

FORTINET®

QuickStart Guide

FortiToken 310

FTK-310

The Essentials

The FortiToken 310 is a USB Smart Card Token for X.509 PKI certificates used in securing Internet transactions for applications including signing/encrypting email, PDF documents, Microsoft Office files, and software, as well as for strong authentication for your VPN or web-based applications. Client certificates provide higher security than OTP tokens for two factor authentication, although the private key of the PKI certificate must be kept secret to be effective. Private keys generated and stored on the FortiToken 310 are more secure than private keys stored as files on local hard disks because the FortiToken 310 cannot be coerced to expose the private key.

User and Admin Guides

For more detailed FortiToken 310 setup and configuration information, refer to the FortiToken 310 User and Admin Guides on <https://docs.fortinet.com>.

FortiToken 310

QuickStart Guide

If any item is found missing or damaged, please contact your local reseller for replacement.

Software installation

Supported operating systems:

- Windows
- Linux
- macOS

To install the client software:

1. Login to the Fortinet Customer Service & Support website at: <https://support.fortinet.com/>
2. Select *Download > Firmware Images*, then select *FortiToken* from the dropdown menu.
3. Save the *FTK310_Setup_V1* file to an accessible folder
4. Run the installer by double-clicking *FTK310_Setup_V1.exe*.

Using the Token Manager

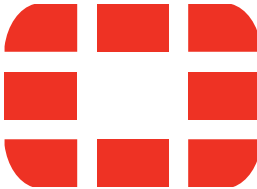

To use the Token Manager:

1. Plug the FortiToken 310 into a USB port on your computer.
The first time you do this, you are prompted to change the default PIN if it has not already been changed by your system administrator.
2. Click *Yes*.
The Manager interface displays.
3. Click *Change User Pin* to create a new PIN.
The default PIN is set at the factory to 1234. Use this for the old user PIN.

You can find the shortcut for the Manager by selecting *Start > All Programs > Fortinet > FortiToken*. Click the shortcut to start the *FortiToken Token Manager*. With the token plugged in, you can also double click on the FortiToken icon in the system tray to start the Manager.

The Admin version incorporates some additional functions and can also be found at the Fortinet Customer Service & Support website at: <https://support.fortinet.com/>. The main interface includes a triangle button for switching the other buttons displayed on the interface. The Admin version can be used to initialize a token, unlock a token, and change the admin (SO) PIN. The default SO PIN is **\$Fort1N3t!**.

For detailed instructions on how to get the most out of your FortiToken 310 USB Smart Card Token, see the FortiToken 310 User and Admin Guides available from the Fortinet Documentation website at: <https://docs.fortinet.com> under FortiToken.
