  - The *Install Package* page is renamed *Manage FIS Images* with additional functionality of uploading various supporting packages during installation or upgrade.

## No support for FortiProxy

Fortisolator 3.0.0 no longer supports integration with FortiProxy.

## No support for LDAP servers

Fortisolator 3.0.0 no longer supports connecting to LDAP servers for user authentication.

## No support for Hyper-V

Fortisolator3.0.0 no longer supports deployment on Hyper-V.

# Product integration and support

The following table lists Fortisolator version 3.0.0 product integration and support information:

Type	Product and version
<b>Fortinet products</b>	<ul style="list-style-type: none"><li>• FortiGate 7.6.1 or later</li><li>• FortiSandbox 3.1.2 or later</li><li>• FortiAuthenticator 6.1</li><li>• FSSO 5.0</li></ul>
<b>Web browsers</b>	<ul style="list-style-type: none"><li>• Microsoft Edge version 42 or higher</li><li>• Microsoft Internet Explorer version 11 (OS build 19041.867, 19042.906, 19042.928, and the most recent version)</li><li>• Mozilla Firefox version 65 or higher</li><li>• Google Chrome version 72 or higher</li><li>• Apple Safari version 12 or higher for macOS</li></ul> <hr/>  Other web browsers may work correctly, but Fortinet does not support them. <hr/>
<b>Virtualization environments</b>	<ul style="list-style-type: none"><li>• VMware vSphere 6.5 or higher</li><li>• VMware ESX/ESXi 6.5 or higher</li><li>• KVM QEMU 0.12.1 or higher</li></ul>

# Upgrade information

Fortisolator 3.0.0 build 0117 only supports fresh installations. You cannot upgrade from any earlier versions to 3.0.0.

For more information about installing Fortisolator 3.0.0, see the [Fortisolator 3.0 Private Cloud Deployment Guide](#).

# Resolved issues

The following issues have been fixed in Fortisolator version 3.0.0. For inquiries about a particular bug, visit the [Fortinet Support](#) website.

Bug ID	Description
935301	No advanced filter for allowed file extensions to upload.
1017640	Cannot copy Google image in proxy mode.
1060740	Unable to load Cart page.
1061665	Self-signed server certificate does not work.

# Known issues

The following issues have been identified in Fortisolator version 3.0.0. For inquiries about a particular bug or to report a bug, visit the [Fortinet Support](#) website.

The following Fortisolator 2.4.x known issues no longer apply to 3.0.0: 1128529, 877888, 887593, 887931, 899996, 1097712, 1118534, 1131046.

Bug ID	Description
877319, 1010519, 1136430	Cannot log into Google account.
964844	Error when downloading PDF files through Fortisolator even when scan protection is removed and file size does not exceed the configured maximum download size.
1017625, 1136478	Cannot play any music after logging into Spotify.
1098437	Auth cookie does not work after setting the cookie life time.
1101036	Browser cookies are not saved.
1106251	"500 Internal Server Error" upon editing to view SAML user group.
1106253	Cannot save backup files.
1113024	Attempting to login while the system is booting may result in inconsistent access capabilities.
1113025	Error messages during boot and reboot.
1113231	Restore under maintenance mode controller HA does not work.
1122429	Users with any special character in the username cannot log into GUI.
1129063	Issue with accessing WhatsApp website.
1136491	500 server error during the login of read-only admins.
1137395	When installing license file, the UI says "Note: The Fortisolator will reboot after the license file is installed", which is wrong as no reboot is needed.
