Change log

Date	Change Description
2026-06-02	Initial release.

FortiSOC 26.2.1 release

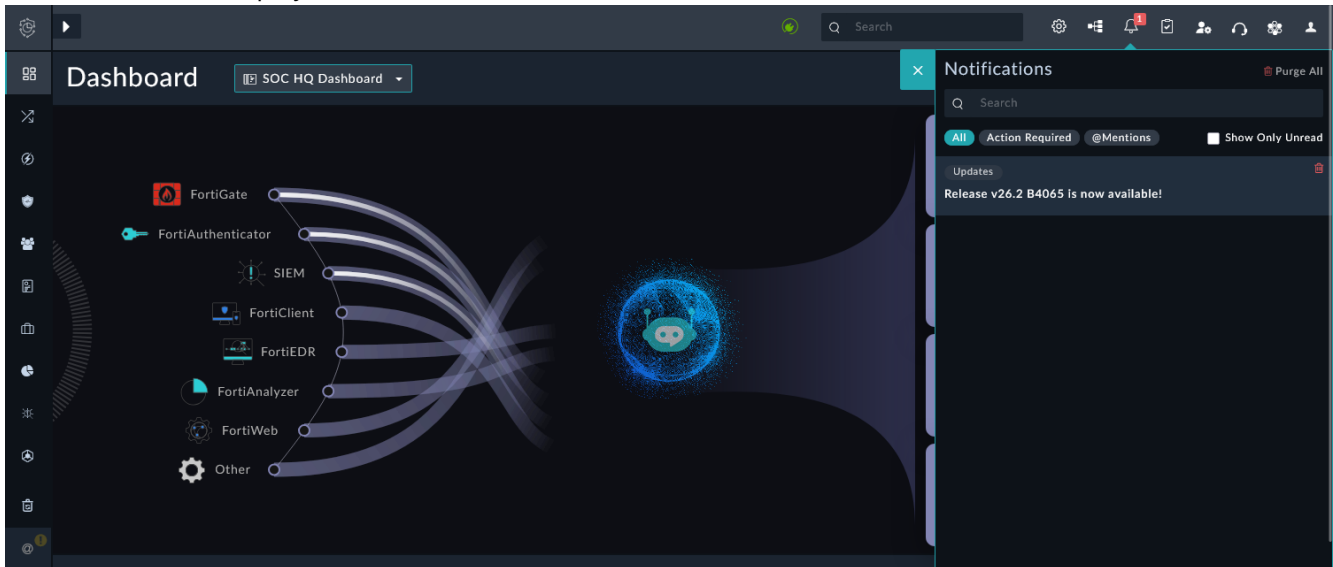

This document provides information about FortiSOC version 26.2.1 build 4065.

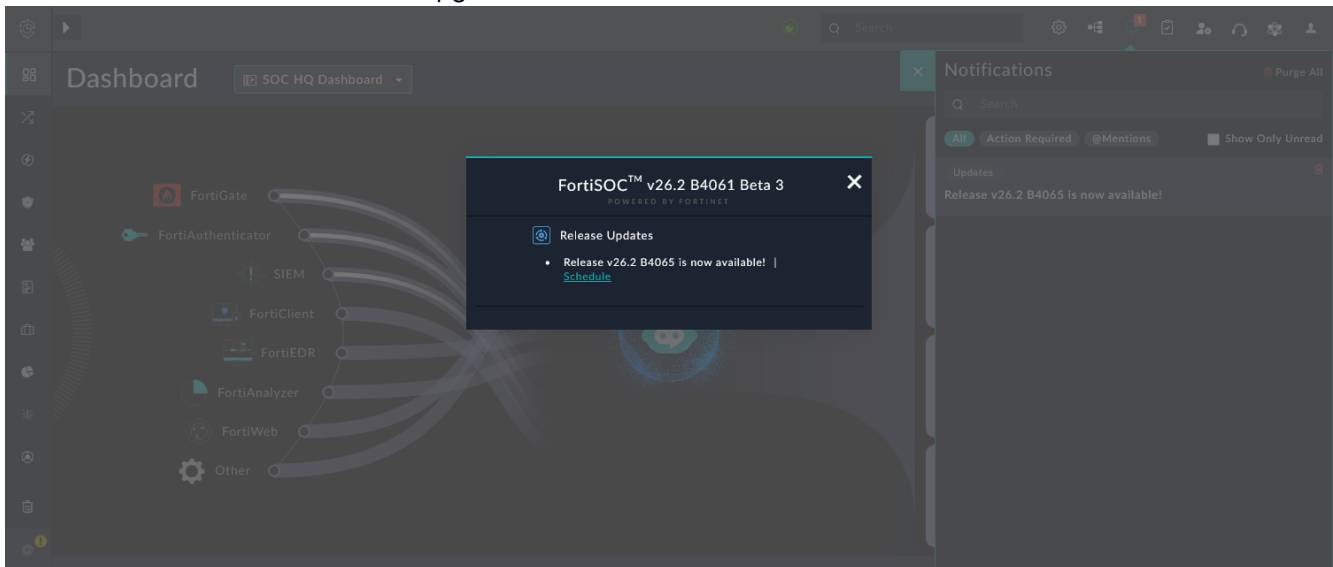

The recommended minimum screen resolution for the FortiSOC GUI is 1920 x 1080. Please adjust the screen resolution accordingly. Otherwise, the GUI may not display properly.

Upgrade information

The FortiSOC GUI displays a notification in the banner when a new version of FortiSOC is available.

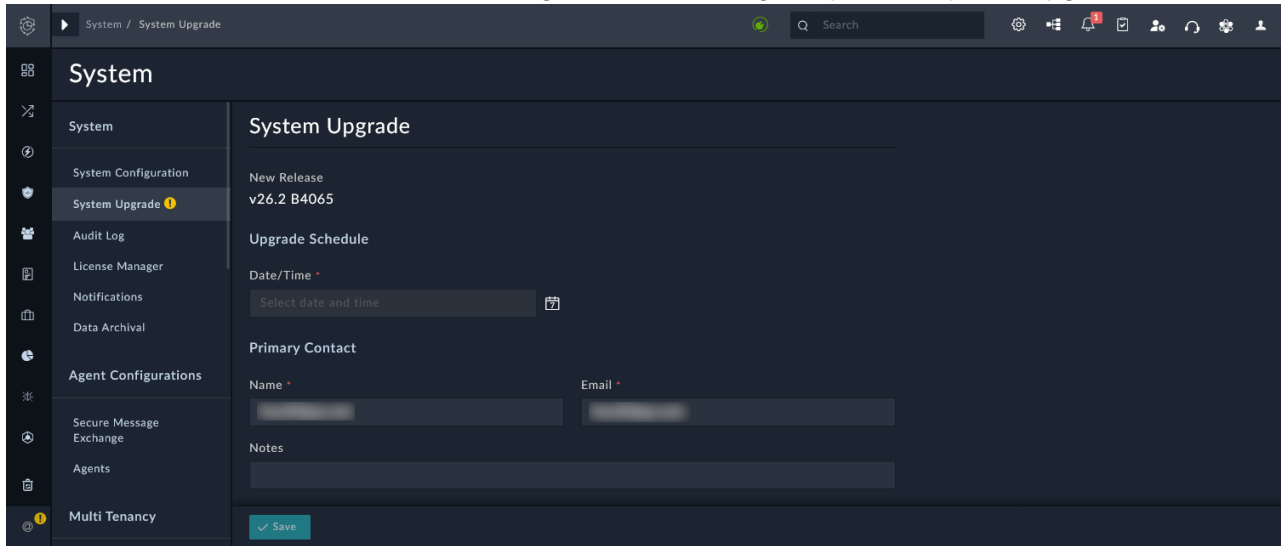

An alert is also provided in the bottom left of the GUI for users with the Full Admin role. Click the alert to view the build information and schedule the upgrade.

To schedule an upgrade for FortiSOC:

1. When a new version of FortiSOC is available, go to *Global Settings > System > System Upgrade*.

2. For the *Date/Time* field, select a date and time to complete the upgrade. You can select a date/time within the following three weeks.
3. Confirm the prepopulated *Name* and *Email* for the primary contact.
4. In the *Notes* field, enter any special notes for the FortiSOC operations team.
5. Click *Save*.

Downgrading to previous versions

Downgrade to previous versions of FortiSOC firmware is not supported.

Product integration and support

This section lists FortiSOC 26.2.1 support of other Fortinet products and third-party devices. It also identifies web browser and language support for the FortiSOC GUI.

The section contains the following topics:

- [Fortinet Fabric software support on page 8](#)
- [External systems support on page 10](#)
- [Web browser support on page 10](#)
- [Language support on page 10](#)

Fortinet Fabric software support

FortiSOC 26.2.1 supports the following Fortinet Fabric software:

- [FortiOS support on page 8](#)
- [FortiWeb support on page 9](#)
- [FortiClient support on page 9](#)
- [FortiMail support on page 9](#)
- [FortiEndpoint support on page 9](#)
- [FortiNDR support on page 9](#)
- [FortiSandbox support on page 9](#)

You can also use an on-premise FortiAnalyzer to collect and forward logs through a FortiSOC Connector to the *Analyzer* module. For supported software, see the [FortiAnalyzer Release Notes](#) for your version of FortiAnalyzer.

The on-premise FortiAnalyzer will also forward logs from authorized third-party platforms.

- For a list of native log parsers in FortiAnalyzer, see the [Fabric Normalization Reference](#).
- For a list of additional log parsers available when FortiAnalyzer is licensed for SOC Automation, see the [FortiAnalyzer SOC Automation Content Pack](#).

FortiOS support

FortiSOC version 26.2.1 supports the following FortiOS versions:

- 7.6.0 and later
- 7.4.0 and later
- 7.2.0 and later

FortiWeb support

FortiSOC version 26.2.1 supports the following FortiWeb versions:

- 7.6.0 and later
- 7.4.0 and later
- 7.2.0 and later
- 7.0.0 and later

FortiClient support

FortiSOC version 26.2.1 supports the following FortiClient versions:

- 7.4.0 and later
- 7.2.0 and later
- 7.0.3 and later

FortiMail support

FortiSOC version 26.2.1 supports the following FortiMail versions:

- 7.6.0 and later
- 7.4.0 and later
- 7.2.0 and later

FortiEndpoint support

FortiSOC version 26.2.1 supports FortiEndpoint.

FortiNDR support

FortiSOC version 26.2.1 supports the following FortiNDR versions:

- 7.6.3 and later

FortiSandbox support

FortiSOC version 26.2.1 supports the following FortiSandbox versions:

- 5.0.3 and later

Model support

FortiSOC 26.2.1 supports the same models as FortiAnalyzer 7.6.5. For a list of supported models, see the following lists in the [FortiAnalyzer 7.6.5 Release Notes](#) on the [Fortinet Document Library](#).

- [FortiGate models](#)
- [FortiGate special branch models](#)
- [FortiMail models](#)
- [FortiWeb models](#)
- [FortiNDR models](#)
- [FortiSandbox models](#)

External systems support

For supported third-party devices and applications, see [FortiSOC External Systems Support](#) in the Fortinet Document Library.

Web browser support

FortiSOC version 26.2.1 supports the following web browsers:

- Microsoft Edge 148.0.3967.83
- Mozilla Firefox version 151.0.2
- Google Chrome version 148.0.7778.217

Language support

The following languages are supported in FortiSOC version 26.2.1:

- English
- French (Preview)
- Japanese (Preview)
- Korean (Preview)
- Simplified Chinese (Preview)
- Traditional Chinese (Preview)

Languages in "(Preview)" are currently undergoing evaluation and may contain incomplete or tentative translations. Please note that translations may not be final and could contain errors or inaccuracies.

To edit the system language:

1. In the FortiSOC GUI, click the settings icon in the banner.
2. Go to *System > System Configuration > General > Set Language*.
3. From the *Select Language* dropdown, select the preferred language.
4. Click *Save*.

Known issues

The following issues have been identified in FortiSOC version 26.2.1. To inquire about a particular bug or to report a bug, please contact [Fortinet Customer Service & Support](#).

Bug ID	Description
1269713	Default oftp certificate is set to "Fortinet_Local2" with subca2003 instead of "Fortinet_Local".
1282816	The FortiAI playbook takes long time to start running after it is triggered.
1284877	The logfwding rate to SIEM is lower than expected compared to previous builds.
1294340	Identity linked to an Alert is not linked to the Case.
1296503	Case marked as Active before the "Target case activation limit" was reached for the escalation rule.
1298645	LogForward connection from Analyzer to SIEM is disconnected.
