Introduction

Asset Management is an easy-to-use portal to register, organize and view all Fortinet products and services in FortiCloud.

This guide is intended for Partner audiences only.

New products, licenses, or contracts can be registered and managed with the Asset Management portal. Registered products are displayed in the *Product List* as well as a customizable folder structure called *My Assets*. The *Account services* menu lists products, contracts, or licenses applicable at the account level.

The *Product List* provides a complete view of all products and services. Assets can be organized into folders and sub-folders with the *My Assets* tree structure and assets can be moved into the folders based on the organization needs. Product list and My Assets views provide various filters, sorting, and grouping features to efficiently find and manage assets.

Dedicated views include lists to see assets with expired licenses, assets about to expire (30, 60, 90 days), pending registration, decommissioned units, as well as specialized filtered views to list and search assets based on hardware, license, contract, and location.

For each product, the Asset Management portal provides a drill-down view of all the asset-related information including entitlements, support tickets, license and keys, renewals, statistics, and cloud services.

With Online renewals, licenses or contracts can be renewed directly from the portal for supported products and regions.

What's new in version 24.1

Marketplace FortiClient EMS

The Marketplace now supports FortiClient EMS in the *Marketplace > Spending* page. See [FortiClient EMS on page 107](#).

Marketplace FortiFlex point transfer

FortiPoints can be transferred to FortiFlex points in the *Marketplace > Spending* page. See [FortiFlex on page 109](#).

Standard FortiSASE support

Standard FortiSASE support is available for ESA contracts in the *ELA Profile* page. See [ELA profile on page 116](#).

Managed FortiGate Service entitlement registration

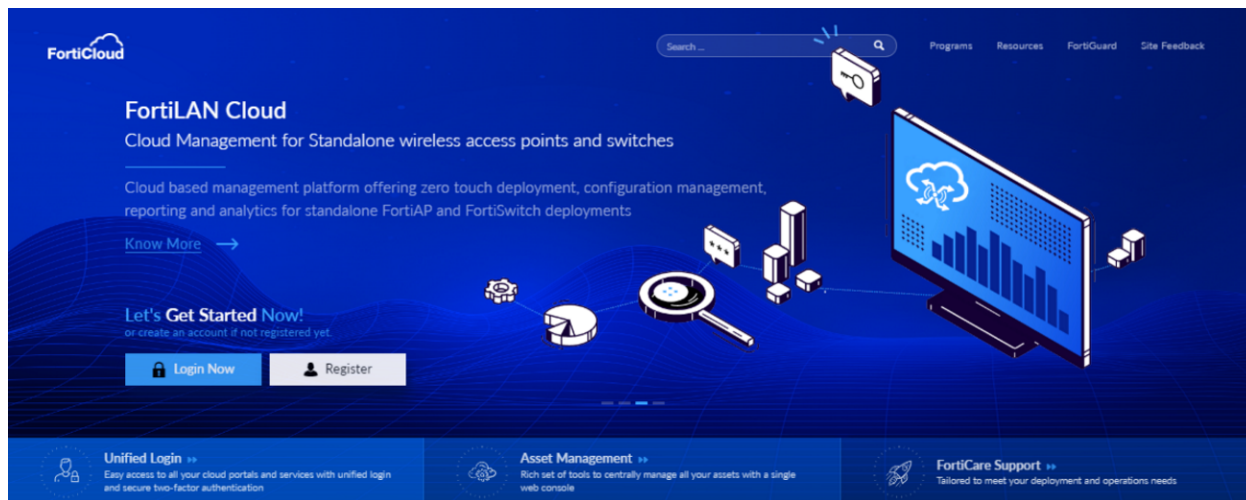

When a new Managed FortiGate Service entitlement is registered, a banner is displayed to prompt the user to submit an onboarding request in the Managed FortiGate Service portal. The banner will only display if there is no Managed FortiGate Service entitlement already registered or the registered entitlement is expired. See [Registering assets on page 33](#).

New Terms and Conditions workflow

All users are prompted to read and accept the Fortinet Inc. terms and conditions when logging into the Asset Management portals. If the terms and conditions are changed or updated, users will be prompted to read them through and accept the changes before they can proceed. See [Marketplace on page 73](#).

Landing page

The FortiCloud landing page can be found at <https://support.fortinet.com>.

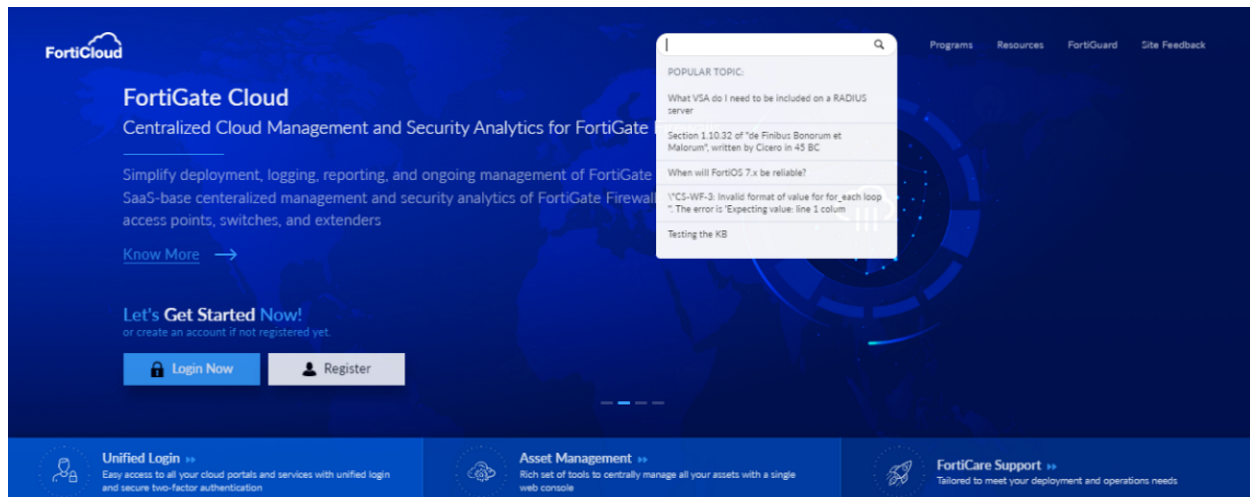

From the landing page, users can:

- Register for a new FortiCare account. See the [FortiCloud Account](#) document.
- Log in to FortiCloud using existing credentials. See [Logging into an account on page 13](#).
- Search for information, including quick links, documents, and support.
- Access additional resources from the *Resources* dropdown menu.

To use the Community Search function:

1. Go to <https://support.fortinet.com>.
2. Click the search field. Suggested *Popular Topics* are displayed.

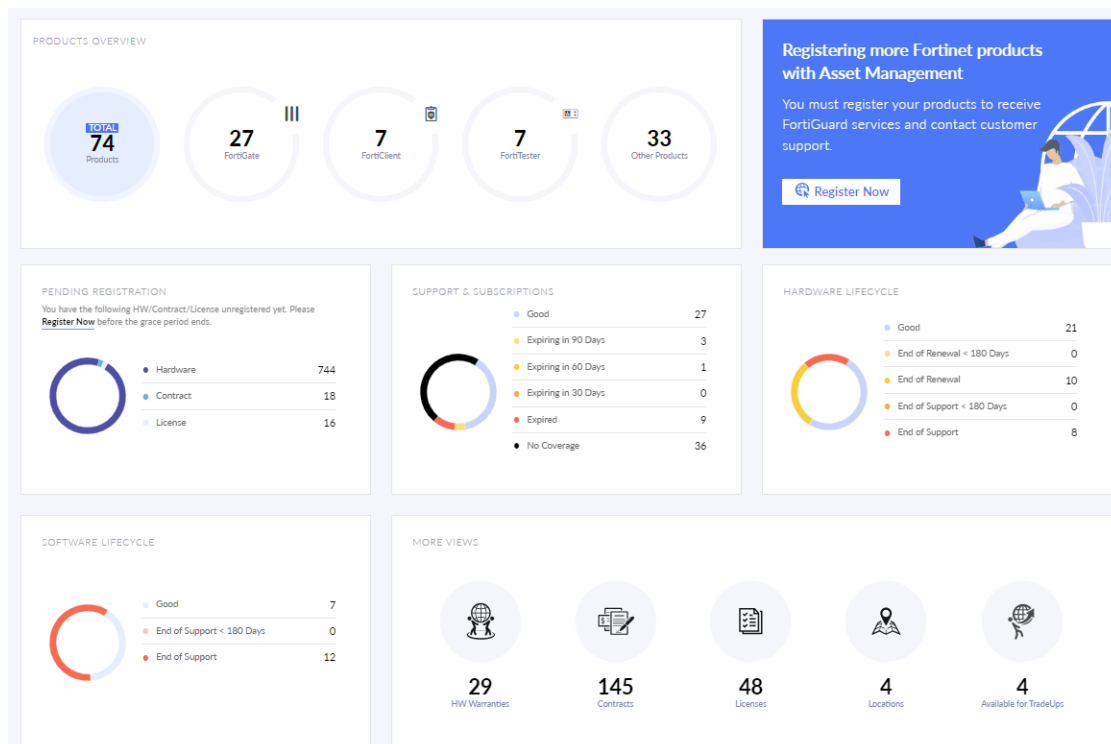

3. Define the search parameters:

- Select a *Popular Topic*. A new page is opened displaying information on the topic.
- Enter information in the search field and press **Enter**. A new page is opened displaying information on the topic.

Dashboard

The *Dashboard* is a visual overview of your products and services. Use the *Dashboard* to view how many products you have registered, pending registrations, expiring subscriptions, and the current status of your hardware and software lifecycle. Click a tile in the *Dashboard* to access the products in the *Product List*.

The first time you log in to the AM portal, you will see a welcome page encouraging you to register your products.

You can search in FortiCloud for assets linked to your account or for information from the Community Search feature. The search icon is accessible from any page within the Asset Management portal.

To search for assets within FortiCloud:

1. Click the search icon. The search field is displayed.

2. Select *Asset Search*.
3. Enter asset information into the search field.
4. Press **Enter**. Results related to your search are displayed.

To use the Community Search function:

1. Click the search icon. The search field is displayed.

2. Select *Support Community Search*.
3. Click the search field. Suggested *Popular Topics* are displayed.

4. Define the search parameters:
 - a. Select a *Popular Topic*. A new page is opened displaying information on the topic.
 - b. Enter information in the search field and press **Enter**. A new page is opened displaying information on the topic.

Dashboard tiles

Tile	Description
Products Overview	The <i>Products Overview</i> tile shows the total number of products registered to your account. Click a target in the tile to view the devices in the <i>Product List</i> . The <i>Other Products</i> target is displayed when there are more products than space available in the tile.
Pending Registration	The <i>Pending Registration</i> tile shows the unregistered hardware, contracts, or licenses. Click a bullet in the list to view the asset in the associated <i>Pending Registration</i> page.

Tile	Description
Support Subscriptions	The <i>Support Subscriptions</i> tile shows the current status of your support contracts. Click a bullet in the list to view the expiring products in the <i>About to Expire</i> view of the portal.
Hardware Lifecycle	The <i>Hardware Lifecycle</i> tile shows the current lifecycle status of registered products. Click a bullet in the list to view the devices in the <i>Hardware Lifecycle</i> view of the <i>Product List</i> .
Software Lifecycle	The <i>Software Lifecycle</i> tile shows the current lifecycle status of the major product software versions for your devices. Click a bullet in the list to view the software support end dates in the <i>Software Lifecycle</i> view of the <i>Product List</i> .
More Views	The <i>More Views</i> tile shows the number of devices by <i>HW Warranty</i> , <i>Contracts</i> , <i>Licenses</i> , and <i>Locations</i> . Click a tile to view the products in the <i>Products List</i> .

Navigation menu

View	Description
Products	<p>Use the <i>Products</i> view to register, manage, and organize your products.</p> <ul style="list-style-type: none"> <i>Product List</i> displays the products registered to your account. See Product list on page 23. Click a product in the list to download a license file, renew a contract, or create a support ticket. See Product details on page 27. <i>More Views</i> organizes the product list by product details, such as the license, warranty, and lifecycle information. See More views on page 45.
Pending Registration	<p><i>Pending Registration</i> displays products that are not registered to your account by <i>Hardware</i>, <i>Contract</i>, and <i>License</i> information. See Pending registration on page 60.</p> <hr/> <div>  <p>This view is available upon request.</p> </div> <hr/>
Marketplace	<i>Marketplace</i> provides access to Fortinet Inc. products and services that will allow you to increase your organization's security, productivity, and profitability. Use FortiPoints to purchase products and packages, such as FortiCare, UTP, and the FortiGate Enterprise Bundle. See Marketplace on page 73 .
Account Services	<i>Account Services</i> displays the services and subscriptions for your account. See Account Services on page 71 .
FortiMeter	FortiMeter displays the volume and consumption of traffic that you use for FortiOS-VMs. See FortiMeter on page 114 .
ELA profile	The <i>ELA Profile</i> view displays information about your Enterprise Level Agreement. See ELA profile on page 116 .

Getting started

The following demonstrates the general process of getting started with the Asset Management portal and FortiCloud Services:

1. Create a FortiCloud account. See the [FortiCloud Account](#) guide.
2. Log into your account. See [Logging into an account on page 13](#).
3. Create IAM users and external IdP roles as needed. See [User permissions on page 15](#) and the [Identity & Access Management](#) guide.
4. Register products, contracts, and licenses to your account. See [Registering assets on page 33](#).

Logging into an account

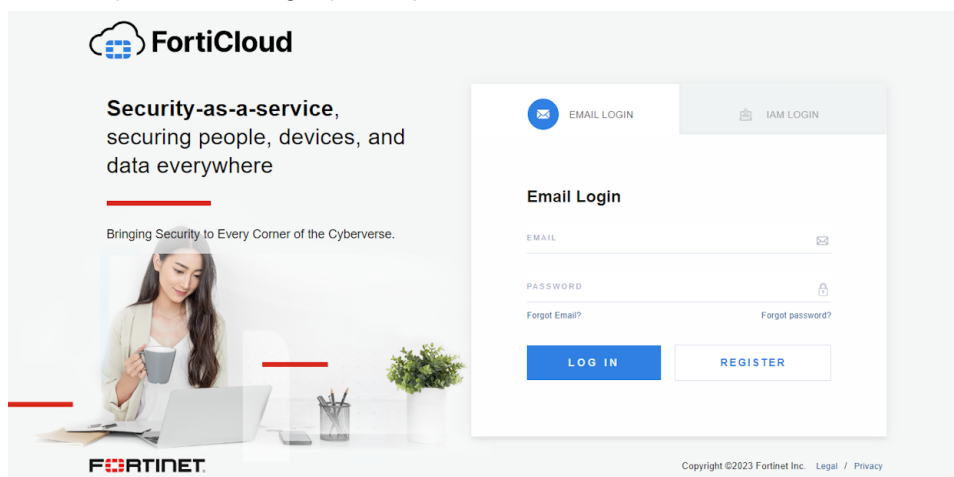

Users can access linked user accounts when logging in using email credentials. Account permissions will vary depending on the account chosen.

Users can log in to FortiCloud using email, IAM, or external IdP credentials in a comprehensive portal. For information on logging into an IAM user account or external IdP role, see the [Identity & Access Management \(IAM\) Administration Guide](#).

To access the user account:

1. Go to <https://support.fortinet.com>.
2. Select *Login Now*. The log in portal opens.

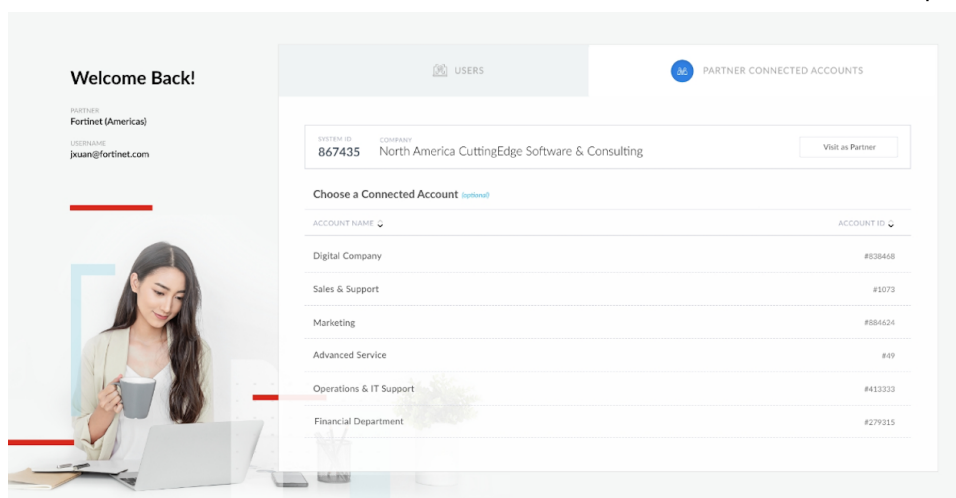

3. Select *Email Login*.
4. Enter your FortiCloud email and password in the *Email* and *Password* fields.
5. Click *Log In*. The *Dashboard* is displayed.

If multiple accounts are linked to the email credentials, the *Select an Account to Proceed* page is displayed. Hover over the account you want and click *Select* to navigate to the dashboard.

To access Partner connected accounts:

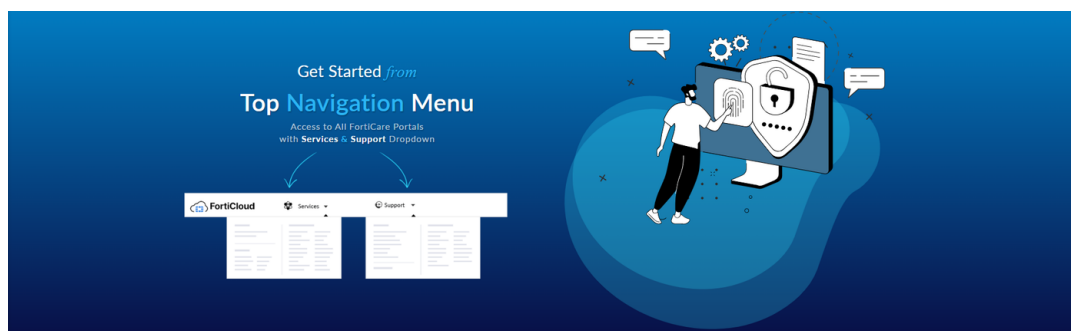

1. Go to <https://support.fortinet.com>.
2. Select *Login Now*. The log in portal opens.
3. Select *Email Login*.
4. Enter your FortiCloud email and password in the *Email* and *Password* fields.
5. Click *Log In*. Accounts linked to your credentials are displayed.
6. Select *Partner Connected Accounts*. Accounts linked to the Partner account are displayed.

7. Select the account:
 - Select *Visit as Partner* to access the Partner account.
 - Hover over an *Account Name* and click *Select* to access an individual account.
- The *Dashboard* is displayed.

No access

If the user does not have access to the portal, the following page will direct the user to select a service from the *Services* or *Support* menu.

User permissions

The Master user is the account administrator that creates the account and has access to all the items in the navigation menu including *Register Products* and *My Assets*. The account administrator can create users, assign permissions based on the user's role, assign user permissions, and assign devices to a user. In Partner accounts with asset groups enabled, a master user can create user and product groups, and assign them to users.

Partners can be connected to one account or multiple accounts as a master or sub user. Partners connected to multiple accounts can switch accounts from the *Account* dropdown. See [Creating connected accounts \(Partners\)](#) on page 118

The Master user can create various types of users:

- [IAM users on page 16](#)
- [External IdP user roles on page 16](#)
- [API users on page 16](#)
- [Legacy sub-user on page 16](#)

There are three types of user permissions for IAM, External IdP, and API users:

Permissions	Admin	Read/Write	Read Only
View Product List, My Assets, and Asset views (based on Asset permissions)	X	X	X
Register new products, contracts or licenses	X	X	
Manage asset folders, move, and decommission units	X	X	
View account service entitlements and contracts	X	X	
View and renew eligible units for online renewals	X		

Permissions can be assigned to a user using permission profiles. Permissions can be granted on a role-based or resource-based basis. See [Permission profiles](#) in the *Identity & Access Administration Guide*.

The Asset Management portal uses resource-based permissions. See [Portals with resource-based permissions](#) in the *Identity & Access Administration Guide*.

IAM users

IAM users are created in the IAM portal and their permissions are assigned by the account administrator. An IAM user will have their own asset and portal permissions until they are assigned to a group. Permissions assigned to a user or user group depend on the permissions profile assigned. See [IAM users](#) in the *Identity & Access Administration Guide*.

Account administrators can view an IAM user's permissions in the *Users* and *User Groups* pages of the IAM portal. For information, see [Managing IAM users](#) and [Managing IAM user groups](#) in the *Identity & Access Administration Guide*.

External IdP user roles

External IdP roles allow external users to log in to a cloud portal using their company's user credentials with a third-party ID provider. External IdP users are authenticated by their company's ID provider. After the user is authenticated, they can access the cloud application based on their role. External IdP roles have the same permissions as IAM users. See [External IdP roles](#) in the *Identity & Access Administration Guide*.

API users

API users can access FortiCloud services through the API. API users have the same permissions as IAM users. See [API users](#) in the *Identity & Access Administration Guide*.

Legacy sub-user

The sub user is a legacy model. It is recommended that sub users be migrated into the IAM user model. See [Migrating sub users](#).

Sub users can have full or limited access:

User type	Description
Sub user (Full Access)	Has access to all the items in the navigation menu including <i>Register Products</i> and <i>My Assets</i> . Sub users with read-only permissions cannot change a folder's structure or move assets. Depending on the permissions set by the master user, a sub user with full access can create new users and send renewal notices.
Sub user (Limited Access)	Has access to <i>Product List</i> and <i>Decommissioned Units</i> in the navigation menu. Sub users with limited permissions only have access to the products assigned to them by the master user.

Viewing sub user permissions

To view a sub user's permissions:

1. Go to [FortiCloud](#).
2. Log in to your FortiCloud account as a master user.
3. In the profile dropdown menu, select *My Account*.
4. Click *Manage User*. The *Current Users* list is displayed.
5. Click a user in the list.
6. (Optional) Click *Edit* to update the user's permissions.

Account

Add User

User Information

User Name:*

Telephone:*

Email (Account ID):*

Confirm Email (Account ID):*

Description:

Permissions

- ☒ Customer Service
- ☒ RMA/DOA
- ☒ Technical Assistance
- ☐ Notify the master account of ticket updates
- ☒ Send renewal notices
- ☒ Can create user
- ☒ Full Access ☐ Limit Access

You are about to create a sub-account for Fortinet, Inc. By doing so, you agree to share visibility for this account, including ticket history and asset management, as per the settings that you have defined. You agree to assure that sharing visibility does not breach any confidentiality obligations or applicable data protection legislation.

Note: If you have another account same email address, those accounts will be consolidated into one login account. Your original connection between email and accounts (master account or sub account) will be kept, you will use one login user ID/ password to access those accounts.

Save **Cancel**

Account views

The views available in the navigation menu are dependent upon your user account permissions. There are various types of user accounts:

- FortiCloud user accounts. See [FortiCloud account views on page 18](#).
- IAM user accounts. See [IAM account views on page 18](#).
- User and asset groups (Partners). See [User and asset groups \(Partners\) on page 19](#).

FortiCloud account views

Master users and sub users with full access can see the *Register Product* and *My Assets* tabs.

IAM account views

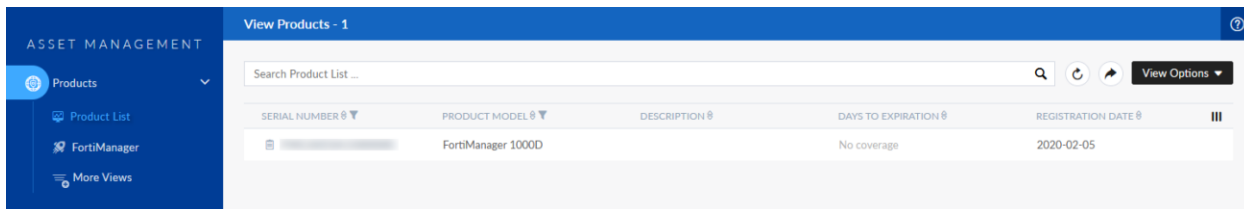

IAM users will only see the asset folders assigned to their account. The account administrator can grant users permission to view all the folders in *My Assets*, or assign folders to their account using permission profiles and permission scope. For information about IAM asset permissions, see the [Identity & Access Management Administration Guide](#) in the Fortinet Doc Library.

When the IAM user's permission profile is set to Admin level permissions, the user can see all the sub-folders in the *My Assets* view.

When the IAM user's permission profile is restricted, the user will only see the folders assigned to their account.

SERIAL NUMBER	PRODUCT MODEL	DESCRIPTION	DAYS TO EXPIRATION	REGISTRATION DATE
	FortiManager 1000D		No coverage	2020-02-05

User and asset groups (Partners)

The user and asset group dropdowns are available in linked accounts with asset groups enabled.

The product list displays all the products in your account until you choose a user and product group.

Click *Please select user group* and select a group from the list. Products are assigned to user groups at the time of registration. Sub users are assigned to user groups by the master user.

Click *Please select asset group*, and select an asset group to view the products in the group.

User and asset groups have a many to many relationship. This means that one asset group can be associated with multiple user groups, and vice versa. For information, see [Asset groups](#).

Switching accounts

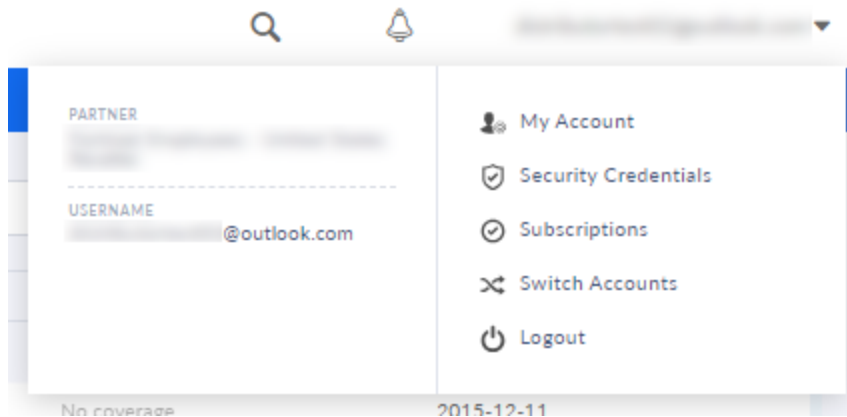

You can switch between available accounts from the profile menu. If you are logged in using your email credentials, you can switch to linked user accounts and Partner accounts. Not all options will be available depending on your account permissions and linked accounts. See [Logging into an account on page 13](#) for more information.

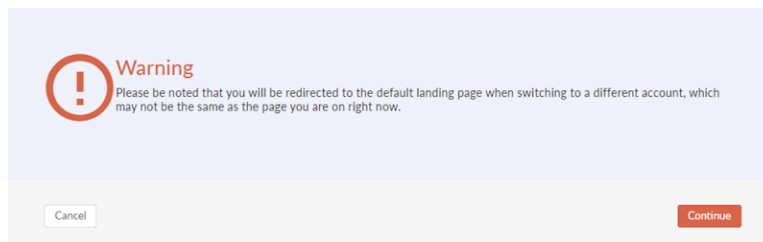

The accounts available for switching will depend on your method of logging into FortiCloud. For information on switching between external IdP roles and OU accounts, see the [Identity & Access Management \(IAM\) Administration Guide](#).

To switch to a new user account:

1. Click the profile menu in the top right.
2. Select *Switch Accounts*.

3. Select a user account to switch to. A warning message may display.

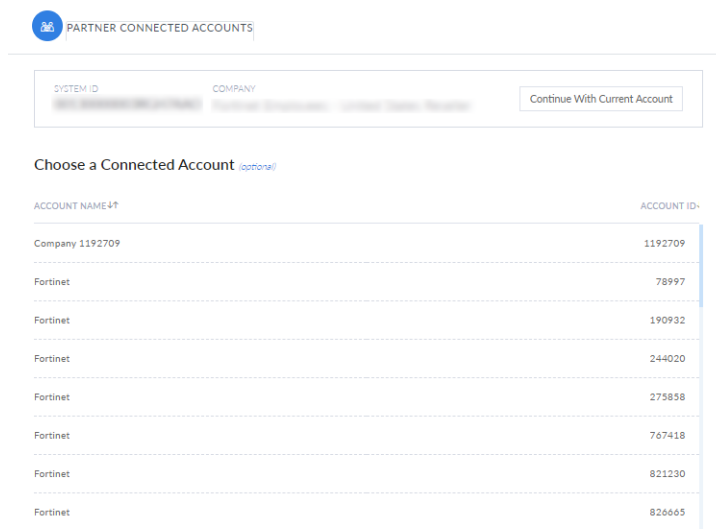

4. Click *Continue*. You will be redirected to the *Dashboard* of the selected account is displayed.

If there is only one user account linked to the email credentials, select *Continue with Current Account*.

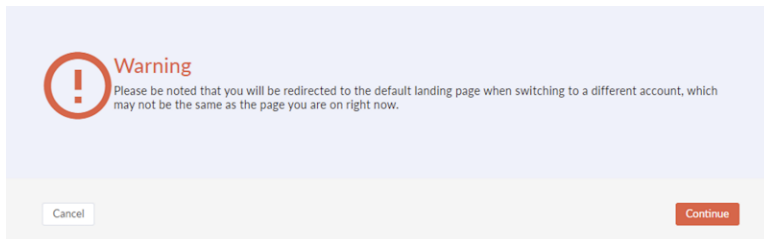

To switch to a Partner connected account:

1. Click the profile menu in the top right.
2. Select *Switch Accounts*. The *Switch Accounts* dialog is displayed.

3. Select the *Partner Connected Accounts* tab. A list of Partner and connected accounts is displayed.
4. Select the account you want to change to:
 - Select *Visit as a Partner* to access the Partner account.
 - Hover over an *Account Name* and click *Select* to access an individual account.

A warning message may display.

5. Click *Continue*. You will be redirected to the *Dashboard* of the selected account.

Products

The *Products* view displays products registered to your account. Use this view to register more products, search for assets, and view product details.

Products contains three sub-views to quickly locate and manage your products:

- [Product list on page 23](#)
- [My Assets on page 39](#)
- [More views on page 45](#)

Product list

The product list displays the devices registered to your account. Use the column filters to refine the list or create custom views to display only the columns you want to see.

IAM and external IdP users must have either Admin or read-only FortiCloud permissions to view *FortiGate Cloud Specific* options. For more information, see [Identity & Access Management \(IAM\)](#).

To activate the *Cloud Managed* toggle:

1. Click *Customize Columns*.

2. In the *FortiGate Cloud Specific* column, select the columns to display and click *Apply*. The selected columns are displayed.

Some columns may take longer to appear than others. A loading notification will appear in the column if it does not appear immediately.

3. Enable *Cloud Managed*.

Expired devices

Fortinet products include service contracts and guarantees that are known as entitlements. Some products have multiple entitlements with different expiration dates. Entitlement expiration dates are displayed in the *Product List* and *About to Expire* view in the *Days to Expiration* column.

The following table describes the values in the *Days to Expiration* column.

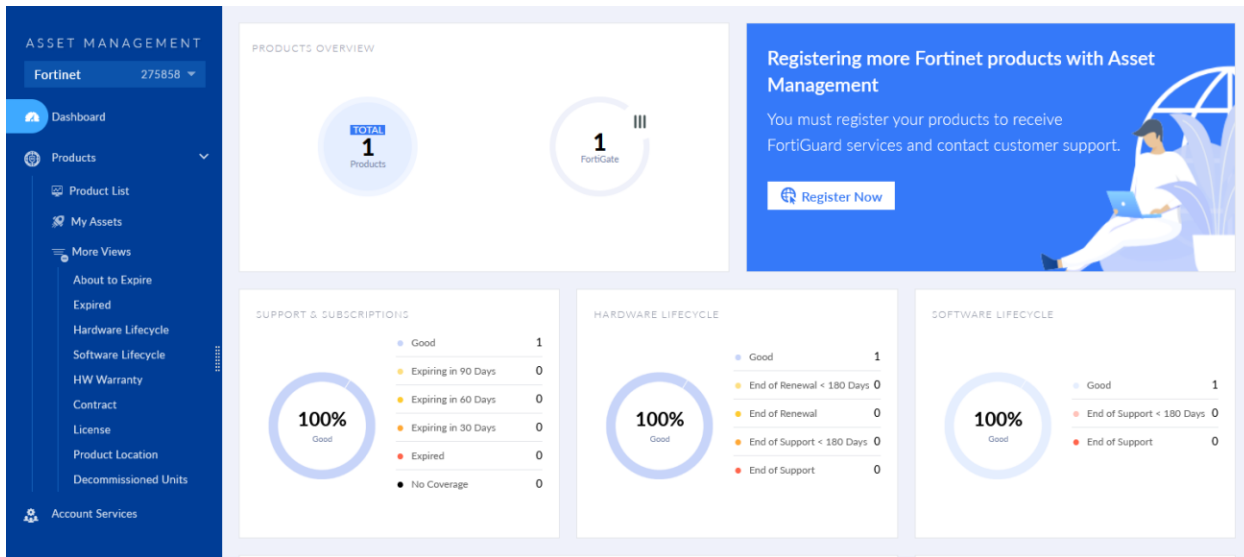

Days to Expiration	Description
<yyyyyy-dd-yy>	The end date of the entitlement.
No coverage	The product does not have any entitlements.
Expired	All the entitlements have expired.
Some expired	Some, but not all, of the entitlements have expired.

Selecting accounts (Partners)

The navigation menu only displays the *Product List* and *Decommissioned Units* until you select an account from the *All Accounts* dropdown.

ASSET MANAGEMENT		View Products: 1494 Units				
All Accounts		<input type="text" value="Search product list ..."/> View Options Register More

Searching for assets in folders

By default, the search bar only searches for products in the folder you are viewing. To include sub-folders in your search, click the button next to the search bar.

The search bar displays the current search parameters. For example, *Search My Assets Only*.

To search for assets in a folder:

1. In *My Assets*, select a folder.
2. In the search bar, type your text. The product list displays partial results as you type.

To search for assets in sub-folders:

1. In *My Assets*, select a folder.
2. Click the *Click to include sub-folder in search* button.

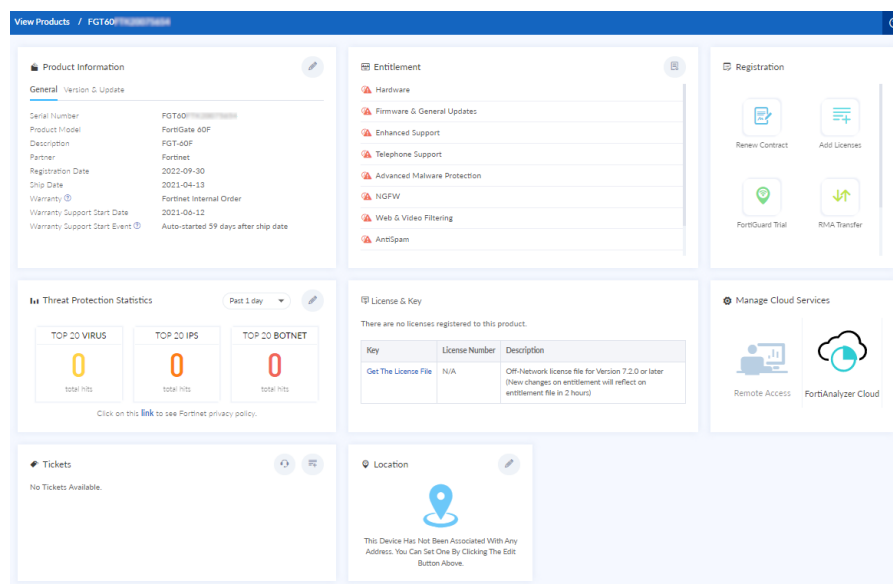

3. In the search bar, type your text. The product list displays partial results as you type.

When exporting a product list in *My Assets*, exported data includes the content of the currently selected folder.

Product details

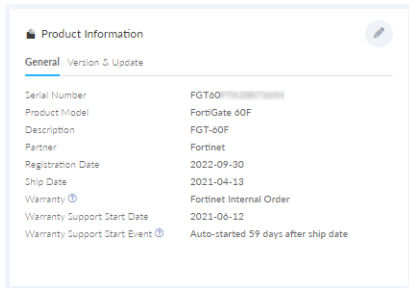

Click a product serial number to view its details and see additional management options. The widgets displayed in the product details vary by product.

Tile	Description
Product Information	View and edit basic information about the product. See Viewing product information on page 29 .
Entitlements	See the status of support, firmware update, and other entitlements. See Viewing entitlements on page 29 .
Location	Displays the location of the product if one has been set. See Viewing the product location on page 31 .
Threat Protection Statistics	View threat protection statistics for your product. See Viewing threat protection statistics on page 32 .
	 <p>The <i>Threat Protection Statistics</i> widget is available for FortiGate devices with a valid FortiGuard entitlement.</p>
License & Key	View the product licenses and keys associated with this product. See Viewing licenses and keys on page 30 .
Registration	Access quick links for managing product related registration. See Registering contracts and licenses on page 30 .
Manage Cloud Services	Access quick links to manage related cloud services, such as FortiGate and FortiAnalyzer Cloud. See Managing cloud services on page 31 .
Tickets	Displays support tickets (open or resolved) that were submitted for this product. See Creating support tickets on page 31 .

Viewing product information

The *Product Information* widget displays general information about the product such as the model, serial number, and license number.

The information in the widget varies by product. For example, FortiAnalyzer VM displays a link to upgrade a license or download a license file. FortiGate models display a *Version & Update* tab.

Click the *Edit* icon at the top of the widget to update the product description and Partner information.

Managing cloud services

The *Managed Cloud Services* widget, links you directly to a cloud service from Asset Management. Click a tile in the widget to access a cloud service.

Remote Access is only available when FortiGate Cloud, FortiManager Cloud, or FortiVoice is provisioned. Click the tile to open the management console in a new tab.

Creating support tickets

The *Tickets* widget allows you to contact support or create a support ticket.

For immediate assistance, click *Customer Service Web Chat*  , to request to chat with a support agent.

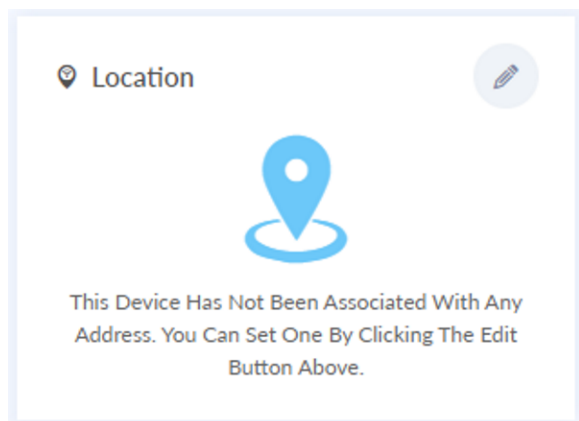

To open a support ticket, click *Create a Support Ticket*  .

After a ticket is created, the widget displays the *Ticket #*, *Request Type*, and *Status* of support tickets that were opened.

Tickets		
Ticket#	Request Type	Status
	Technical Assistance	Registered

Viewing the product location

The *Location* widget displays the current location of the product if one was added.

Click the edit icon to add or update the location. You can also save the address for future use.

Viewing threat protection statistics

The *Threat Protection Statistics* widget is available on the product page for FortiGate devices with a valid FortiGuard entitlement.

Threat protection reporting includes statistics from FortiGuard on the *Top 20 VIRUS*, *Top 20 IPS*, and *Top 20 BOTNET* threats collected for your device for the selected time range.

Click a tile in the widget to see additional information from FortiGuard, including the *Rank*, *Name*, *Counts*, *Percentage*, and *Distribution* of the malware.

Field	Description
Rank	The malware's rank. Malware with the highest reported counts will appear first in the ranking list.
Name	The name of the malware.
Counts	The number of occurrences reported.
Percentage	The number of counts for this malware as a percentage when compared to the total ranked malware of this type.
Distribution	A visualization of the malware's distribution compared to other ranked malware of this type.

Sending malware statistics to FortiGuard

FortiGate devices periodically send encrypted antivirus, IPS, botnet IP list, and application control statistics to FortiGuard. The malware statistics are used to improve various aspects of FortiGate malware protection. For example, antivirus data allows FortiGuard to determine what viruses are currently active.

Included with this data is the IP address and serial number of the FortiGate, and the country that it is in. This information is never shared with external parties. For more information, see the [Fortinet Privacy Policy](#).

Registering assets

Assets can be registered with the *Register More* button in the *Products* views.

Assets available for registration include hardware products, contracts, licenses, and account services. The steps in the registration wizard will vary depending on the asset. For more information on account services, see [Account Services on page 71](#).

Registering products is only available to master users and sub users with full access permissions.

For information about de-registering units, see [Viewing decommissioned units on page 51](#).

To register assets:

1. Sign in to your [FortiCloud account](#).
2. Go to *Products* and click the *Register More* button.
3. Provide your registration code:
 - a. Enter your asset serial number, service contract registration code, or license certificate number in the *Registration Code* field.
 - b. Choose your end user type as either a government or non-government user.
 - c. Click *Next*.

Register Product

1 Registration Code 2 3 4 ?

Registration Code

Please enter your product serial number, service contract registration code or license certificate number to start the registration: *

End User Type

The product will be used by

☐ A government user

☐ A non-government user

In this context a government end-user is any central, regional or local government department, agency, or other entity performing governmental functions, including:

1. Governmental research institutions.

2. Governmental corporations or their separate business units which are engaged in the manufacture or distribution of items or services controlled on the Wassenaar Munitions List.

3. International governmental organizations.

Clear Next

If a contract number is registered, you will be prompted to enter or select the serial number being registered. The contract auto-start date will be displayed when selecting the product serial number.

4. Specify your registration information:
 - a. If you have purchased a support contract for your asset, enter the support contract number.
 - b. Enter a description to help identify the asset.
 - c. Specify the Fortinet Partner or Reseller that helped you with your asset. If this is a Partner account, specify the Fortinet Partner or Reseller.
 - d. Click the *My Assets* dropdown to assign the asset to a folder.
 - e. If this is a Partner account, specify the asset group or asset folder. The *Asset Groups* section appears in accounts with asset groups enabled. Master users and sub users with full access will see *My Assets* section in regular accounts.
 - f. Click *Next*.

Register More Done

If you have registered a Managed FortiGate Service entitlement, a different *Registration Completed* banner will display. The new banner will only appear if you do not have a Managed FortiGate Service entitlement already or you have one that has expired.

The specialized Managed FortiGate Service banner will indicate that you have completed the first step of the onboarding process; registering your entitlement. The second step you must complete is submitting an onboarding request in the [Managed FortiGate Service portal](#).

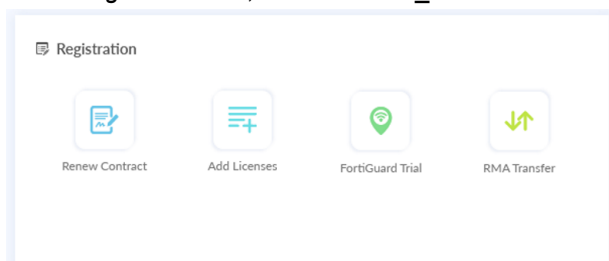

8. Click *Done*.

Product trial subscriptions

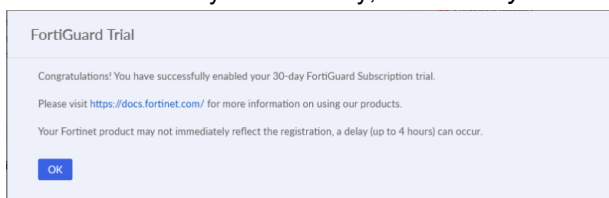

You can activate a 30-day trial subscription from the product information page.

To activate a product trial subscriptions:

1. In the *Product List*, click a the product serial number.
2. In the *Registration* tile, click *<Product_Name Trial* icon.

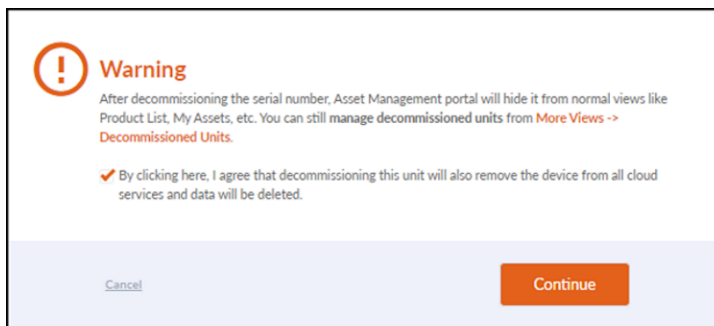

3. Select the service you want to try, and click *Try It*. The FortiGuard Trial confirmation is displayed.

Decommissioning assets

You can decommission an asset by clicking *Add New* from the toolbar in the *Decommissioned Units* view or by selecting *Decommission This Unit* from the *Registration* section of the product information page. A warning message will display that you must acknowledge before the unit is successfully decommissioned and removed from all cloud services.

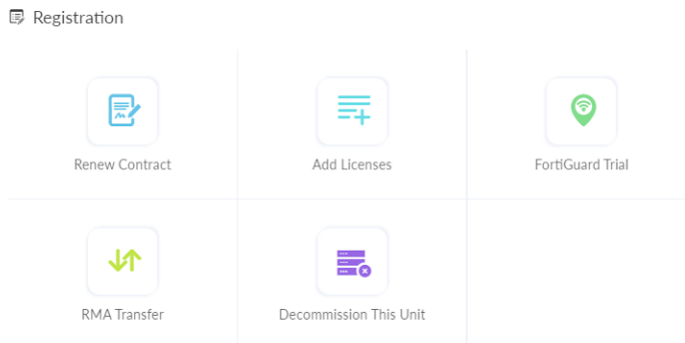

When decommissioning a product, it will be removed from all cloud services and data will be deleted. The asset will no longer be available in the *Products > Product List* page and cannot have a support ticket created for it. Although, ticket

and contract information will still be available in the portal. The asset must be removed from the decommissioned units list in order to see contract history. See [Viewing decommissioned units on page 51](#).

To decommission an asset:

1. Go to *Products > Product List*.
2. Select the unit you want to decommission.
3. Select *Decommission This Unit* in the *Registration* section.

A warning message is displayed.

Warning

After decommissioning the serial number, Asset Management portal will hide it from normal views like Product List, My Assets, etc. You can still manage decommissioned units from [More Views -> Decommissioned Units](#).

☐ By clicking here, I agree that decommissioning this unit will also remove the device from all cloud services and data will be deleted.

[Cancel](#)

[Continue](#)

4. Select the checkbox to acknowledge the results of decommissioning a unit.
5. Click *Continue*. A confirmation message is displayed.

SUCCESS!

Decommission Complete!

FortiGate  has been decommissioned from your account.

You can view decommission units and return decommissioned units to the *Product List* from the *More Views > Decommissioned Units* page. See [Viewing decommissioned units on page 51](#).

My Assets

Use the folders and sub-folders in *My Assets* to create custom views and navigation within the *Products* menu.

Sub users with limited access will not see *My Assets* in the navigation menu. See [User permissions on page 15](#).

In Partner accounts, *My Assets* is not available in linked accounts with asset groups enabled. See [Creating connected accounts \(Partners\) on page 118](#).

Importing assets and folders

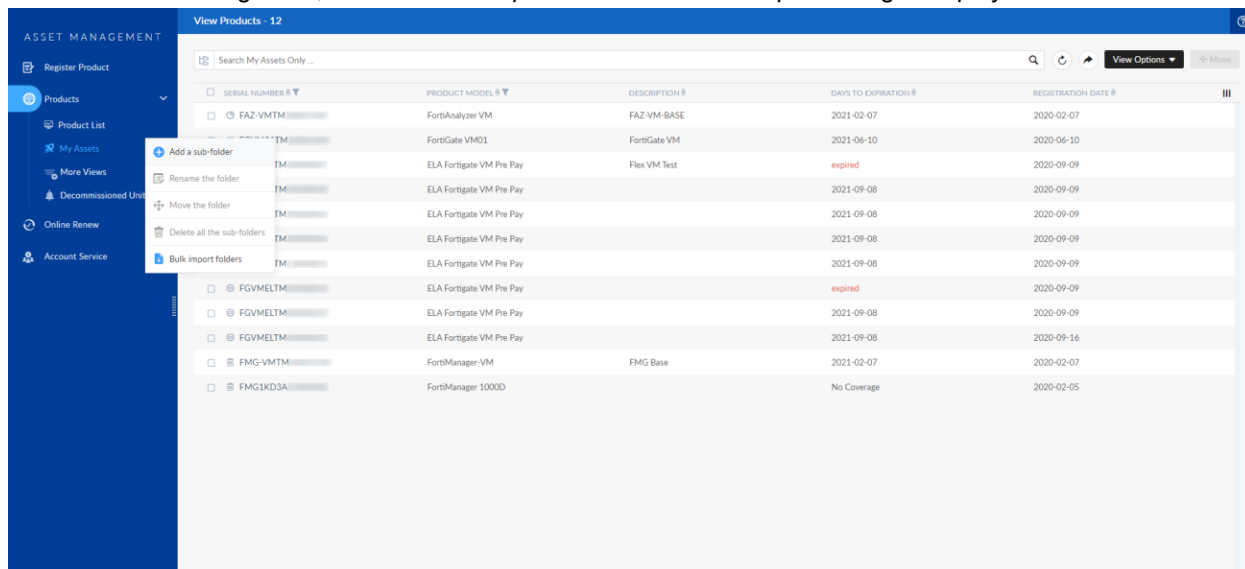

When the *My Assets* view does not contain any folders, you can use a CSV template to create folders and import assets.

All assets being imported to new folders must be already registered on the FortiCloud account. Assets with new serial numbers cannot be registered and imported with this feature. See [Registering assets on page 33](#) for more information on registering new products.

To import folders and assets:

1. Go to *Products > My Assets*.
2. Hover over the settings icon, and click *Bulk import folders*. The *Bulk Import* dialog is displayed.

3. Click *Download Template*. The CSV file template opens.
4. Use the template to create your folder structure. The value for *YourSerialNumber* must contain a valid serial number.

	A	B
1	my-folder-1	YourSerialNumber1
2	my-folder-1	YourSerialNumber2
3	my-folder-1\my-folder-2	YourSerialNumber3
4	my-folder-1\my-folder-2	YourSerialNumber4
5	my-folder-1\my-folder-2	YourSerialNumber5
6	my-folder-1\my-folder-3	
7	my-folder-1\my-folder-3\my-folder-4	YourSerialNumber6
8	my-folder-1\my-folder-3\my-folder-4	YourSerialNumber7
9		

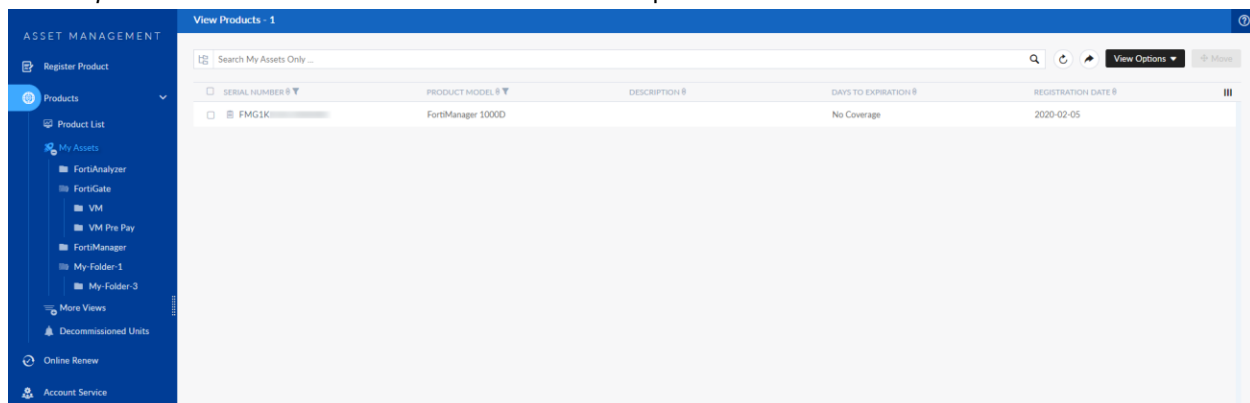

A parent folder can have up to two sub-folders.

In the example below, the import file will create four parent folders (*FortiAnalyzer*, *FortiManager*, *FortiGate*, and *my-folder-1*), and three sub-folders (*VM*, *VM Pre Pay*, and *my-folder-3*). However, *my-folder-1\my-folder-3\my-folder-4*, will fail to import because the serial numbers are not valid.

1	FortiAnalyzer	FAZ-VMT
2	FortiManager	FMG-VM
3	FortiGate\VM	FGVM01
4	FortiGate\VM Pre Pay	FGVMEL
5	FortiGate\VM Pre Pay	FGVMEL
6	FortiGate\VM Pre Pay	FGVMEL
7	FortiGate\VM Pre Pay	FGVMEL
8	FortiGate\VM Pre Pay	FGVMEL
9	FortiGate\VM Pre Pay	FGVMEL
10	FortiGate\VM Pre Pay	FGVMEL
11	FortiGate\VM Pre Pay	FGVMEL
12	FortiGate\VM Pre Pay	FGVMEL
13	my-folder-1\my-folder-3	
14	my-folder-1\my-folder-3\my-folder-4	YourSerialNumber6
15	my-folder-1\my-folder-3\my-folder-4	YourSerialNumber7

- Click *Choose file*, and navigate to the file on your computer.
- Click *Import*. The folders are created and the assets are imported.

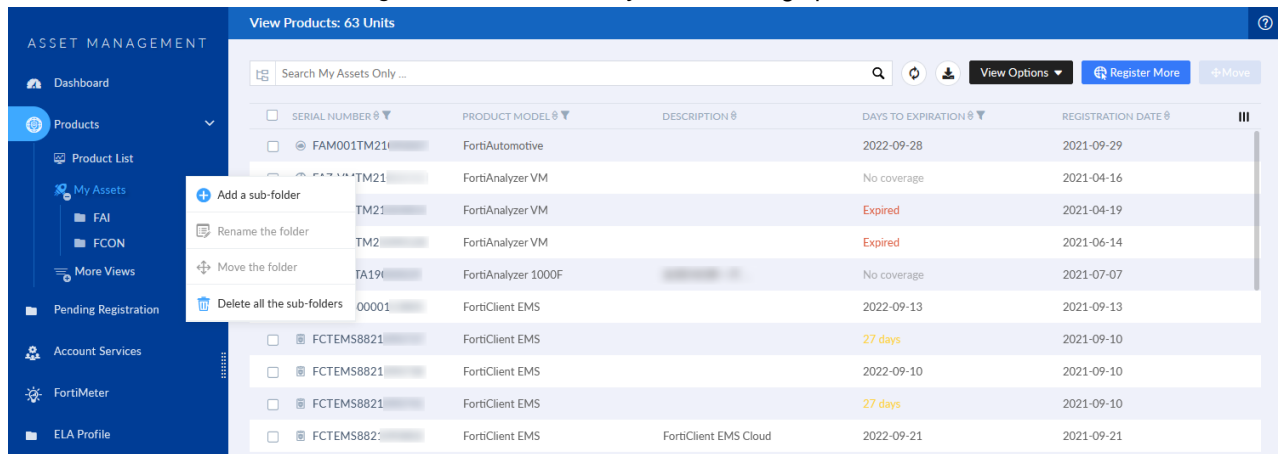

Creating custom views

You can create a new folder from the *Settings* menu in the *My Assets* root folder (or one of its sub-folders).

To add a folder with the GUI:

1. Hover over *My Assets*, and click the settings icon.
2. Click *Add a sub-folder*. The *Adding a sub-folder under My Assets* dialog opens.

A parent folder can have up to two sub-folders.

3. In the *Folder name* field, enter a name for the folder, and click *ADD*.
4. To create a nested folder, hover over a sub-folder, click *Settings* and select *Add a sub-folder*.
5. (Optional) To rename a folder, hover over the folder name, click *Settings* and select *Rename the folder*.

Moving assets and folders

You can drag and drop items into a folder, or use the GUI to select a new location.

You can also move products between Organizational Units. See [Transferring products on page 126](#) for more information.

Sub users with full access and read-only permissions cannot change a folder's structure or move assets.

To move a folder:

1. Hover over a folder, and click the *Settings* menu.
2. Click *Move the folder*. The *Moving <folder_name>* dialog is displayed.

3. Select the a new folder location, and click *Move*.

To move an asset:

1. Go to *My Assets*.
2. Select the asset(s) in the list, and click *Move*.

3. Select the a new folder location, or select *Decommissioned Units*. See [Viewing decommissioned units on page 51](#).

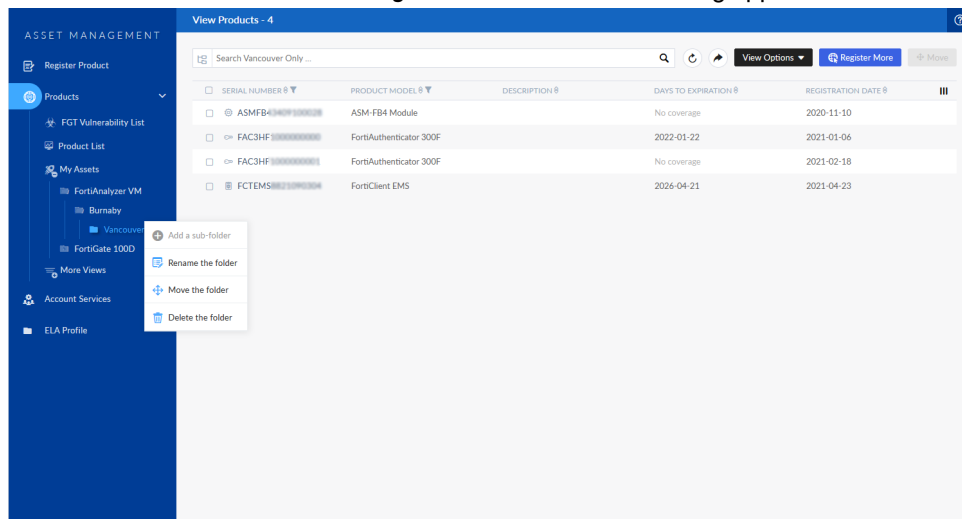

4. Click *Move*.

Deleting folders

Individual folders can be deleted within the settings menu. Sub-folders included within the deleted folder will also be removed. Once deleted, all assets will be automatically moved back into the *My Assets* root folder.

To delete a folder:

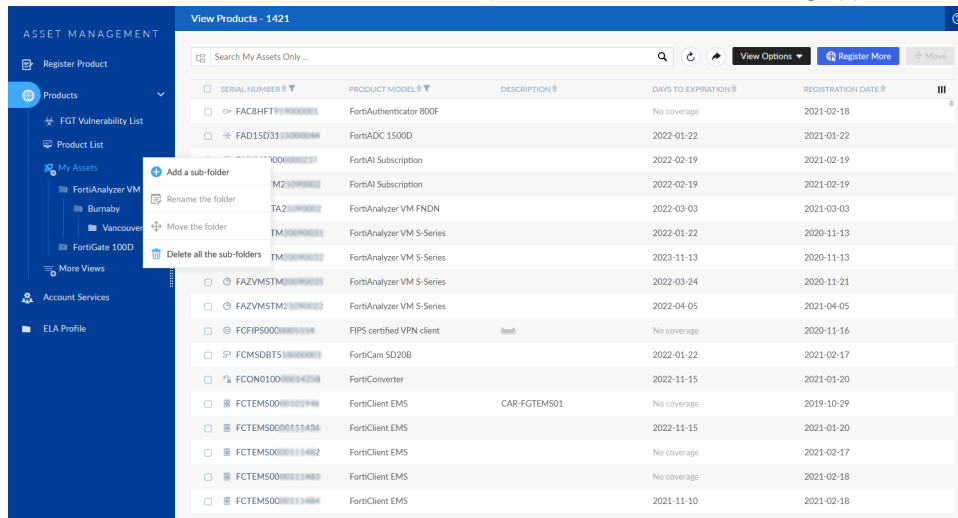

1. Hover over the folder name and click the *Settings* menu.
2. Click *Delete the folder*. The *Deleting a Folder Confirmation* dialog appears.

3. Click *Delete*.

To delete all folders in My Assets:

1. Hover over *My Assets*, and click the *Settings* menu.
2. Click *Delete all the sub-folders*. The *Deleting a Folder Confirmation* dialog appears.

3. Click *Delete*.

Viewing expired devices by product support

You can view expiring support packages by switching to *Entitlement* view.

To filter by support type:

1. In the toolbar, click *View Options > Show Entitlement*, and click *Apply*.
2. In the *Support Type* column, click the filter icon. The *Filter by Product Support* list opens.
3. Select the support type(s) from the list, and click *Apply*.

More views

View assets with expired licenses, assets about to expire, and decommissioned units. You can also access specialized filtered views to list and search assets based on hardware, license, contract, and location.

The columns available on *Products > More Views* depends on the current user account permissions and account view. See [Account views on page 17](#).

Viewing expiring products

The *About to Expire* view includes all products that are expiring soon. Choose between *In 30 days*, *In 60 days*, and *In 90 days*. This view displays the number of days until expiration for each asset in the list.

SERIAL NUMBER	PRODUCT MODEL	DESCRIPTION	DAYS TO EXPIRATION	REGISTRATION DATE

Viewing decommissioned units

View decommissioned products and account services in the *Decommissioned Units* view. Once a product or service is decommissioned, it is no longer accessible from the *Product List* and *Account Service* tab. See [Decommissioning assets on page 37](#).

When a hardware device is moved to *Decommissioned Units* you can deregister the unit to purge it from your account.

Assets can be excluded from the *Decommissioned Units* view by clicking the *Delete* icon. Multiple assets can be added or deleted at one time. Click the *Export* icon next to the search bar to export the list as a CSV or EXCEL file.

You can use the *Decommissioned Units* view to return a decommissioned unit back to the *Product List*.

To restore a unit to the product list:

1. Go to *Products > More Views > Decommissioned Units*.
2. Do one of the following:
 - In the *Action* column, click the *Move Back to Product List* button.

- Select the units you want to restore and click the *Move Back to Product List* button.

The *Restore Confirmation* dialog opens.

- Click *Yes, I want to continue*. A confirmation message is displayed.

Deregistering units

When the system detects a hardware device that is eligible to be deregistered, the *Decommissioned Units* view will display an icon in the *Action* column.

Requirements:

- The following user roles can deregister a unit: master user, IAM user with Admin permissions, external IdP role with Admin permissions.
- The device must be registered for at least three years.
- When a device is re-registered, you must wait a year to deregister it again.

To deregister a device:

- Go to *Products > More Views > Decommissioned Units*.
- In the *Action* column, click the *Deregister This Unit* button for the selected device. A confirmation dialog opens.

SERIAL NUMBER	DESCRIPTION	COMPANY	ACTION
FCTEMS882		Fortinet	[Trash Icon]
FCTEMS882	ss	Fortinet	[Trash Icon]
FG100C3G1	EOL (Co-Therm) LAG N CLOUDFW002	Fortinet	[Trash Icon] <i>Deregister This Unit</i>
FGT-602103	EOL LAG Luzern	Fortinet	[Trash Icon]
FGT60ETK1		Fortinet	[Trash Icon]

- Accept the terms of deregistration, and click *Deregister this Unit*. A confirmation message appears.

If you deregister the wrong device, you can re-register it again right away.

TradeUp

Fortinet's TradeUp allows you to access the latest Fortinet solutions, bringing improved performance and updated security with advanced feature sets to help secure your organization's entire attack surface.

The TradeUp allows you to TradeUp devices and transfer existing services to the eligible upgraded units. For those devices where services are not transferred, the remainder of the contract on the old device will be valid until its expiration date.

You are not required to return the old unit that was used for TradeUp. Any products that have been TradedUp will not be eligible for RMA services, renewals or other TradeUps. Once a unit has been traded up, you agree not to reuse, resell, lend, rent or lease, the replaced unit and not use it for the provision of any kind of commercial services to third parties.

For all other questions regarding TradeUp please email us at:

North America	Renewals@fortinet.com
APAC	Renewals_APAC@fortinet.com
EMEA	Renewals_EMEA@fortinet.com
LATAM	Renewals_LATAM@fortinet.com

Eligible products

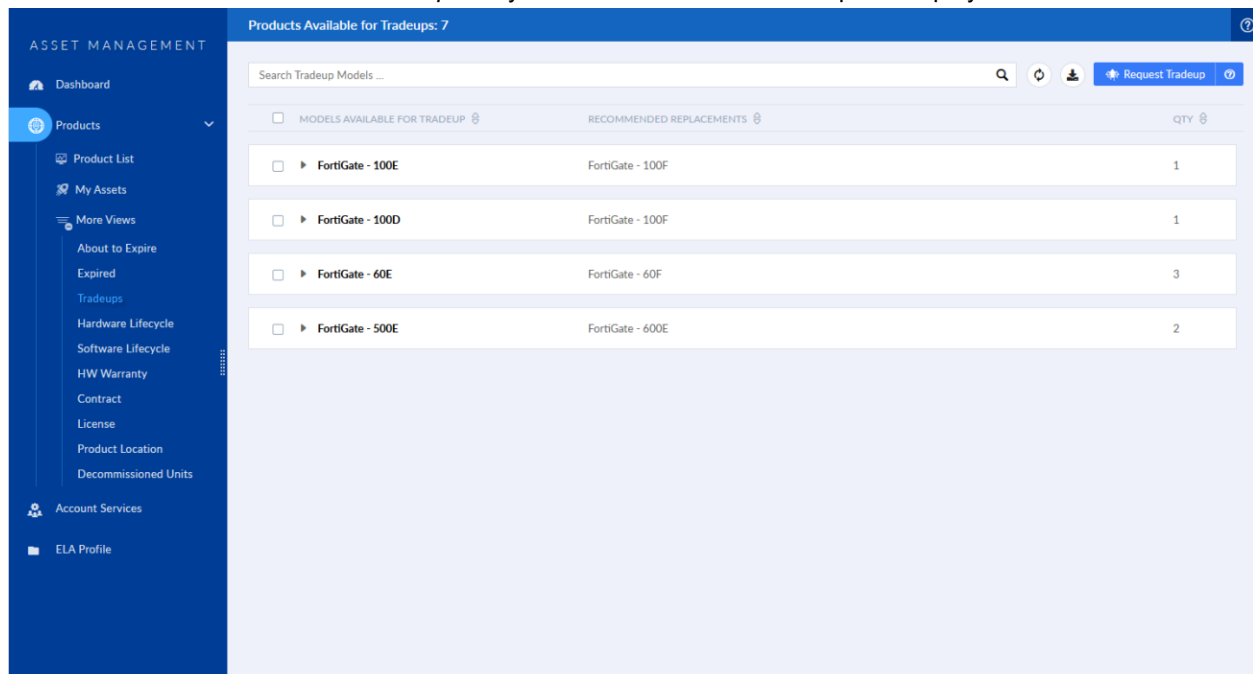

If services are being transferred, the new replacement product must follow the TradeUp recommended replacement path for services transfer. Please contact your Fortinet Account Manager to discuss which of your devices are eligible for TradeUp and what upgrade paths are available for transfer of services.

Ineligible products

The following products are not eligible for TradeUp: FortiVoice, FortiClient, Coyote Point, FortiToken, FortiRecorder, Virtual Appliances, Fortinet VM Solutions, FortiSMS, FortiCarrier, VDOM, ADOM, Accessories, FortiFone, FortiCamera, Professional Services, FortiSIEM, FortiProxy, FortiCloud, FortiNAC.

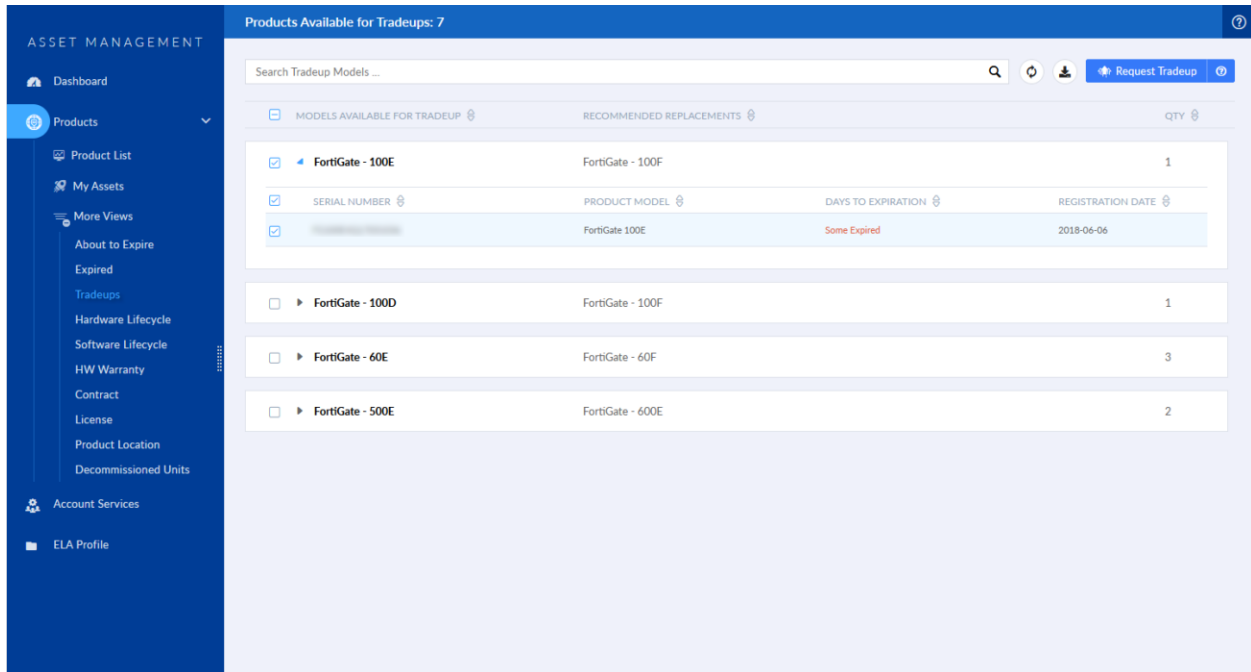

To request a device TradeUp:

1. Go to *Products > More Views > Tradeups*. Any models available for TradeUp are displayed.

2. To select specific serial number(s) to TradeUp, click the drop down arrow. The serial number list is displayed.

3. Select the products you want to TradeUp and click *Request Tradeup*. The *I want to tradeup the following devices* dialog opens.

Online renew

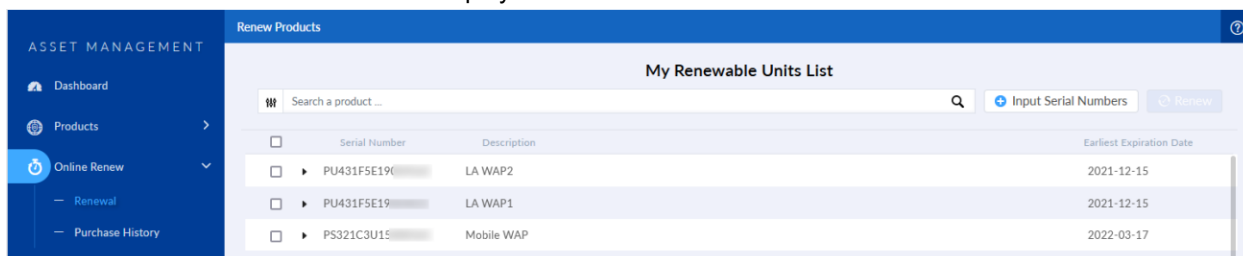

Fortinet products can be renewed through Asset Management from the *Online Renew* view. Units that are available for renewal are displayed in the *My Renewable Units List* tab.

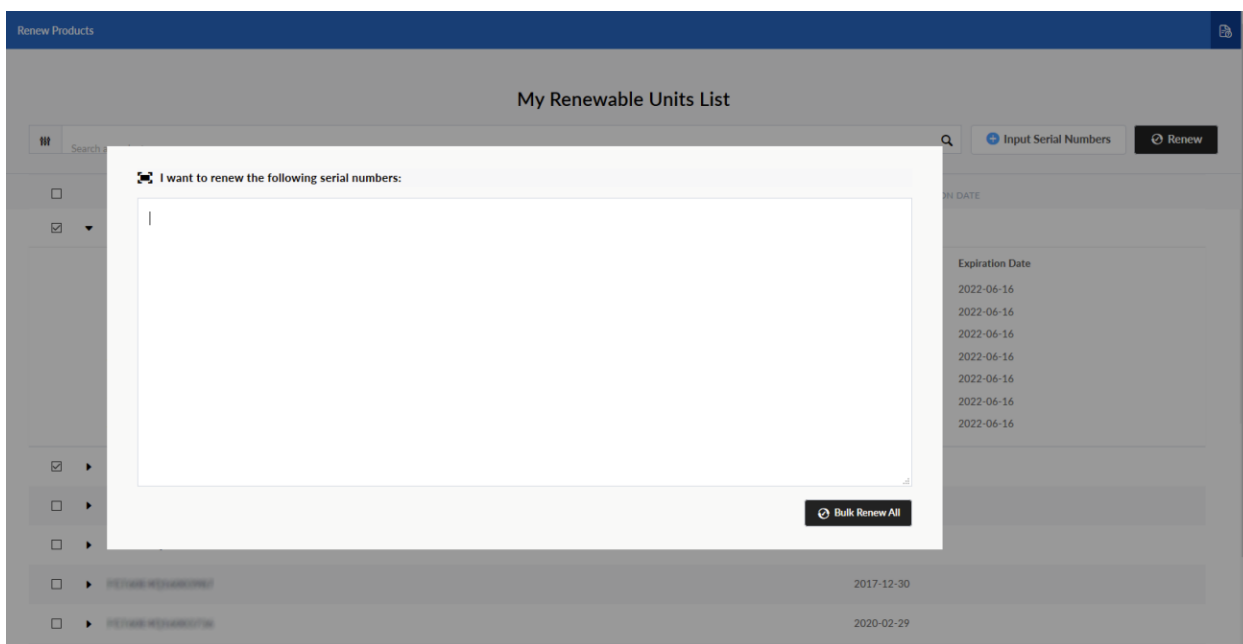

The online renewal feature is only available to North American (US/Canada) customers with accounts that have less than fifty units.

To renew a product online:

1. Go to *Online Renew > Renewal*.
2. Select one or more renewable units from the list, and click *Renew*. You can apply filters or search based on a units serial number to reduce the number of displayed units.

For bulk entry, click *Input Serial Numbers* to manually specify the units that you want to renew by their serial number.

3. On the *Selected Units To Be Renewed* page, review your selected units and support package. Click *Next* when finished.

Renew Products

1 RENEWAL UNITS 2 AGREEMENT 3 BILLING 4 CONFIRMATION

STEP 1 Selected Units To Be Renewed

SKU	PACKAGE DESCRIPTION	PRICE

Pending registration

The *Pending Registration* list displays all your unregistered products and devices. You can view the list by *Hardware*, *Contract*, and *License* views.

Each of the views in *Pending Registration* displays order groups containing units to be registered. The *Registered Status* column displays a status bar with the number units to be registered.

For *Pending Registration* features, your FortiCloud account ID must be linked to an order, such as a quote or purchase order, before PO approval. Contact your local sales representative to have future orders linked to your account.

To register a unit pending registration:

1. Expand an order group.
2. In the *SN#* column, select a serial number.
3. Click *Register More* and complete the steps in the registration wizard. The device is added to the *Product List*.

Hardware view

The *Hardware* view displays unregistered devices by *Order#*, *Product Model*, and *Registered Status*. Expand the *Order#* group to view the product's *SN#*, *SKU*, and *Warranty Auto Start Date*.

Bulk Registration

Use bulk registration to save time registering multiple hardware devices or contracts. Bulk registration can be performed by importing the serial numbers with an Excel template or entering them manually with the GUI. Both methods allow you to assign a serial number to a contract or asset folder.

Bulk registration is limited to orders linked to your FortiCare account. Assets not linked to your account cannot be added through bulk registration. See [Pending registration on page 60](#) for more information.

Bulk registration does not support registering licenses at this time.

To perform a bulk registration:

1. Go to *Pending Registration > Scheduled Registration*.
2. Click *Bulk Registration*. The *Basic Info* page opens.

Scheduled Registration				
<div> <div>Searching Scheduled Registration ...</div> <div> </div> </div>				
Batch ID	BULK REGISTRATION NAME	STATUS	SCHEDULED DATE	ACTION
▶ [REDACTED]	Register now	● Complete With Error	2022-01-10	
▶ [REDACTED]	My Test Registration	● Complete With Error	2022-01-18	
▶ [REDACTED]	Register now	● Completed	2022-01-13	

3. Complete the *Basic Info* form and click *Next*. The *Add Devices* page opens.
4. Select *Upload a file* or *Input serial numbers*. The *Preview* page opens.
See [Upload a file on page 67](#) and [Input serial numbers on page 68](#).

The screenshot shows a web interface for adding devices. At the top, a blue navigation bar contains four steps: 1 Basic Info, 2 Add Devices (active), 3 Preview, and 4 Complete. Below the navigation bar, the main content area is titled 'ADD DEVICES'. Underneath, it says 'SELECT A METHOD TO ADD DEVICES' with two radio buttons: 'Upload a file' (selected) and 'Input serial numbers'. A large dashed box in the center contains a cloud icon with an upward arrow. Below the icon, a message reads: 'Please download a [file template](#) to prepare your file. Serial Number field is mandatory. Excel file only. Up to 1000 devices (Serial Numbers) can be registered in one bulk registration'. At the bottom of the dashed box is a 'File Upload' button with a cloud icon. At the bottom of the main content area, there are three buttons: 'CANCEL', 'PREVIOUS', and 'NEXT'.

5. Accept the terms of the registration agreement, and click *Register Now*. A message is displayed if there are any errors.

1 Devices in Queue for Bulk Registration

SERIAL NUMBER	CONTRACT#	DESCRIPTION	ASSET FOLDER
1. FS108D3W1			My Assets

COMPLETE

Upload a file

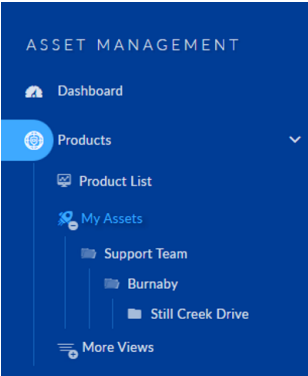

Use *Sheet 1* to enter registration information. The application will look for this sheet when the file is uploaded.

You can use the registration template to assign devices to an asset folder in the AM the portal. If you do not specify an *ASSET FOLDER LEVEL*, the device will be assigned to the *My Assets* folder.

SERIAL NUMBER*	This column is mandatory. Each serial number must be unique.
DESCRIPTION	This column is optional. The information you enter here will appear in the device <i>Description</i> field in the AM portal.
CONTRACT NUMBER	This column is optional. Enter the contract number if you want to assign the serial number to a contract.
ASSET FOLDER LEVEL (1, 2 or 3)	<p>These columns represent the sub-folder structure in the <i>My Assets</i> view of the AM portal.</p> <p>To add a device to a folder, enter the folder name in the corresponding Asset Folder Level.</p> <p>To add the device to a level 2 or 3 folder, you must enter the names of the parent folders that precede it. See the example below.</p> <div><div></div><div><p>To add the serial number to an asset folder, the folder must already exist in the AM portal. You cannot use the template to create a new folder in the portal.</p></div></div>

Example

To assign devices to the following folders in the AM portal:

Enter the device information in the template as follows:

	A	B	C	D	E	F
1	SERIAL NUMBER*	DESCRIPTION	CONTRACT NUMBER	ASSET FOLDER LEVEL 1	ASSET FOLDER LEVEL 2	ASSET FOLDER LEVEL 3
2	FG1	First Floor		Support Team		
3	FGT	First Floor		Support Team	Burnaby	
4	FGT	First Floor		Support Team	Burnaby	Still Creek Drive
5						

The bulk registration template can also be filled with information from the *Pending Registration > Hardware* and *Pending Registration > Contract* pages. Both pages allow assets to be exported to a CSV file. See [Pending registration on page 60](#) for more information.

To fill out the template, you can collect the serial numbers and contract numbers for the product model you want to register in bulk. Serial numbers can be extracted from the *Hardware* page CSV file and contract numbers can be extracted from the *Contract* page CSV file. Copy the serial numbers and contract numbers and paste these assets into the template before manually completing the other fields.

Input serial numbers

Separate the serial numbers with a comma or by pressing `Enter` on your keyboard.

You can register a serial number to a contract with the *Contract#* dropdown. To assign a serial number to an asset folder, select a folder from the *My Assets* dropdown. The toggle is enabled by default.

Filtering registrations

You can filter *Pending Registrations* by date and completion status in the *Hardware*, *Contract*, *License*, and *Scheduled Registration* pages.

The following example demonstrates how to filter *Scheduled Registrations* registrations. Go to *Pending Registration > Hardware*, *Pending Registration > Contract*, or *Pending Registration > License* to filter hardware, contract, and license registrations.

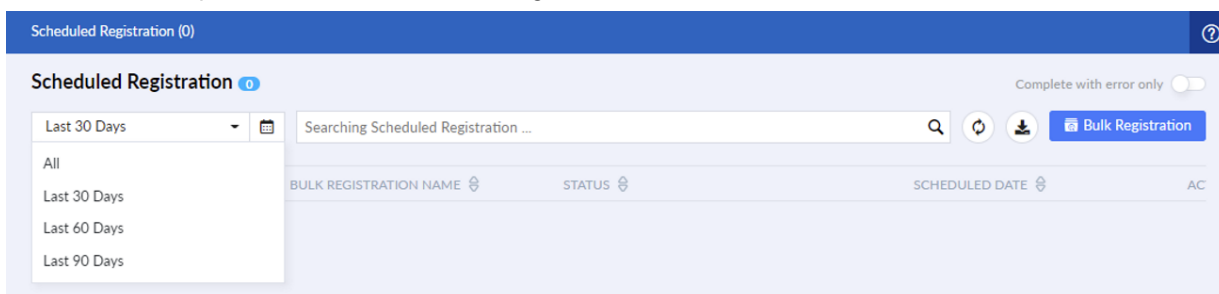

You can filter *Hardware*, *Contract*, and *License* assets by date by entering the date in the search field.

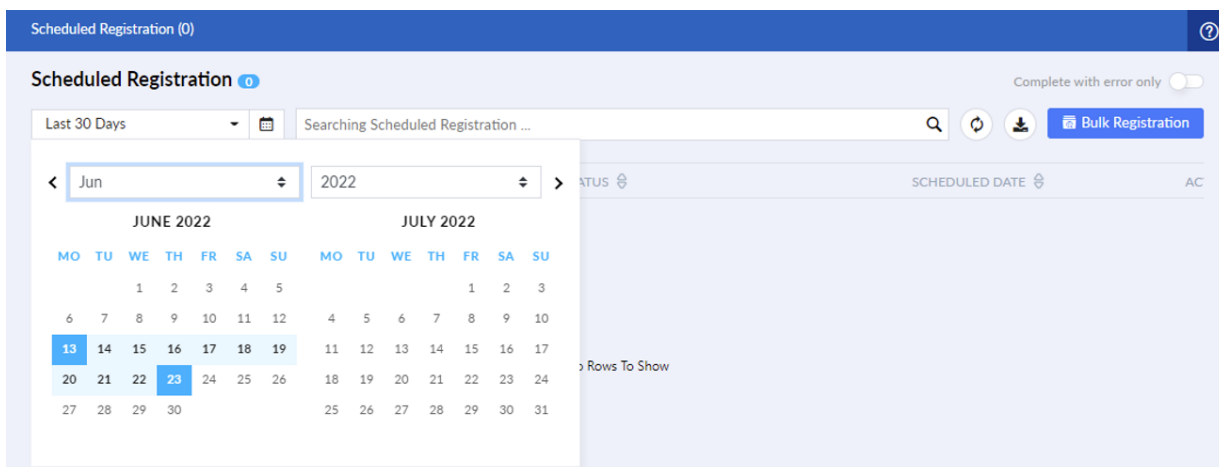

To filter pending registrations:

1. Go to *Pending Registration > Hardware*.
2. Filter the date of registration:

- Click the date dropdown and select the date range.

- Click the calendar icon and select a start and end date on the calendar.

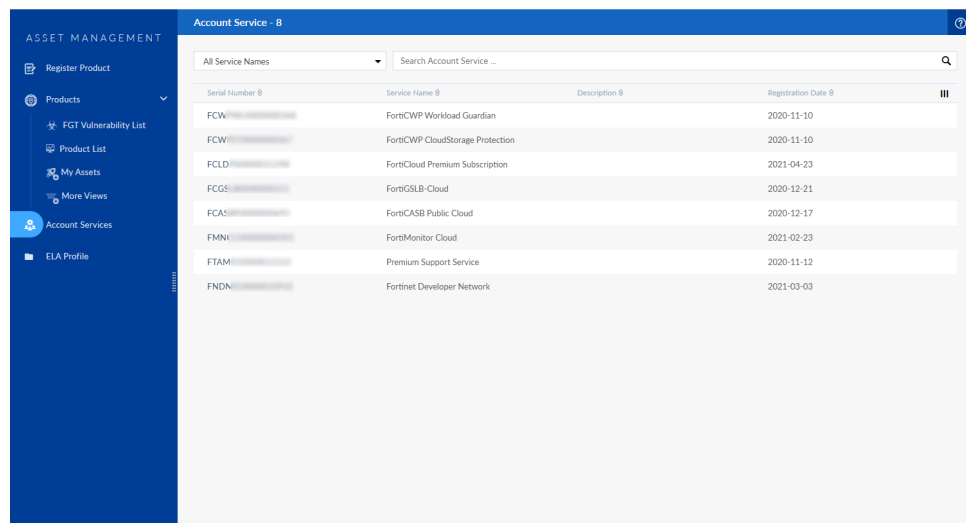

- (Optional) Toggle *Incomplete registrations only* to hide completed registrations.

Account Services

Account services can be viewed and managed through the *Account Service* tab. The serial number, service name, description, and registration date are displayed in the *Account Services* table.

You can sort displayed results in ascending or descending order by clicking the header of any displayed column. To filter the results, enter keywords in the search bar.

The screenshot shows the 'Account Service - 8' tab in the Fortinet Asset Management interface. The left sidebar contains navigation options: 'Register Product', 'Products' (expanded), 'FGT Vulnerability List', 'Product List', 'My Assets', 'More Views', 'Account Services' (selected), and 'ELA Profile'. The main content area displays a table with 8 services. The table has columns for 'Serial Number', 'Service Name', 'Description', and 'Registration Date'. A search bar at the top right of the table allows filtering by 'All Service Names'.

Serial Number	Service Name	Description	Registration Date
FCW	FortiCWP Workload Guardian		2020-11-10
FCW	FortiCWP CloudStorage Protection		2020-11-10
FCLD	FortiCloud Premium Subscription		2021-04-23
FCGS	FortiGSB-Cloud		2020-12-21
FCAS	FortiCASB Public Cloud		2020-12-17
FMN	FortiMonitor Cloud		2021-02-23
FTAM	Premium Support Service		2020-11-12
FNDN	Fortinet Developer Network		2021-03-03

Clicking on any service listed opens the details page which has additional information based on the service type.

Account services can be registered in the same method as products, contracts, and licenses. Use the *Register More* button in the *Products* page or select *Register Now* from the *Dashboard*. See [Registering assets on page 33](#) for more information.

Marketplace

Marketplace provides access to Fortinet Inc. products and services that will allow you to increase your organization's security, productivity, and profitability. Use FortiPoints to purchase products and packages, such as FortiCare, UTP, and the FortiGate Enterprise Bundle.

You can add more FortiPoints to your account by selecting *Register Points*. Once you have enough FortiPoints, select an existing Fortinet product to renew or upgrade. You can then use your FortiPoints to customize products and services, or purchase an existing renewal bundle.

You must accept the Fortinet Inc. Service Terms & Conditions to use Marketplace. If you have not yet accepted the Terms & Conditions or the terms have been upgraded, you will be prompted to read and accept them before you can proceed. See [Creating a new account](#) in the FortiCloud Account guide for more information.

Marketplace includes multiple pages:

- [General on page 73](#)
- [Spending on page 75](#)
- [History on page 111](#)

General

The *Marketplace > General* page displays a high level overview of your Marketplace account, including recently registered FortiPoints and spending.

Select *Register Points* if you do not have any FortiPoints registered.

Get Started with Fortinet's New Feature - Marketplace

Marketplace provides access to Fortinet products and services that will allow you to increase your organization's security, productivity, and profitability. Use FortiPoints to purchase products and packages, such as FortiCare, UTP, and the FortiGate Enterprise Bundle.

You can add more FortiPoints to your account by selecting [Register Points](#). Once you have enough FortiPoints, select an existing Fortinet product to renew or upgrade. You can then use your FortiPoints to customize products and services, or purchase an existing renewal bundle.

 Register Points →

Account Overview

The *Account Overview* section presents information on your:

Total FortiPoints value	The total number of registered FortiPoints.
Total FortiPoints balance	The current number of available FortiPoints (Total FortiPoints - Used FortiPoints).
Reserved FortiPoints	FortiPoints currently being processed by Fortinet Inc.. These points are not yet available to use. If they are approved, they will be allocated to the Total FortiPoints value. If they are not approved, they will be released and the total value will not changed.
Used FortiPoints	The number of FortiPoints that have already been used in the Marketplace.

Recent Points Added

The *Recent Points Added* section displays the five most recently registered FortiPoints licenses, including the license and SKU number, the points value, and the expiration date. Select the icon in the top right corner of the card to see more information or select one of the tabs from the navigation menu.

For more information on registering FortiPoints, see [Spending on page 75](#).

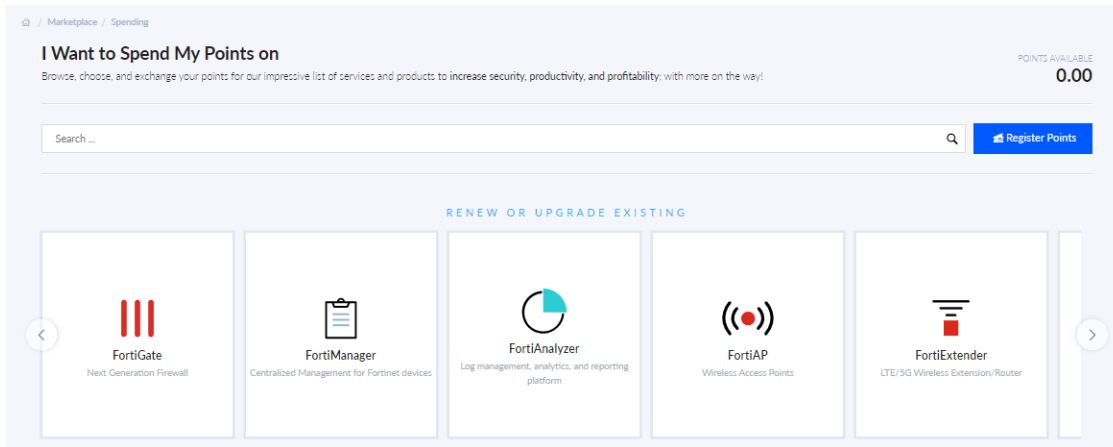

Recent Spending

The *Recent Spending* section displays the five most recent transactions using FortiPoints. Details included with the spending overview transaction number, description of the service, the FortiPoints spent, and expiration date. Select the icon in the top right corner of the card to see more information or select one of the tabs from the navigation menu.

For more information on purchasing services, see [Spending on page 75](#).

Spending

You can register and spend FortiPoints from the *Marketplace > Spending* page.

Currently, only FortiGate, FortiManager, FortiAnalyzer, FortiAP, FortiExtender, FortiSwitch, FortiClient EMS, and FortiFlex related products are supported. FortiCloud will gradually add new product categories for FortiPoints use in the future.

This section includes:

- [Registering points on page 75](#)
- [Using FortiPoints on page 75](#)

Registering points

You can register points from the *General* and *Spending* pages by selecting *Register Points*. See [Registering assets on page 33](#) for more information on how to complete the registration process.

Using FortiPoints

You can use FortiPoints for renewing and upgrading existing contracts and services from the *Spending* page. FortiPoints can also be transferred to FortiFlex points to be used in the FortiFlex portal.

Service renewal and upgrade options presented in the product examples may not cover all services available. Options vary depending on product model.

Products supported on Fortinet Inc. *Marketplace* include:

- [FortiGate on page 76](#)
- [FortiManager on page 82](#)
- [FortiAnalyzer on page 87](#)

- FortiAP on page 93
- FortiExtender on page 98
- FortiSwitch on page 102
- FortiClient EMS on page 107
- FortiFlex on page 109

FortiGate

FortiGate services and contracts can be renewed or upgraded from the *Marketplace > Spending* page.

PRMA services can be selected from the *Add-On* list. If the location is not set in the product details for the selected serial number, you cannot apply PRMA to the upgrade. See [Viewing the product location on page 31](#).

You can buy PRMA contracts for your existing hardware. If Fortinet Inc. has announced an End of Support date for a specific model, the PRMA service contract for that model will be removed from the price list. When the SKU is removed from the price list, the Marketplace will not display the PRMA service in the *Add-On* list. This is by design across all online renewal platforms.

The following documents provide more information on PRMA:

- RMA companion and PRMA service descriptions are available on support.fortinet.com. Log into FortiCloud and navigate to *Support > Resources > Guidelines, Policies & Documents*.
- [Premium & Secure RMA](#) in the ELA Portal guide provides descriptions on adding and reviewing PRMA contracts in the FortiCloud ELA portal.

To renew a FortiGate service or contract:

1. Go to *Marketplace > Spending*.

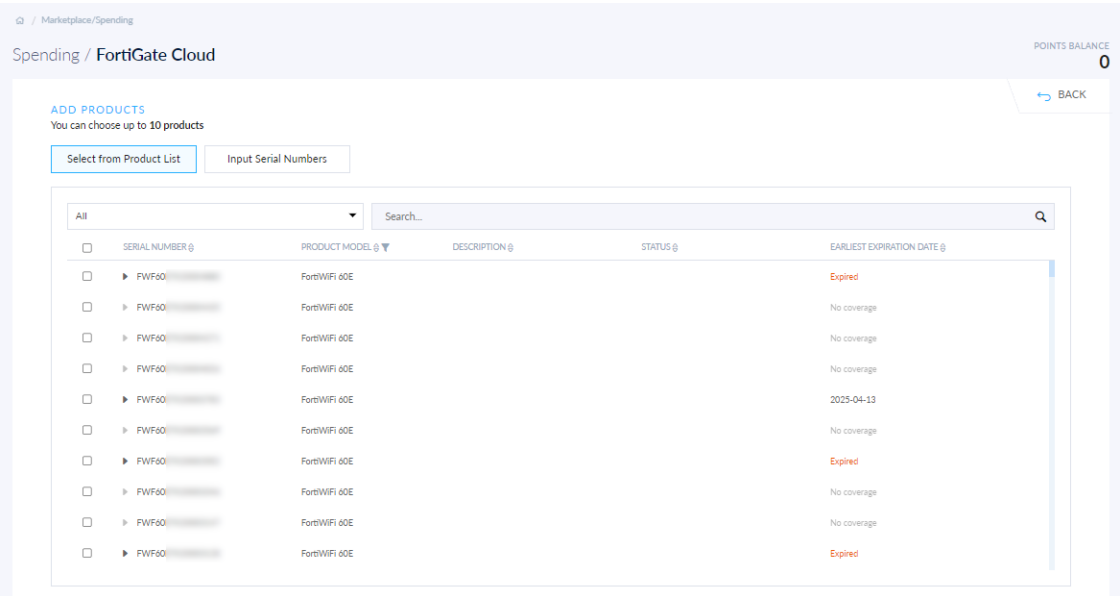

2. Select *FortiGate*.

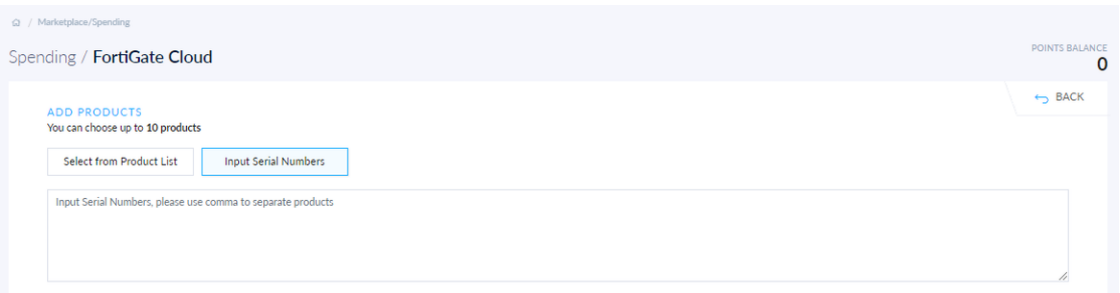

The *Add Products* page is displayed.

3. Select the products you want to renew:
- Select *Select from Product List* and choose the products to renew. You can filter assets by expiry date and product model, or use the *Search* field to locate specific products.

- Select *Input Serial Numbers* and enter the product serial number of the product you want to renew.

4. Select *Renew*. The selected products are displayed in accordion dropdown menus.

8. Click *Place My Order*.

FortiFlex

FortiPoints can be transferred to FortiFlex points to be used in the FortiFlex portal. See the [FortiFlex Administration Guide](#) for more information on using points in the FortiFlex portal.

FortiFlex point transfer is final. Once points have been transferred, they cannot be returned.

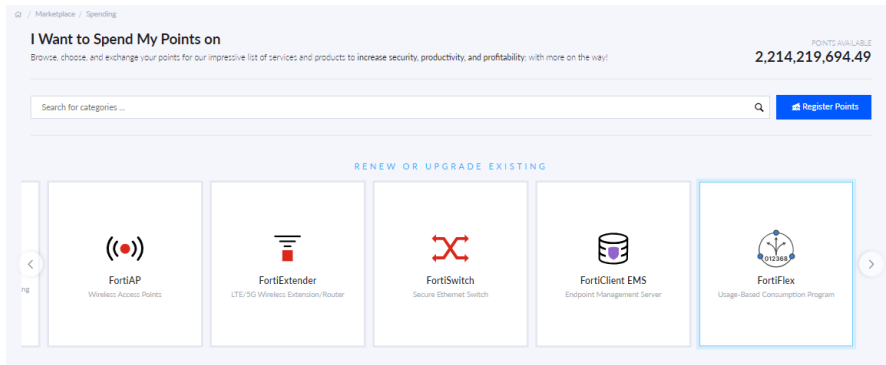

The conversion rate of FortiPoints to FortiFlex points, points rollover, and expiration information depend on the conversion option:

- *Lite*: Available for less than 50 thousand FortiFlex points.
- *Standard*: Available for 50 thousand to 1 million FortiFlex points.
- *Pro*: Available for 1 million to 10 million FortiFlex points.
- *Ultimate*: Available for over 10 million FortiFlex points.

Details on each option can be viewed in *Marketplace > Spending > FortiFlex*.

To transfer FortiPoints into FortiFlex points:

1. Go to *Marketplace > Spending*.
2. Select *FortiFlex*.

If the user does not have access to the FortiFlex portal or the license is expired, the *FortiFlex* card will be grey and cannot be selected.

3. Add a description of the transfer in the *Memo* field.

Transfer my FortiPoints to FortiFlex Points

FortiFlex Points Balance: 25,374.74 | FortiPoints Balance: 19,386.06

MEMO*

Enter a brief memo for this transaction (e.g., purpose or reference) to distinguish it from other transactions.

The Greater Your Purchase,
The Lower Your Expense.

Please note that points transfers are final and transferred points CANNOT be returned.

FortiFlex Needed	Conversion Rate FortiFlex Points/FortiPoint	Rollover unconsumed FortiFlex points rollover at anniversary date
~ 50K	1.2	50%
50K ~ 1M	1.2	100%
1M ~ 10M	1	100%
10M ~	0.8	100%

NOTE: FortiFlex points won't expire if FortiFlex program is renewed before anniversary date.

FortiFlex Points wanted
All values entered/calculated will be rounded up to the nearest integer.

10,000

FortiPoints needed
12000.00

Cancel | Request Transfer

4. Enter the number of FortiFlex points you want. The *FortiPoints needed* field will update to show how many points must be transferred to receive the desired amount.

Click Swap to enter the amount of FortiPoints you want to transfer. The *FortiFlex Points wanted* field will update with the number of FortiFlex points you would receive.

5. Click *Request Transfer*. The *Order Summary* is displayed.

If you do not have enough FortiPoints to complete the transfer, a warning will display the number of outstanding points. Select *Register More Points* to register FortiPoints or select *Go Back To Edit* to reduce the number of FortiFlex points needed.

6. Click *Transfer Points*. The points will be transferred and the transfer record will display on the *History* page.

History

The *Marketplace > History* page displays an overview of:

- **History:** Lists all Marketplace transactions and their current status. Select a *Transaction* number for more information. See [Transaction details on page 112](#).

FortiFlex transaction history

FortiPoints can be transferred to FortiFlex points to be used in the FortiFlex portal. See [FortiFlex on page 109](#).

Once the points transfer has been completed, the transaction details will become available in *Marketplace > History*. The transaction details include the total number of FortiPoints spent, the number of FortiFlex points acquired, license information, and the anniversary date.

See the [FortiFlex Administration Guide](#) for more information on using points in the FortiFlex portal.

FortiMeter

FortiMeter allows you to view the volume and consumption of traffic that you use for FortiOS-VMs. Metered VMs require that you have a FortiMeter license and have linked that license with a FortiManager unit. For more information on setting up and using FortiMeter, see the [FortiManager Administration Guide](#).

FortiMeter is not available in all accounts.

In FortiMeter, you can select *Prepay FortiMeter Group* or *Postpay FortiMeter Group* to view each license group.

- *Prepaid FortiMeter Group*: Includes FortiOS-VMs where usage is prepaid by purchasing points. The remaining amount of points available to each FortiMeter group is displayed.
- *Postpaid FortiMeter Group*: Includes FortiOS-VMs billed monthly based on usage. The points consumed by each FortiMeter group are displayed.

While in any tab, you can use the search bar to search for groups or assets matching your entered search criteria, and click a column title to change the order of displayed information.

GROUP	PROGRAM	AVAILABLE POINTS	RUNNING VMs	FORTIMANAGERS	STATUS	COMMENTS
FortiMeter Group	Consumption	0	0	0	Valid	
FortiMeter Group	Volume	10000	0	0	Valid	

Select a prepaid or postpaid group to view the *Usage Report* for members of that group, including the serial numbers, VM names, points available/consumed, packages, VM vCPU/RAM, and hours running for each member in the group.

ELA profile

The Enterprise Level Agreement (ELA) profile view is available upon request for customers that have an ELA contract and a registered ELA product. To add the ELA profile view to your product list, contact Customer Support.

The *ELA Profiles Details* section displays the following information:

Profile ID	The ID for the ELA profile.
Description	The profile description.
Sold by	The name of the salesperson who sold the ELA contract and product.
Created On	The date the ELA profile was created.
Last Updated On	The date the ELA profile was updated.

Registered ELA Contract(s)

The *Registered ELA Contract(s)* view displays the *ELA Contract Number*, *SKU*, *Start Date* and *End Date*. Expand the contract to view the entitlements associated with the contract.

ELA Profile Enterprise Level Agreement			
ELA Profile Details			
Profile ID	Description	Created On	Last Updated On
[redacted]	[redacted]	2020-11-15 10:27 PM	2021-01-20 12:40 AM
Registered ELA Contract(s) Linked Accounts			
Contract Number	SKU	Start Date	End Date
▶ [redacted]	FC-FELA-12-B	2020-11-15	2021-11-15
▶ [redacted]	FC-FELA-12-B	2021-11-15	2022-11-15
▶ [redacted]	FC-ESA-12-M	2021-01-22	2022-01-22

ESA contracts can generate new standard FortiSASE serial numbers in the *Registered ELA Contract(s)* view by selecting the *Generate Standard FortiSASE* action. This action can only be completed once. If a serial number already exists, a new FortiSASE contract will be appended onto the existing serial number.

Creating connected accounts (Partners)

Partners can be connected to one account, or connected to multiple accounts as a master or sub user.

To create a connected account:

1. Click the Account dropdown (your email) and select *My Account*. You are redirected to FortiCloud.

2. Click *Connect Account*. The *Connect Registered Account* page opens.

 A screenshot of the 'Connect Registered Account' page. The page has a green header with 'PARTNER' and 'Fortinet (Americas)'. Below the header, there's a 'Manage Account' sidebar with options: 'Connected Accounts', 'Create an Account', and 'Connect Account' (highlighted). The main content area is titled 'Connect Registered Account' and contains a 'Connect Account' section with two input fields: 'Account ID (Email):*' and 'Password:*. A blue 'Search' button is to the right of the password field.

3. Enter the *Account ID (Email)* and *Password* in the provided fields.
4. Click *Search*. The available accounts are displayed.

 A screenshot of the 'Connect Registered Account' page after a search. The page layout is the same as the previous screenshot, but the 'Connect Account' section now displays a table of search results. The table has columns: 'Account', 'Company', 'Name', and 'Email'. There is one row of results with a checkbox in the 'Account' column. Below the table is a blue 'Connect' button.

5. Select the accounts and click *Connect*.

Organizations in the Asset Management portal

The Asset Management portal supports FortiCloud Organizations. FortiCloud Organizations provide a centralized account management, consolidating multiple FortiCloud accounts into structured Organizational Units (OUs). With FortiCloud Organizations, the Asset Management portal provides following features for OU admins:

- Access to consolidated asset view across all the accounts, and the registration and transfer of assets between accounts in the Organization.
- Switch to any customer accounts in the Organization to register and manage assets in accounts belonging the Organization.

The Organization admin account can create IAM users with the user type as *Organization* to access the Organization views and access the customer accounts within the Organization. The IAM user's OU scope determines which accounts the user can access. The IAM user's permission profile should include permissions for the Asset Management portal.

For information on permission profiles and scope, see [Permission Profiles](#) in the Identity & Access Management (IAM) Administration Guide. For information on user management within the Organization context, see [Organization user management](#) in the Identity & Access Management (IAM) Administration Guide.

For more information on the Organization portal, see the [Organization Portal Administration Guide](#).

The Organization view of the Asset Management portal can only be accessed when logging into the portal as an IAM user with the user type as *Organization* and permissions for the Asset Management portal. The Organization root account cannot perform these tasks. See [Creating an IAM user with Organization permissions on page 119](#) and [Overview of creating and managing organizations](#) in the Organization Portal guide.

This section includes:

- [Creating an IAM user with Organization permissions on page 119](#)
- [Viewing assets in the Organization on page 123](#)
- [Registering assets to member accounts on page 120](#)
- [Transferring products on page 126](#)

Creating an IAM user with Organization permissions

An IAM user can be created that can access the Asset Management and Organization portals by defining user type and portal access in the IAM portal. By defining the access type and OU permission scope, the IAM user can have various levels of control over Organization features in the Asset Management portal.

The following demonstrates the general process of creating an Organization type IAM user with access to the Asset Management portal and Organization features:

1. Log into the IAM portal with the Organization admin account.
2. Create an Organization type permission profile for the Asset Management portal:
 - a. Go to *Permission Profiles*.
 - b. Click *Add New*.

- c. Enter a name and set the status to *Active*.
- d. Select *Organization* from the *Select A Type* dropdown menu.
- e. Click *Add Portal*.
- f. Select *Asset Management*.
- g. Click *Add*.
- h. Select the resource permissions.
- i. Click *Save*.

3. Create an Organization type IAM user:
 - a. Go to *Users*.
 - b. Click *Add New* and select the type of user you would like.
 - c. Enter the user details and click *Next*.
 - d. Select *Organization* from the *Select a Type* dropdown menu.
 - e. Select the *Organizational Unit* the user can access from the *Permission Scope* field.
 - f. Select the permission profile created in the previous step.
 - g. Click *Next*.
 - h. Click *Confirm*.
4. Log in as the Organization IAM user to view the OU or account selection screen.
 - Select an OU for the OU view.
 - Select a FortiCloud account to switch the Asset Management portal to the selected account.

For a more detailed process on creating users within Organizations, see [Permission profiles within Organizations](#) and [Creating users, user groups, and roles within Organizations](#) in the *Identity & Access Administration Guide*.

Registering assets to member accounts

When your current selected scope is set to an OU, you can assign an asset to a member account during the registration process.

To register assets to a member account:

1. Go to *Products* and click the *Register More* button.
2. Provide your registration code:
 - a. Select a member account from the *Account* dropdown list.
 - b. Enter your asset serial number, service contract registration code, or license certificate number in the *Registration Code* field.
 - c. Choose your end user type as either a government or non-government user.
 - d. Click *Next*.

Register Product

1 Registration Code 2 3 4 ?

Account *

Select An Account

Registration Code *

Please enter your product serial number, service contract registration code or license certificate number to start the registration: *

End User Type *

The product will be used by

☐ A government user

☐ A non-government user

In this context a government end-user is any central, regional or local government department, agency, or other entity performing governmental functions, including:

1. Governmental research institutions.
2. Governmental corporations or their separate business units which are engaged in the manufacture or distribution of items or services controlled on the Wassenaar Munitions List.
3. International governmental organizations.

Clear Next

3. Specify your registration information:
 - a. If you have purchased a support contract for your asset, enter the support contract number.
 - b. Enter a description to help identify the asset.
 - c. Specify the Fortinet Partner or Reseller that helped you with your asset. If this is a Partner account, specify the Fortinet Partner or Reseller.
 - d. Click the *My Assets* dropdown to assign the asset to a folder.
 - e. If this is a Partner account, specify the asset group or asset folder. The *Asset Groups* section appears in accounts with asset groups enabled. Master users and sub users with full access will see *My Assets* section in regular accounts.
 - f. Click *Next*.

Viewing assets in the Organization

Information displayed in the Asset Management portal can vary depending on the selected OU and account.

Profile menu

Your profile information available in the profile menu dropdown is dependent on the access and permissions associated with your account. If you are logged in with an IAM or external IdP account that has OU permissions enabled, you will see the *IAM Account* information, your *IAM Username*, and the OU information, including the *Organization* and *Organization Unit*.

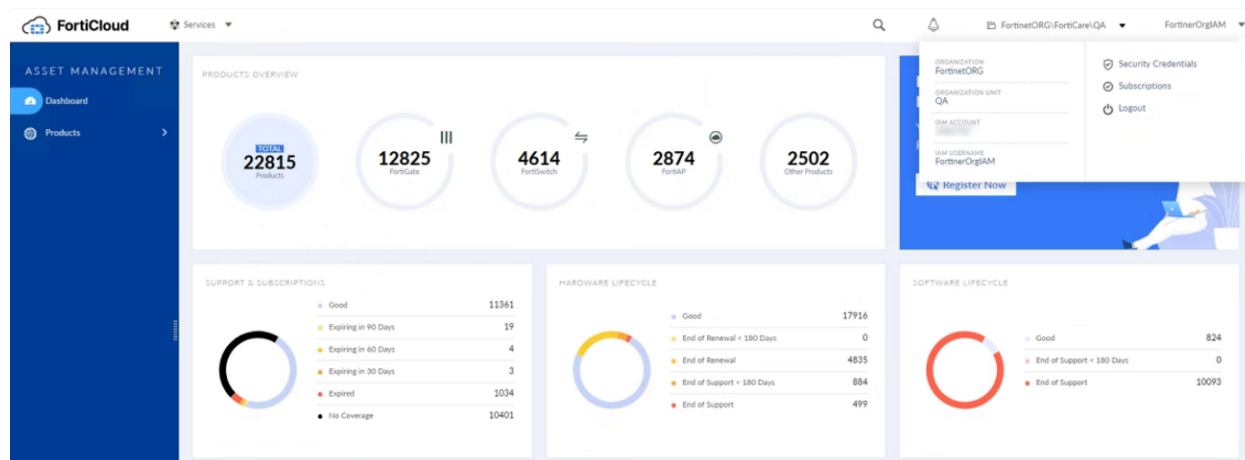

If you are logged in with an IAM or external IdP account that does not have OU permissions enabled, you will only see the *Account* information and your *Username*.

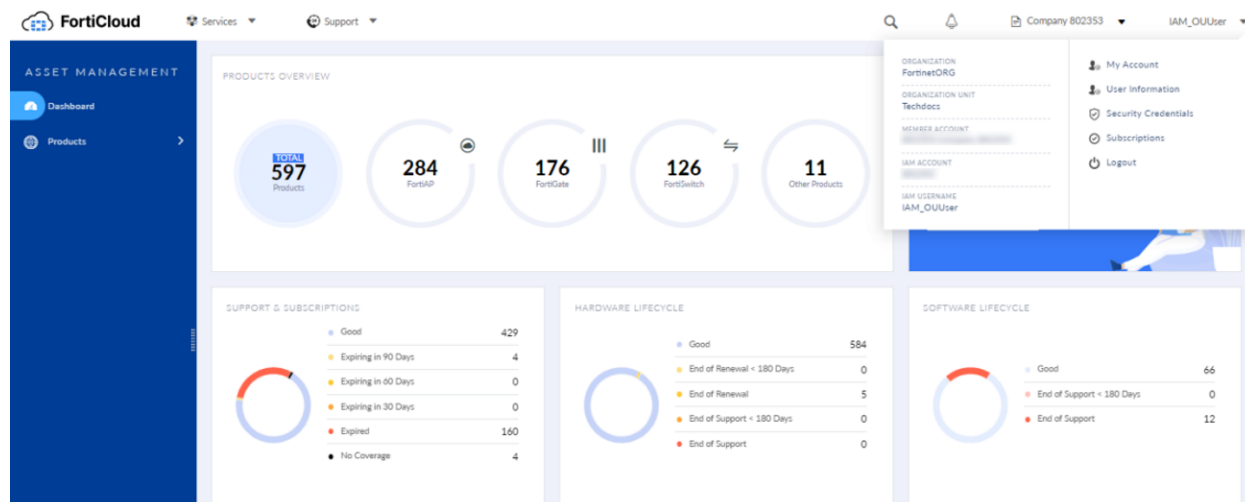

Email credentials cannot access OUs and will therefore also only include the *Account* information and your *Username*.

Dashboard

The *Dashboard* contents and profile information are also dependent on the type of OU account you are accessing. If you are logged into an OU, the information on the *Dashboard* will be an aggregation of all of the sub-OUs and OU member accounts within that OU.

If you are logged into an OU member account, the *Dashboard* will only show information related to the current member account and the profile information will include the *Member Account* information.

You can switch between OUs and member accounts using the OU context switch menu. See [OU context switch](#) in the Identity & Asset Management (IAM) Administration Guide.

If you are logged into an OU, you will not be able to access the legacy *Support* portal. Likewise, if you try to access the IAM portal while logged into an OU, you will be prompted to select a member account instead before you are granted access.

Products

In the OU consolidation mode, the product list will provide additional information, such as *Organizational Unit*, *Company*, and *Asset Folder* columns when viewing *Products > Product List* from an OU.

View Products: 597 Units

Context switch dropdown

You can change your selected scope using the context switch dropdown menu. See [OU context switch](#) in the Identity & Access Management (IAM) Administration Guide.

The screenshot shows the FortiCloud Asset Management dashboard. On the left is a sidebar with navigation links: Dashboard, Products, Pending Registration, Marketplace, and Account Services. The main area displays 'PRODUCTS OVERVIEW' with four circular gauges: 4847 Products, 2485 Items, 2358 Support, and 1 FortiAuthenticator. Below this are two charts: 'SUPPORT & SUBSCRIPTIONS' and 'HARDWARE LIFE CYCLE'. On the right, a context switch dropdown menu is open, showing a search bar and a list of organizational units (OUs) and companies, including Fortinet, FortiCare, and various company accounts.

For information on creating and joining Organizational Units, see [Enabling Organizations](#) in the Identity & Access Management (IAM) Administration Guide and the [Organizational Portal Administration Guide](#).

Transferring products

You can transfer products to a different Organizational Unit (OU) in the *Products > Products List*.

You can also move assets between asset folders. See [Creating custom views on page 41](#) for more information.

To transfer products to a new organizational unit:

1. Select the products you want to transfer. The *Transfer to* dropdown menu is displayed.

- 3.** Select the OU you want to move the products to. A list of products being moved and the new location is displayed.

4. Click *Yes, I want to continue*. A confirmation message is displayed.

If the transfer is unsuccessful, a warning message will display. If the transfer was partially successful, the products that were not able to transfer to the new location will be listed in the message. Any products not listed in the warning message have successfully transferred to the new location.
