

FortiClient Windows, macOS, Linux Compatibility with FortiClient EMS

✓ Recommended FortiClient EMS versions for each FortiClient version. Generally any FortiClient minor release would be compatible with its major EMS release. However, Fortinet always recommends using the latest GA releases unless otherwise stated.

7.4.5+						
8.0 0+				7.4.0+ 7.6.0+ 8.0.0+	7.4.0+ 7.6.0+ 8.0.0+	

1. FortiOS 7.0.6 and later is recommended if using zero trust network access.
2. With these EMS versions, when using FortiClient with FortiAnalyzer, you should upgrade both to their latest versions. The versions between the two products should match. For example, if using FortiClient 7.2.0, use FortiAnalyzer 7.2.0. In some cases, FortiClient sends logs to FortiAnalyzer but they do not show on the FortiAnalyzer GUI.
3. EMS 7.4.5 or later do not support FortiManager 7.4.0-7.4.8 and 7.6.0-7.6.4 due to the communication protocol upgrade from HTTP/1.0 to HTTP/2.

For more details, refer to the FortiClient and FortiClient EMS Release Notes at the [Fortinet Document Library](#).
