Change log

Date	Change description
2025-09-01	FortiPhish version 25.3.0 release document.

Introduction

FortiPhish is a phishing simulation service to analyze how internal users interact with phishing emails. Use FortiPhish to create custom phishing email campaigns and monitor how users respond to them. The FortiPhish portal contains dashboards with easy-to-read data analysis monitors to view responses across campaigns, and monitor improvements over time.

What's new

The following table lists new features in FortiPhish version 25.3.0.

Feature	Description
Campaigns	The *Select Target Group* page now displays both users and groups, allowing you to choose any combination of them during campaign creation.
Smart Groups	You can now use the new *User Department* property when creating Smart Groups.
