<b>Resolved issues</b> .....	<b>8</b>

## Change log

Date	Change description
2025-03-25	FortiPhish version 25.1.0 release document.

## Introduction

FortiPhish is a phishing simulation service to analyze how internal users interact with phishing emails. Use FortiPhish to create custom phishing email campaigns and monitor how users respond to them. The FortiPhish portal contains dashboards with easy-to-read data analysis monitors to view responses across campaigns, and monitor improvements over time.

## What's new

The following table lists new features in FortiPhish version 25.1.0.

Feature	Description
GUI Enhancement	The FortiPhish GUI now features a new dark mode, updated icons, and an improved overall design.
Multitenancy Support	FortiPhish now integrates with <i>FortiCloud Organization</i> , to provide multi-tenancy, enabling Managed Security Service Providers (MSSPs) and customers to manage multiple accounts.
External Identity Provider (IdP) Support	FortiPhish now supports external IdP integration, enabling user authentication via SAML 2.0, with access control through external IdP IAM roles.

## Known issues

The following issues are known in FortiPhish version 25.1.0. For inquiries about a particular issue, visit the [Fortinet Support website](#).

Issue ID	Description
1081459	Cannot edit the custom landing page title without uploading a zip file.

## Resolved issues

The following issues have been resolved in FortiPhish version 25.1.0. For inquiries about a particular issue, visit the [Fortinet Support](#) website.

Issue ID	Description
1089341	Test emails are incorrectly sent using the default server, even when a custom SMTP server is configured.
1105377	Modifying the Azure client sync type to <i>Sync Users and Groups</i> during an active Azure AD sync may cause an internal error.
