Change log

Date	Change description
2020-12-02	Initial release of the FortiFone Softclient (iOS) 3.0.13 Release Notes.

Introduction

This document provides a summary of new features, support information, upgrade instructions, and resolution of known issues in this FortiFone softclient (iOS) 3.0.13 release.

Special notices

- Bluetooth connectivity is supported within most vehicles.
- Apple watch is not currently supported.

Upgrade information

To update to the latest FortiFone softclient (iOS) release, visit the [Apple App Store](#).

What's new

There are no new features or enhancements introduced in this release.

Resolved issues

The following issues have been fixed in this release. For inquiries about a particular bug, contact [Fortinet Customer Service & Support](#).

Bug ID	Description
659880	48 hour grace period is added to continue SIP functionality if HTTP login has failed.
665272	Answering an iOS call while on a softclient call results in no audio when returning to the softclient call.
665716	After an automatic upgrade to version 3.0.13, if softclient has not been opened, an incoming call would crash the softclient.
