# Change log

Date	Change description
2020-06-10	Initial release of the FortiFone softclient (iOS) 3.0.9 Release Notes.

# Introduction

This document provides a summary of new features, support information, upgrade instructions, and resolution of known issues in the FortiFone softclient (iOS), version 3.0.9.

## Special notices

- Bluetooth connectivity is supported within most vehicles.
- Apple watch is not currently supported.

## Upgrade information

To update to the latest FortiFone softclient (iOS), visit the [Apple App Store](#).

## What's new

The following list highlights some of the new features or enhancements introduced in the FortiFone softclient (iOS), version 3.0.9:

- Enable multiple accounts.
- Switch among multiple Bluetooth devices in a call.
- Revoke the softclient license.

## Resolved issues

The following issues have been fixed in the FortiFone softclient (iOS), version 3.0.9. For inquiries about a particular bug, contact [Fortinet Customer Service & Support](#).

Bug ID	Description
6410	Intermittent issue of Bluetooth: car audio stops after the incoming call is answered.
629008	Dialing # and then pressing dial causes softclient to freeze.
629600	Missed call and voicemail notifications direct users to dial pad when pressed.
630464	Softclient rings longer than default ring duration setting.
638468	Audio of additional calls answered by softclient can be heard during conference calls.

## Known Issues

To report an issue, contact [Fortinet Customer Service & Support](#).

Bug ID	Description
602024	Intermittently, dial pad screen displays with incoming calls to softclient, making it unable to answer calls.
