

FortiClient and FortiClient EMS Upgrade Paths

The following chart provides upgrade path information for FortiClient for Windows and macOS 6.0.0 and later versions to 6.4.1. To upgrade a previous FortiClient version to FortiClient 6.4.1, do one of the following:

- Deploy FortiClient 6.4.1 as an upgrade from EMS
- Manually uninstall existing FortiClient version from the device, then install FortiClient 6.4.1

Starting version	Upgrade path
6.4.1	latest version
6.2.0+	> 6.4.1
6.0.0+	> 6.0.9 > 6.2.7 > 6.4.1

The following chart provides upgrade path information for FortiClient EMS 6.0.0 and later versions to 6.4.1.

Starting version	Upgrade path
6.4.1	latest version
6.2.0+	> 6.4.1
6.0.0+	6.0.8 > 6.2.7 > 6.4.1
